HERCULES 1992

Higher European Research Course for Users of Large Experimental Systems

"Neutrons and Synchrotron Radiation for Condensed Matter Studies"

Grenoble , February 24 - April 10, 1992

Applicants : - Students registered in a Doctoral Programme of a European University
- Scientists from public or industrial Laboratories

Program :

- Lectures, Tutorials, Seminars : Instrumentation (synchrotron radiation and neutrons) - Interaction of X-rays and neutrons with matter - Applications to Solid State Physics and Chemistry (Option A), to Soft Condensed Matter and Biology (Option B)
- Practicals with the support of CENG, CNRS, EMBL, ESRF, ILL, INPG, LLB, LURE, UJF

Deadline : November 9, 1991

Information and Registration :
