The authors regret that the structures of calealactones A (**1**), B (**3**) and 2,3-epoxycalalactone A (**2**) in the above article had already been reported as compounds **2h**, **4e** and **4d**, respectively, by Herz and Kumar (Phytochemistry 19 (1980) 593–597). “Calealactone A” (p. 3107, line 1 of the abstract; p. 3108, column 1, lines 1 and 36; p. 3110, column 2, line 31)

should read “compound **2h**”, “calealactone B” (p. 3107, line 1 of the abstract; p. 3108, column 2, lines 17 and 28; p. 3111, column 1, line 1) should read “compound **4e**, and “2,3-epoxycalalactone A” (p. 3107, line 1 of the abstract; p. 3108, column 2, lines 1 and 15; p. 3110, column 2, line 38) should read “compound **4d**”.
