

PAPERS ACCEPTED FOR PUBLICATION

- R. WOLLGIEHN und B. PARTHIER: Der einfluss des kinetins auf den RNS- und proteinstoffwechsel in abgeschnittenen, mit hemmstoffen behandelten tabakblättern. (*Received 22 August 1963.*)
- J. D. JONES, A. C. HULME and L. S. C. WOOLTORTON: Mitochondrial preparations from the fruit of the apple. Part 2. (*Received 24 August 1963.*)
- C. H. MAO, J. P. BLOCHER, L. ANDERSON and D. C. SMITH: Cyanogenesis in sorghum vulgare. (*Received 26 August 1963.*)
- R. H. SMITH: The monoterpenes of Lodgepole Pine Oleoresin. (*Received 26 August 1963.*)
- K. K. TEWARI and M. SINGH: Acid soluble and acid insoluble inorganic polyphosphates *Cuscuta reflexa*. (*Received 26 August 1963.*)
- A. C. JAIN and T. R. SESHADRI: Methods for distinguishing between flavons and flavonols. (*Received 28 August 1963.*)
- C. W. CHANG and A. KIVILAAN: Studies on the nucleic acid of oenothera and the preparation of DNA from *Oenothera* and *Zea mays*. (*Received 29 August 1963.*)
- C. R. SMITH, L. H. NEICE, H. F. ZOKEL and I. A. WOLFF: Glycosidic constituents of *Ipomoea parasitica* seed. (*Received 29 August 1963.*)
- H. R. SCHUTTE, K. L. KELLING, D. KNÖFEL and K. MOTHES: Biosynthesis von adenocarpin in *Adeno carpus viscosus*. (*Received 30 August 1963.*)
- R. F. NELSON and B. J. FINKLE: Enzyme reactions with phenolic compounds. (*Received 31 August 1963.*)
- R. J. ELLIS, K. W. JOY and J. F. SUTCLIFFE: The inhibition of salt uptakes by D-serine. (*Received 2 September 1963.*)
- R. J. ELLIS: Effects of D-serine and chloramphenicol on amino acid metabolism. (*Received 2 September 1963.*)
- A. R. COOK and D. BOULTER: The utilization of urea by *Candida flareri* (*Received 5 September 1963.*)
- V. V. S. MURTI, T. R. SESHADRI and T. A. VENKITASUBRAMANIAN: Neurotoxic Gpds. of the seeds of *Lathyrus sativus*. (*Received 9 September 1963.*)
- L. M. YU and R. E. HAMPTON: Biochemical changes in tobacco infested with *Colletotrichum destructivum*. Part I. (*Received 9 September 1963.*)
- V. H. BOOTH: Taraxien, the carotenoid ester in dandelion flowers. (*Received 11 September 1963.*)
- P. M. NAIR and C. S. VAIDYANATHAN: Enzymatic conversion of anthranilic acid to catechol by chloroplasts from the leaves of *Tecoma stans*. (*Received 13 September 1963.*)

- W. LAWRIE, J. MCLEAN and A. C. PATON: Triperpenoids in the bark of elder (*Sambucus nigra*). (Received 23 September 1963.)
- K. ISONO and R. W. CURTIS: Chemical studies on malformin. II. Synthesis of cyclic pentapeptides related to malformin A. (Received 23 September 1963.)
- K. WEINGES: The occurrence of catechins in fruits. (Received 30 September 1963.)
- T. W. HOLMSEN and A. L. KOCH: An estimate of protein turnover in growing tobacco plants. (Received 3 October 1963.)
- R. S. KARIMOTO, B. AXELROD, J. WOLINSKY and E. D. SCHALL: The Structure and synthesis of annaloline, an oxazole occurring in annual rye grass. (Received 8 October 1963.)
- A. U. OGAN: Studies of W. African medicinal plants. 1. Constituents of *Carica papaya* Linn. Family Cariceae. (Received 15 October 1963.)
- S. N. AIYAR, M. K. JAIN, M. KRISHNAMARTI and T. R. SESHADRI: Chemical components of the roots of *Connarus monocarpus*. (Received 21 October 1963.)

ERRATUM

Phytochemistry, Vol. 2, No. 1, January 1963.

J. B. Harborne, Plant Polyphenols IX. The glycosodic pattern of anthocyanin pigments. Page 89, line 18, and page 92, Table 7, entry 14; *L. hirsutus* should read *Lathyrus sativus*.
