To build this window, we went to the best suggestion box of all. Your job site.

What do remodelers want in a casement window? We turned your suggestions into our new Ultimate Replacement Casement, with features that streamline any installation—including custom sizing to match openings, a versatile jamb, frame bevel options, installation accessory kits, etc. To keep homeowners happy, we added the industry's sturdiest hardware (think no callbacks) and an exclusive new wash mode so it can be cleaned entirely from inside. Visit www.MarvinCasement.com or call 1-800-241-9450 for a free Ultimate Replacement Casement brochure.

Mario Mercado,
Ferguson Driver
Appleton, WI

Just after Hurricane Katrina, one of our Wisconsin customers was almost finished with a big project. One of the last items needed was stainless steel pipe, which had to be picked up from Chicago and delivered to Baton Rouge for fabrication. Unfortunately, the hurricane had disrupted all deliveries. Soon, every day of delay was going to start costing the customer \$75,000 in liquidated damages. Mario Mercado, a Ferguson driver in Appleton, volunteered to make the three-day trip from Wisconsin to Chicago and then to Louisiana. Thanks to him, the customer completed the project on time without incurring any extra cost. Just another great example of how Ferguson associates come through in difficult times.

Nobody expects more from us than we doSM

YOUR GUIDE TO NEW PRODUCTS

My annual trip to the International Builders' Show is always an eye-opener. Not only does the volume of new products debuted each year continue to increase at an astounding rate, the options these

new products provide you and your customers can be both exciting and overwhelming at the same time.

If you're not up on all the latest product developments, you could look like an amateur in the eyes of your clients. To avoid this embarrassing prospect and the potential loss of business it can cause, you've got to find a way to keep up on the latest and most innovative offerings in the marketplace.

Our annual Buyers' Guide is a great place to start. What follows is a step-by-step guide to using this resource to your best advantage.

First, you'll notice that the guide is broken into two major sections: a Product Index and a Manufacturer Index. The Product Index is divided into subgroups such as interior products, exterior products, windows and doors. So, if you're looking for a particular type of product, you simply look up the primary grouping in the Product Index. Each primary grouping also includes a number of product categories.

For example, let's say you're planning a kitchen remodel and you want

to look for some new options in range hoods. First, you would turn to the interior products section, locate the appliances category and look for the exhaust vents/range hoods heading. Under that heading, you'll find dozens of manufacturers listed.

Now you can turn to the alphabetical Manufacturer Index, where you'll find each company listed along with its contact information, including address, Web site, customer service phone number, fax number and e-mail address.

After that information is a series of letters corresponding to a key on the first page of the Manufacturer Index. These letters explain the services each manufacturer offers remodelers, such as co-op advertising or referral program; the sales channels it uses (dealers, wholesalers, home centers, lumberyards, for example); and the geographic areas it serves.

Armed with this arsenal of information, you can use your favorite means of research (mine is the

Internet) to find out more about the product's features, specs and pricing.

50 MOST INNOVATIVE PRODUCTS

Be sure to check out the debut of what will be an annual Remodeling Show issue for us, The 50 Most Innovative New Products of 2008, delivered as a supplement to your regular September issue of *Professional Remodeler*. **PR**

DON'T LEAVE
DUST
HANGING
IN THE AIR.

Rapid Coat® Low Dust, All Purpose Joint Compound forms heavier dust particles during sanding for less airborne dust. Dust falls quickly to the ground instead of hanging in the air for less mess and faster clean up.

Decking, Evolved

Our decks go equally well with red wine, BBQ sauce or ketchup.

First there was wood, then composites, and finally there's the next generation of decking. Presenting AZEK Deck, a superior decking option that is refining - and redefining - the very notion of building a deck. Engineered with Procell™ Technology, AZEK Deck virtually eliminates the shortfalls associated with wood and composite decking so you can forget the stains and mold problems that are common with the leading composite decks.

Built to withstand a houseful of household objects, homeowners can actually live on their AZEK Deck. Spilled wine, fruit punch, even hamburger grease are no match for AZEK Deck's stain resistance. And since it's scratch resistant also, you won't have to worry about scuffing it up during installation and AZEK Deck will keep looking great for years.

AZEK Building Products has more than 20 years of experience in cellular pvc manufacturing. We make AZEK Trim, the number one brand of trim, and AZEK Moulding. And now, we're bringing our leadership and innovation to AZEK Deck.

To see why AZEK Deck is the solid choice for building a better deck, visit azek.com or call 877-ASK-AZEK.

Clad-Wood Pocket Double-Hung Window

At Simonton, we believe a window should do more than make a home look good, it should make the remodeler look good, too. So we do everything to make sure you're number one in your homeowners' eyes. We offer styles and sizes to suit any home type. We engineer our products for reliability and ENERGY STAR® compliance. And we back them with the best service, on-time delivery, and one of the most comprehensive lifetime warranties in the business. Because we know that if your customers have a good opinion of their windows, chances are, they'll have a good opinion of you. To learn more, call 1-800-SIMONTON or go to simonton.com.

Best of the Best Design Awards

2008 Call for Entries

Professional remodeling contractors, architects and designers—here's your chance to gain national acclaim for your projects completed between January 1, 2007 and May 1, 2008.

The *Professional Remodeler* Best of the Best Design Awards recognize the best construction quality, creativity, design and problem solving in 20 entry categories.

Judging is conducted by an expert panel of remodeling professionals and the editors of *Professional Remodeler* magazine. Platinum, Gold, Silver, and Bronze awards are awarded in each category.

Enter by April 15 at
www.ProRemodeler.com/designawards2008

You will receive an official project notebook for each project you enter. Official project notebooks must be submitted no later than May 15, 2008.

Winners will be honored at the *Professional Remodeler* Best of the Best Design Awards Celebration at the September 2008 Remodeling Show™ in Baltimore, and featured in the November issue of *Professional Remodeler* magazine! Enter today!

Go to www.ProRemodeler.com/designawards2008

Entry forms and fees due April 15, 2008

Little fastener. Big difference.

The Latitudes Equator™ hidden fastener delivers automatic, consistent alignment of deck boards for beautiful results and big-time savings. Y-shaped “gap wings” let boards expand and contract to prevent lifting. This unique fastener is engineered to work together with Latitudes Equator slotted composite decking to yield a blemish-free surface. And in terms of satisfied customers, that’s enormous.
