EUROCOAT 96 – Fourth Congress-Exhibition UATCM* of Paints and Adhesives

**September 18–20, 1996
Genova (Congress Centre), Italy**

During this 3-day Congress, conferences will be given on general interest subjects and on the following themes:

- Ship building
- Adhesives
- Anticorrosion
- Buildings construction
- Wood
- Instrumentation/methodology/regulations
- Powders
- Production
- Restoration

A training session will also be organized related to the main principles in formulation of paints and varnishes.

The sessions "Six minutes to attract and convince" will allow the manufacturers to present their new realizations in the fields of raw materials, by-products and equipment.
