

ERRATA

B. Quemener and J.-M. Brillouet (1983) *Phytochemistry* **22**, 1745. The authors regret that the formula given for D-pinitol was incorrect. The correct formula is shown below:

M. Zakelj and L. J. Goad (1983) *Phytochemistry* **22**, 1931. The typesetters regret that on p. 1933, second column, lines 57–60 were misprinted. The passage from lines 55–63 should read: 'Radioactivity accompanied both the 3 β -acetoxy-24-methylcycloartan-24,28-diol (**16c**, 2.07×10^4 dpm) derived from **10c** and the 3 β -acetoxy-24-methylcycloartan-25,26-diol (**17c**, 5.53×10^3 dpm) produced from **13c**. Cleavage of these diols by sodium periodate treatment produced the labelled oxo-compounds 24-oxocycloartanyl acetate (**18c**, 1.80×10^4 dpm) and 24-methyl-25-oxo-26-norcycloartanyl acetate (**19c**, 3.70×10^3 dpm), respectively.'
