Announcing a new International Journal
from IPC Science and Technology Press

Biomaterials

published quarterly from January 1980

Editors: Dr. G. W. Hastings Dr. S. D. Bruck
Stoke-on-Trent, UK East Bethesda, Maryland 20014, USA

BIOMATERIALS publishes fundamental research papers and also those dealing with end-use applications, especially when they aid understanding of the structure, properties, interactions and function of biomaterials. The journal contains papers that study both synthetic and naturally occurring materials:

Metals	Polymers	Modified natural macromolecules
Ceramics	Composites	Pharmacologically active polymers
Rubbers	Adhesives	Drug delivery systems

aims to encourage 'technology transfer', i.e. cross-fertilisation of ideas to and from other disciplines, in the form of invited (or submitted) articles, where there is a relevance to biomaterials.

BIOMATERIALS is published quarterly in January, April, July and October

Annual subscription (4 issues) £45.00

ISSN 0142-9612
