Conference Program

The conference will include invited keynote papers, contributed oral and poster presentations

Advances in Synthesis -

Properties and Application of:

- * Star Polymers
- * Supramolecular Polymers
- * Telechelic Polymers
- * Functional Polymers
- * Macromonomers
- * Macroinitiators
- * Macroiniferters/Iniferters
- * Macroiniferters/ Macroinimers

Advances in Synthesis -

Application - Mechanism:

- * New Monomers/ Fluorinated Monomers
- * New Polymerization/Synthetic Routes
- * New Molecular Architecture
- * Ionic Polymerization and Related Processes
- * Living Polymerization and Processes
- * Bio-Polymers

Advances in Polymer Characterization and Modeling

- * Spectroscopic, Chromatographic, Microscopic and Field-Flow Fractionation Methods etc.
- * Molecular Modeling of Polymers

This is a great opportunity for idea interchanges between researchers so that we can all learn from each other and expand the vision we bring to our technical community.

Tentative Agenda

JUNE, 1995

The conference will begin on Saturday PM, June 24, with registration and reception and will end after the afternoon session and dinner of Wednesday, June 28.

- June 24(Sat.PM) - Arrival and Registration
- June 25(Sun.) - Conference
- June 26(Mon.) - Conference
- June 27(Tue.) - AM-Conference
PM - Tour/Cruise in Hudson
- June 28(Wed.) - Conference/Closing (Eve.)
- June 29(Thu.) - Departure/ Optional Tours

PROVISIONAL REGISTRATION FORM

If you wish to attend or contribute and to receive Second Circular Please complete this form and mail or fax to:

Dr. B. SAR
