

CORRIGENDUM

Oxovanadium(IV) and amino acids—VII. The system L-histidine + VO²⁺; a self-consistent potentiometric and spectroscopic study. J. Costa Pessoa, S. M. Luz, I. Cavaco and R. D. Gillard (*Polyhedron*, Vol. 13, No. 23, pp. 3177–3198 (1994)).

Several errors have been detected in the above paper. The following should read :

p. 3182, 2nd column, last line

... and values of λ_{\max} (band II) \approx 500 nm and λ_{\max} (band I) \approx 680 nm ...

p. 3184, Fig. 3c

The visible spectra in the figure are wrongly numbered, the correct figure should be as shown

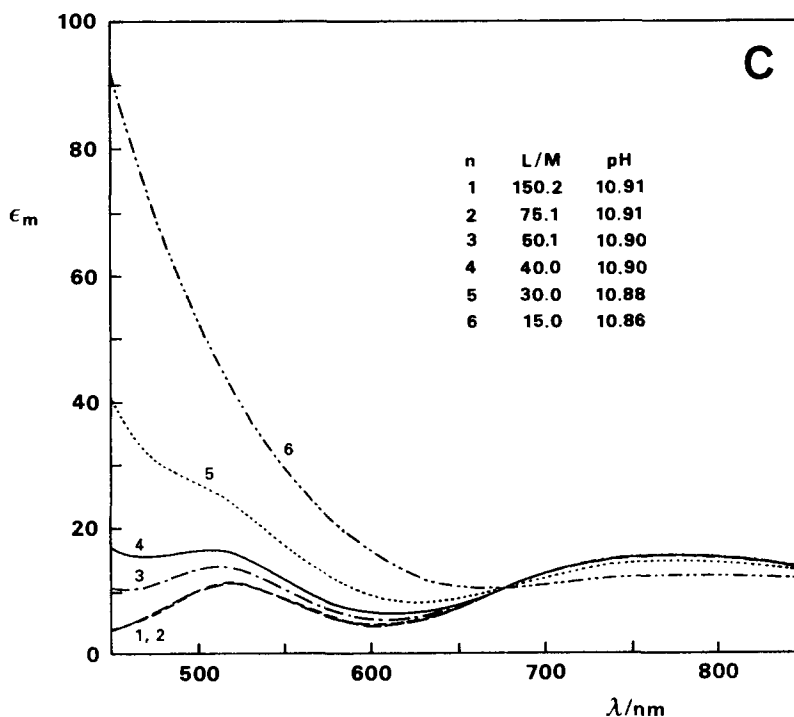

Fig. 3c.

p. 3192, 2nd column, 2nd line

... the result of the sum of the bands II (with $\Delta\epsilon > 0$) and I (with $\Delta\epsilon < 0$) ...

p. 3197, 1st column, 12th line

... imidazole-N(1)H ... should be imidazole-N(3)H

p. 3197, 1st column, 22nd line

... N(1)H ... should be N(3)H
