

Announcement

August, 10 - 14

The Gesellschaft Deutscher Chemiker and the Scientific Committee cordially invite you to attend the

8th International IUPAC Symposium on Cationic Polymerization and Related Processes

Invited Speakers

The following scientists have already accepted to present a lecture:

E.M. Arnett, P. Boettcher, H. Cheradame, H. Cherdrón, J.V. Crivello, E. Franta, A. Gandini, E. Goethals, M.L. Hallensleben, W. Heitz, G. Heublein, T. Higashimura, A.F. Johnson, K.S. Kazanskii, J.P. Kennedy, J. Kops, H.R. Kricheldorf, P. Kubisa, R. Lenz, M. Marek, H. Mayr, R. Musch, O. Nuyken, G. Olah, S. Penczek, V. Percec, P.H. Plesch, V. Ponomarenko, T. Saegusa, M. Sawamoto, R.C. Schulz, J. Sebenda, P. Sigwalt, S.S. Skorochodov, G. Willson

Call for Papers and Closing Date for Contributions

The Scientific Committee invites scientists with interesting topics to present a lecture or to prepare a poster for the session. Please note that the closing date for contributions is *January 7, 1987* and use attended form.

Topics

Topics of the conference are:

1. *Industrial Applications of cationic polymerization*
2. *Fundamental carbenium ion chemistry*
3. *Ring-opening polymerization*
4. *High energy induced processes*
5. *Cationic polymerization mechanism*
6. *Cationic olefin polymerization*
7. *Telechelics, macromonomers, and block graft copolymers*
8. *Non-carbon polymers via cationic polymerization*

Further Information

Prof. Dr. Oskar Nuyken
Laboratorium für Makromolekulare Chemie I
Bayreuth University
