Macromolecules '92, the third Euro-American Symposium will cover recent advances in the science, technology and applications of functional polymers and biopolymers. The programme will include plenary, invited and contributed lectures and poster sessions. Where appropriate, these have been grouped in the form of concurrent microsymposia, devoted to the appropriate areas of polymers or biopolymers. Participants will be invited to submit a synopsis of their contribution before the meeting, and a camera-ready summary of their lecture or poster will be published in "MACROMOLECULAR PREPRINTS '92", which will be available on arrival at the meeting. The proceedings of the meeting will be published as a special issue of Macromolecular Symposia
