

Announcement

FOURTH MEETING ON FIRE RETARDANT POLYMERS

Freiburg, Germany, September 9-11, 1992

The purpose of this conference, organized by the University of Freiburg in close collaboration with the University of Torino and the University Louis Pasteur of Strasbourg, is to promote the scientific exchange between industry and academia in the area of

FIRE RETARDANTS MECHANISMS

- physics and chemistry of degradation
- synergisms
- smoke formation
- new analytical techniques
- intumescent systems
- fire dynamics

REGULATIONS AND STANDARDIZATION

- safety philosophies
- building industries
- transportation
- electrical applications

ENVIRONMENTAL ASPECTS

- smoke, toxicity, corrosion
- waste management

NEW FIRE RETARDANT MATERIALS

- new polymers
- fire retardants
- blend technology
- cables
- cellulose, textiles, wood
- new concepts

The conference consists of 5 main lectures, 6 invited lectures, 22 communications, 30 posters and exhibitions of new products. The deadline for contributions is January 30, 1992.
