5th SPSJ International Polymer Conference (IPC94) – Challenges in Polymer Science and Technology –

Place: Senri Life Science Center, Osaka, Japan

Period: Monday, November 28, through Friday, December 2, 1994

TOPICS

General Topics

- G1. Polymer Synthesis and Reaction
- G2. Polymer Structure and Characterization
- G3. Physical Properties of Polymers
- G4. Polymer Processing
- G5. Functional Polymers
- G6. High Performance Polymers

Selected Topics

- S1. Recent Advances in Olefin Polymerization
- S2. Polysilanes and Silicon Containing Polymers
- S3. Optically Active Polymers
- S4. Bio- and Bio-Related Polymers
- S5. Computer Modeling of Polymer Systems
- S6. Surface Modification of Polymers
- S7. Polymer Particles
- S8. Polymers for Photonics
