

ANNOUNCEMENT

SYMPOSIUM ON EMULSION POLYMERS

A two-day international symposium on Emulsion Polymers is being arranged by the University of Manchester Institute of Science and Technology in collaboration with the Society of Chemical Industry for 16 and 17 September. Recent advances in the mechanism and techniques of emulsion polymerization will be reviewed on the first day, and the second will be devoted to indicating new applications. The symposium will be held in the University's student village at Owens Park where seventeen original papers will be presented. There will be three main lectures given in turn by Dr J. L. GARDON, Dr E. W. DUCK and Dr J. W. VANDERHOFF and time for questions and discussions is included. Further details are obtainable from the Registrar, University of Manchester Institute of Science and Technology, Sackville Street, Manchester M60 1QD.
