Available online 14 March 2006

In the published article, Eqs. (12), (13), (15) and (17), the hyperbolic tangent function is incorrectly printed. These equations should appear as below:

$$\Delta U = \frac{\pi^2}{4} AB \tanh\left(\frac{Bm}{2A}\right) \quad (12)$$

$$\Delta U = \frac{\pi^2}{4} AB \tanh\left(\frac{\beta Bl}{Ac}\right) \quad (13)$$

$$f(T, \dot{\gamma}, l) = \frac{4\pi}{Kb^2l} \left[\frac{\pi^2}{4} AB \tanh\left(\frac{\beta Bl}{Ac}\right) + \frac{kT}{n} \ln\left(\frac{\dot{\gamma}}{\dot{\gamma}_0}\right) \right] \quad (15)$$

$$\mathcal{F}(T, \dot{\epsilon}, l) = \frac{4\pi}{Kb^2l} \left[\frac{\pi^2}{4} AB \tanh\left(\frac{\beta Bl}{Ac}\right) + \frac{kT}{n} \ln\left(\frac{\dot{\epsilon}}{\dot{\epsilon}_0}\right) \right] \quad (17)$$

In Ref. [1], the author’s name should appear as Peterson JM. We apologise for any inconvenience these misprints may have caused.
