

**Announcements**

29th Europhysics Conference  
on Macromolecular Physics

**"PHYSICS OF POLYMER NETWORKS"**

Alexisbad/Harz, Germany

September 9 - 14, 1991

The main topics of the conference are the following:

- I. Theory of Networks:  
Equilibrium and Dynamical Properties
- II. Formation of Networks and Sol-Gel Transition
- III. Experimental Investigations on Structure  
and Properties of Polymer Networks.

The scientific programme will consist of invited and contributed papers and posters. The second circular will be circulated in February 1991.

Address for information:
