Radex DX Forecast

For DECEMBER, 1941

DX Conditions during December are generally very good. During this month, TA reception in the East becomes commonplace and not too much patience is needed to strike a night where there are several Europeans breaking through. This holds true for Eastern and North Central states, however, after the Mississippi is crossed the signals from across the Atlantic become rarer. There have been records of TA reception on the West Coast, but such events do not occur every season.

As for Latin Americans they should continue to be good all over the nation and it is no uncommon experience to find the dial over-ridden with Spanish speaking stations on a December evening.

TP's will be more difficult to log in the East this month and next than at any other period during the season, but West coasters should find little difficulty in hearing them. When we speak of TP's we refer to New Zealand and Australian stations, Japanese and other Asiatic stations ought to be better this month than at any other time in the season, but chances of hearing these stations in the East are as unlikely as TA reception in California.

For those who DX for domestic stations, December is an ideal month. Less static, stronger signals, and longer nights tend to add to the attractiveness of December as a DX month.

Christmas DX

And remember that Christmas morning finds many a Latin American station staying on practically all night. As we recall, last season found all the Costa Rica stations on the air long after midnight, as well as several stations in Columbia, Venezuela, Cuba, and other countries.

Foreign DX Heard

While glancing through a recent issue of RADEX, your editor concentrated on the Amateur Calls Heard department. Reading and re-reading it, a little idea began to take form and soon we had the outline for what we are about to present below. A completely tabulated list of all the foreign DX stations heard and reported by our readers since the last issue. Using this list as a guide, and bearing in mind that most of the catches were made during October and early November, see how many new stations you can log! And keep us posted on what you hear—others will be interested.

A few explanatory notes are in order. The frequency in kilocycles is listed first, then the call, then a number signifying time the station was heard (see code) and lastly the small letters indicating the reporters who heard the station (see list at the end of this article).

Code

- 1.—means the station was heard between 6-9 p.m.
- 2.—means the station was heard between 9-p.m.-mid.
- 3.—means the station was heard between mid-3 a.m.
- 4.—means the station was heard between 3-6 a.m.

Calls Heard

What's New

In this issue we introduce several new features, most important of which is Control Room Chatter—a department of by, and for our radio station operators and technicians. . . . Veri News and New Veris presents quick glance at what the stations are sending for verifications. . . . Ham Calls Heard are back in RADEX and BCB Calls Heard are a new feature of our DX Forecast. . . . FM List and BCB Stations by Locations are omitted to make space for a List of FCC and other test programs, as well as for the BCB List by Call Letters. Henceforth these features will appear in alternate issues and will give our readers more news in our limited space. Our limit now is 80 pages. What we need is more Vitamin "S". (See page 80).

RADEX—Published monthly except May, June, August and October by The Radex Publishing Co., 148 Copley Ave., Teaneck, N. J. Subscription in the United States and Possessions and in Cuba and Mexico, \$2.00 per year; \$2.40 per year in Canada; all other countries, \$2.25 per year. Single copies, 30c; in Canada, 35c. Presenting

THE WORLD DX ALLIANCE

This is the second in a series of articles on the radio DX clubs. Another club will be presented next month.

The World DX Alliance had its initial debut as a Radio Club on December 15th, 1938. It first began its operation in Perth Amboy, New Jersey. The Club was organized by persons wellknown in the DX World, as a non-profit Organization, its sole aim being to assist its Members in logging Stations, by securing Special DX Programs for WDXA members as well as by maintaining a friendly relationship among its Members.

The WDXA Publication features a complete, mimeographed Bulletin, containing all the latest available DX News on the Broadcast; Short-wave; Amateur "Ham" Bands, and a SWL Card Swappers Column edited by DX'ers specializing in these various branches. There are also DX Tips and Programs dedicated to the WDXA as well as other DX Clubs throughout the U. S. A. and in foreign Countries.

The WDXA is also offering many valuable Prizes each month to its Members for special performances. The Bulletin is issued on the 1st and 15th of each month during the DX Season from October 15th to April 30th, inclusive, and once a month during the Summer. The Dues for a Membership in the World DX Alliance are very reasonable. Complete information as well as a Sample Bulletin will gladly be sent upon receipt of a 3 cent stamp to cover cost of mailing and handling.

Recently the WDXA moved from Perth Amboy, New Jersey to its new and enlarged quarters in New York City and after installing new Typewriters, Mimeograph Machines and

enlarging its editorial Staff, is now able to serve its many Members with the utmost efficiency, hence the Club Slogan: "For the very latest DX News FIRST — ITS THE WORLD DX ALLIANCE. The Editorial Staff is composed of the following wellknown DX'ers: Erick R. Johnson, Director and its Broadcast Band Editor; Peter A. Clarius, Chairman of the Courtesy Program Committee; Mrs. Bee Catalano, Short-wave Editor. Incidentally, the WDXA is the only DX Club which can boast of a woman Editor who really knows her Short-wave DX. George Eder is Amateur "Ham" Editor; Eugene Francis; Editor of the SWL Card Swapper Column; Walter Holoob, Special Feature Editor, and other Contributors. The World DX Alliance has in the short space of a few years grown to be one of the accepted DX Clubs with Members throughout U. S. A., Canada, Cuba, Mexico and several European as well as South American countries. Any DX'er who is interested may secure further particulars by addressing its Director, Erick R. Johnson, P. O. Box No. 2,—Wakefield Station, New York City; New York. A three-cent stamp will bring you a Sample Bulletin and all information about the WDXA.

Personal Notes About Station Personnel

This NEW feature of the NEW RADEX is devoted to the Chief Engineers at the various radio stations and the men who work with them. How about it, boys, this is your column. The success of this feature depends upon the notes you send us about yourself and the rest of the boys at your station. We would especially like notes of a personal nature that have a general interest, such as odd happenings at the station that you think the boys at some other station might like to read. And if you want to boast of some accomplishment, this department is where you do it! And don't forget we're open to suggestion for improving this little section!

Dave Jefferies, who does the Chief Engineering at WCED in Dubois, Penna., is proudly displaying that station's first authentic report from California. WCED has heard from twenty-one states and the province of Ontario on their 4-5 a.m. broadcast, scheduled for the last Tuesday of each month.

George Fariss, who also is Chief of the Engineers—he's at WGPC in Albany, Georgia, answers all DX mail personally. Listeners who write them do not receive a printed card or form but a personal letter on the station's attractive letterhead.

Gene Flaherty, manager at KSCJ in Sioux City, Iowa, if we are to judge from the results, really spent some time to please the DX listeners when he designed the new KSCJ verification card now being used by that station. The card is illustrated in this issue of RADEX.

George Comte, on the announcing staff at WTMJ in Milwaukee, was recently rewarded for his fine work by being assigned to cover the Wisconsin Symphony's concerts at the Milwaukee Auditorium. George will act as commentator during the broadcasts. . . . And incidentally, George—

together with Roy Peterson, WTMJ's musical director, have collaborated in writing a new University of Wisconsin fight song called "Forward Wisconsin."

Brief Notes

Our old friend Mort Blender who used to handle those early morning DX periods over WCOP a few seasons back has since become one of Boston's most popular announcers and commentators. S'a long time since we've heard from ya, Mort. How about a word or two from you on how ya like this new department we've just inaugurated? . . . And while we're renewing old acquaintances, it would be pleasant to hear from Enrique Hidalgo, our Cuban friend who used to be DX announcer at CMHJ.

Holly Wright and Gil Hodges are the "Johnny on the spot" boys at WTAG in Worcester, Mass. They're the announcers who cover all the special events. Whoooo-eee cries the siren on the snappy white emergency truck which carries the WTAG mobile unit to the scene of a major occurrence, and Gil and Holly are off again with their assistants to describe the news to WTAG fans while it is being made. The whole crew is to be commended on their coverage of the recent kidnapping in Fitchburg at which time WTAG remained on the air after hours carrying news to anxious listeners and broadcasting instructions on the care of the infant to the kidnapers. . . . While Gil and Holly speed around the city in

(Continued on page 4)

Channel Chatter

By the Eastern and Western Editors

Standard Broadcast news of the world compiled almost exclusively from reader reports. Acknowledgement and list of reporters are found in East and West Coast columns. E. S. T. is used in all items except those in Italics which are exclusive West Coast items where P. S. T. is used. Report of foreign DX heard will be found elsewhere in our DX Forecast.

570 kcs.

KVI over-rides KMYR on this channel until 3 a.m. according to Cooper (N. Y.) WMCA is QRM'd (Conn.) each night by CMHI and WSYR. . . .

580 kcs.

WILL in Urbana, Ill., broadcasts daily except Sunday from 8 a.m. to 6 p.m.

590 kcs.

WAGA, "Atlanta's Wave of Welcome" station will very soon be operating on this frequency with 5000 watts.

600 kcs.

WSJS is now NBC Red Network exclusively. . . .

610 kcs.

KDAL in Duluth, Minn., is now on this frequency and uses 1000 watts day and night according to Ryan Halloran, DX Announcer. (R2167—Len Kruse). . . WSGN is now operating on this frequency.

640 kcs.

VONF is usually tops on this channel from 8-8:45 p.m., but YSS is heard after this time, according to Steve Mann.

650 kcs.

WSM is heard well is western Canada (Stoneman—B. C.)

Page four

660 kcs.

KSKY the new radio voice in Dallas, Texas took the air officially early in October.

KXOK's simple, but neat veri.

680 kcs.

WISR in Butler, Penna. is now broadcasting regularly. Cliff Gorsuch, Chief Engineer, is verification signer. . . . WLAW, Eddie Strankna believes, must cut its power at sunset as the signal becomes almost inaudible from an R7!

690 kcs.

CMQ and CBF stage a good battle until 11 p.m. when CMQ blasts through loud and clear.

700 kcs.

W8XO conducts regular tests from 11:50-midnight every Saturday, using 500 kw. Benny Miller—R2368 submits this tip.

(Next page, please)

CONTROL ROOM

the WTAG cruiser, WORC's Russell Brooks is content to get where he's going on a bicycle. And it's much better exercise, too!

710 kcs.

KIRO is being heard behind WOR late at night by Eddie Strakna (Conn.). . . .

720 kcs.

A Spanish speaking station is being heard regularly behind WGN by Steve Mann (N. H.). Station is presumably H J C U, Radio Cristal, Bogota.

730 kcs.

XEQ in Mexico City is now on this channel using 50000 watts, having exchanged frequency with XEDP which is now on 940 kcs.

750 kcs.

WHEB in Portsmouth, N. H., has its studios and transmitter equipment located in a welded, all steel panel building, which is the first of its kind in the U. S. These panels are packed with flakes of mica, making it sound-proof. Transmitting tower is 30 ft. high. Antonio A. Vaccaro, second engineer signs the verifications. (R2167). . . .

760 kcs.

KGU can be heard well after WJR signs off at 9 p.m. (Stoneman)

810 kcs.

Fred Anderson, stationed with the army in Manila, tells us that there is a Chinese station, XGOW, location unknown, operating on this frequency with 50,000 watts.

820 kcs.

WAIT (formerly WCB D) can be heard every morning at 6 a.m.

830 kcs.

WNYC comes on the air every morning at 7 a.m., including Sunday.

850 kcs.

OAX4A was heard on 854 kcs. at 8:10 p.m. Reported by Larry Yarnes!

880 kcs.

YV5RQ is sometimes audible behind WABC, but not much chance of really bringing it in Eastern part of this country. . . .

Station believed to be Caracas, Venezuela, was heard on 883 kcs., just a shade above WABC, by L. E. Yarnes.

900 kcs.

CHML and XEW have a regular argument for supremacy of this channel nightly. XEW is in the clear when CHML goes off. CJBR is among the missing (Strakna—R2327).

910 kcs.

WJHL is now a member of the National Broadcasting Co. . . .

920 kcs.

CKNX in Wingham, Ontario was first noticed using 1000 watts on October 7. CKNX is silent from 2-5 p.m. daily according to R1920—Canada. . . . KFPY is on the air from 9:45 a.m. to 3:00 a.m. (R1843—Stracener).

940 kcs.

XEDP drowns CBM's signal to a whisper nightly!

950 kcs.

KFEL is now a 24-hour schedule.

970 kcs.

WAAT is now on every morning except Monday—all morning.

980 kcs.

WTRY is now on unlimited time, on the NBC-Blue Network, and sign off at 12:05 a.m. daily. . . . KFVB can be heard signing off at 3 a.m. with QRM from CJRM. . . .

1000 kcs.

CMKW is heard with R5 signals after WINS signs off. . . .

1010 kcs.

XEAW in Reynosa is being heard by many Radexers on this channel as well as on 1570 kcs. Programs are usually different on both stations and XEAW on 1010 is loud and clear during the early morning hours. Station signs off late and comes on the air very early in the morning.

CMX in Havana can be heard before 9 p.m., at which time KFVD comes on the air. (Hanisch.)

1020 kcs.

Mysterious English speaking station heard once from 9 p.m. (when they came on) until about 10 p.m. under KDKA. It was heard only once. (Eddie Strakna).

1030 kcs.

WCAR in Pontiac, Michigan QRMS WOV in the early evening before the former signs off. There is a terrible hum on WOV during the evening. (Eddie Strakna). . . . WBZA can be heard testing immediately after regular WBZ - WBZA sign-off at 1:00 a.m. on the 1st Sunday of the month. Test lasts five minutes. (Crain—N. J.)

1060 kcs.

KYW is QRM'd by a Mexican station believed to be XEST. . . . XEST actually over-rides KYW, according to Benny Miller—R2368, Spring City, Tenn.

1070 kcs.

WIBC in Indianapolis, Ind. is a member of the Mutual Broadcasting System. . . . Sgt. A. W. Brummond of Fort Sam Houston, Texas reports a Latin American on this channel using marimba music and featuring a saxophone. No announcements were heard for 45 minutes. . . . CBA suffers much more from QRM now than before re-allocation, but it is still an R9 station throughout New England and other Northeastern states.

1080 kcs.

LR1 "hasbed" KNX from 7:45-8 p.m. (Yarnes)

1110 kcs.

WMBI usually QRM's WBT before its sign off in the early evening.

1130 kcs.

WCAR comes on at 4 a.m. daily, as per Ernie Cooper (N. Y.)

1150 kcs.

CHSJ can be heard through local WCOP as early as 4 p.m. states Alton Caldwell, of Mass. . .

1170 kcs.

WWVA is now NBC Blue Network station. . . .

1190 kcs.

WOWO inaugurated its 50000 watt transmitter on October 29th! XELO is now using this frequency and sign off at 2 a.m. in Spanish and English. . . . HJAN on this channel

Page six

is undoubtedly the easiest South American to log this season. The Colombian is very often louder than any other station on the channel, especially during the early part of the evening.

1220 kcs.

WGNV is now using this channel daytime only. . . . CHAB is in the clear from 2-2:15 a.m. after XEB has signed (Cooper—N. Y.)

1230 kcs.

WITH is on 24-hours daily except from 3-5 a.m. on the second week of the month. . . . WBOC is now on this channel and sign-off at 12:05 a.m. daily. . . . CKTB heard late several nights with sports broadcasts. . . .

WCED in Dubois, Penna. continues to hold regular tests on the last Tues-

Radexer Allen G. Hooker
Liberty, Sask.

day of each month from 4-5 a.m. at which time WITH is silent, according to Dave Jefferies, Chief Engineer at WCED.

1240 kcs.

KMAC is now on this channel, having completed the change from 1400 kcs. WGGA reported testing by Ernie Cooper, should now be on the air. . . . WJW is now a Mutual outlet. . . . WOCB is listed as Hyannis, Mass., but announce as West Yarmouth, Mass. . . .

1250 kcs.

KWSC heard on a dancing party program at 2:30 a.m. by Alt. Caldwell (Mass.). . . .

1260 kcs.

KFGQ is moving to this channel with 250 watts, daytime only. . . . WOL is silent on Monday mornings—so says Ernest Cooper. . . .

1270 kcs.

KFJZ is on 24-hour a day schedule again. . . .

1310 kcs.

WISH can be heard every morning until 2 a.m. . . .

1320 kcs.

WNEL is being reported by many RADEXERS as an easy catch on this frequency in the early evening.

1330 kcs.

WBBR comes on the air Monday through Friday at 6:30 a.m.

1340 kcs.

WEIM is now on the air. . . . WRWA has a test on the first Monday of the month from 5:30-6 a.m.

1360 kcs.

A mysterious station is reported by Ernest Cooper on 1365 kcs. around midnight. . . .

1400 kcs.

KTNM in Tucumari, New Mexico started operations on October 5th, according to Lester Krasin, Chief Engineer at the station. KTNM has no date for test programs as yet. . . . WKPT in Kingsport, Tenn., has "The Nation's Model Station" for a slogan.

. . . WSRR is now on the air, schedule as furnished by Ernest Cooper: 6:30 a.m. to midnight. . . . WJLB now on the air from 5 a.m. to 1:30 a.m. . . . WDWS's letterhead bears the call letters WAHJ, WBGN, WENW, and WEGV. Len Kruse wants information on these stations. (They are evidently mobile transmitters used by the station to cover special events—RL). . . . KFVS operates from 7:30 a.m. until 11 p.m., according to R2193—Bernhard Keiser. . . . WKWK is now a CBS station according to Cary Sampson. . . . WJZM in Clarksville, Tenn. is now on the air regularly.

Here's Arthur Cushen of Invercargill, N. Z. He is prominent in Mel Fisher's columns.

1420 kcs.

WOC in Davenport, Iowa informs Len Kruse (R2167), through their Ray Stauffer that the present defense needs may hold up their change to this frequency from 1450 kcs. Until new equipment is received, WOC will remain on 1450 kcs.

XEON has shifted frequency from 1140 kcs. (Hanisch)

1450 kcs.

WHLN in Harlan, Ky., sends a

Shortwaves In Review

By EASTERN AND WESTERN EDITORS

News of the world compiled by your editors from reader reports and other sources. Items submitted exclusively by one reader are credited to that reader. Other items are uncredited. Full credit to every reader is given in East and West Coast columns in another section.

All exclusive West Coast items are in *Italics* and in Pacific Standard Time. Eastern Standard Time is used throughout the rest of news.

AFRICA

Algiers

TPZ is being heard clearly again and reported by several RADEX readers as being heard well, except for slight fading toward the end of transmission at 7 p.m.

Egypt

SUV, 12120 kcs., is on the air 11 a.m. to 1 p.m. Programs starts with clock chimes and ends with National Anthem. They were also heard closing at 11:30 p.m. Above data submitted by Lannon, Stoneman, and Cushman.

French West Africa

"Radio Dakar" on 13355 kcs., NEW FREQUENCY, has been heard on this channel with much better signal than on any former frequency. They are on from 2-4 p.m. and sometimes, later—all this as per R1319—Caldwell.

Middle Congo

FZI, reports Steve Mann, in addition to its usual frequency of 11970 kcs. is licensed to use 6677 kcs., 11670 kcs. and 18440 kcs.

"Radio Club" on 12480 kcs., 12000 kcs., and 8500 kcs. broadcasts simultaneously every day from 1-1:15 a.m., 2-2:15 a.m., 3-3:15 a.m., 5:30-6:15 a.m., 7:30-7:50 a.m., 8:30-8:50 a.m., 1-2 p.m., and 3:30-5 p.m.

Union of South Africa

ZRD on 6148 kcs. in Durban, according to R2117 (Pa.), is a good bet for Northeastern listeners as they come in good every Sunday evening at midnight.

ZRL on 9615 kcs. in Klipueval is being heard regularly now on their 11:45 p.m. transmission of setting-up exercises.

ZTE on 11770 kcs. in Durban was picked up in the early morning hours by R1843 (La.) with weak singals.

ZRH, 9520 kcs., and ZRK, 6098 kcs., Capetown, are being heard 8:45-10:45 p.m. This item taken from latest IDA bulletin.

ASIA

Aden

ZNR on 12120 kcs. in Ras Boradi comes in R6 on the West Coast from 8:25-9:45 a.m. Identification is given in English at 8:25, 9:00, 9:15, 9:30, and 9:45. Corporal Charles Lannon reports this fine catch.

China

XGAP on 10260 kcs. logged from 7:30 a.m. until fadeout around 9:30. They were R9 at 7:30. Announcements were by a woman. (Legge and Roberts in NNRC bulletin).

XGRS on 12040 kcs. is by far the most consistently reported Chinese station. This station has an evening program in English from 5:30-7 p.m. with English news at 5:3 p.m. Herbert Morrey is news-caster. . . .

XGVM is also reported often on 11930 kcs. from 5:45-6:00 p.m. The station is known as "The Voice of Democracy." They are supposed to be on at 9 p.m. also, but they are not heard.

XIRS, 11980 kcs., Italian controlled, operates 2:00-4:45 a.m., and FFZ, 12040 kcs., French owned, broadcasts until 6 a.m. Both are located in Shanghai.

XCDN, "The Voice of Democracy," Shanghai, 11760 kcs., gives news in English at 3 a.m. and closes 7 a.m. This news comes from Art Cushen.

French Indo China

"Radio Saigon" on 11780 kcs. is being heard very well in the East at present. The station is heard in the morning from 6-9:30 a.m. (best on news at 6:15) in French with excellent signals; from 10:30-11 a.m. (in English), and again at 7-7:20 p.m. in French. The evening transmission is received with fair signals, while morning programs are louder with the earliest program the easiest to log.

Hong Kong

ZBW3 on 9525 kcs. is heard R9 from 7-9 a.m.

India

VUD-3 on 9590 kcs. in Delhi is heard irregularly in evening by R2228 (Mass.) from 9-11 p.m. with English news at 9:45 p.m. Signal is fair and rapidly fades out after 10 p.m.

VUD-4 on 11830 kcs. is being reported by a few Radexers as broadcasting from 6:45-7:45 a.m. with news in English at 7:30 a.m. Signals is good and announcements state that VUD-3 is being used in parallel.

Japan

JLG-4 on 15105 kcs. is being heard in parallel with JZJ on 11800 kcs. on a new English transmission from 6-6:30 p.m., followed by Japanese programs. The high frequency station is the loudest while the 11800 kcs. station is not heard very well in the East.

JZH on 6095 kcs. was heard at 1:30 a.m.

JLT3, 15225 kcs., a new Tokyo transmitter, has been heard 7-8 p.m. First reported by Gene Allen.

Java

PMN, 10260 kcs., Bandoeng, was heard broadcasting oriental music 6:45-7:45 a.m. Signal was excellent around 7 a.m.

PLQ2, 10680 kcs., was heard at 9 a.m., working KEZ at Bolinas on a Sunday morning. This fine catch made by Allen.

Manchukuo

MTCY on 11775 kcs. is broadcasting English programs irregularly from 8-8:30 a.m. and when on the air is heard in Eastern North America with a fine signal.

Netherlands East Indies

PLN on 11510 kcs. in Bandoeng was caught one morning at 9 a.m. with good signals by R1843—(La.).

Listening Post of Richard Daneker—Lansdale, Pa.

EUROPE

Andorra

"Radio Andorra" on 11675 kcs. is reported heard by Carlos Ramirez of Cuba at 4 p.m. with fair signals. They announce in French and Spanish and use electrical transcription for musical transmission. A sketch on Andorra is provided by Charles: "Andorra is a little principality between Ariege Department (France) and Larida Province. It has about 400 square miles and around 50000 inhabitants under the protection of France and Spain. Andorra has only recently been interested in radio. Andorrans are country loving folk engaged in raising cattle, sheep, horses; etc. . . . and contraband trade!"

Azores—New

Ponta Deglada—no call used on 14400 kcs. is heard from 3-4 p.m. daily and signs off with clock striking six—each stroke a double chime. Portugues National Anthem is heard on

sign off. Although quite a few American recordings are used, Portuguese seems to be the only language. Credit Alt Caldwell with this scoop.

Finland

OFE on 11780 kcs. is by far the easiest Finnish station to hear. OFD on 9500 kcs., and OIE on 15190 kcs. are heard, but not as well. Apparently the stations are now on from 7:30-7:45 a.m. and 2:15-2:30 p.m. and irregularly from 3:50-4:05 p.m. 4:15-4:30 p.m. and 7:55-8:10 p.m. These schedules were heard over OFE, but it is apparent that the stations observe no fixed schedules as these schedules vary as much as an hour on occasions! OFD is easiest to log in late afternoon and OIE late in the morning!

OFE, 11780 kcs., has news in English at 12:50 p.m. and 5 p.m.

France

"Ici Vichy, La Voix de France" identifies the new transmitter on 15240 kcs. Other slogans used are "Radio Diffusion National" and "Radio National de Onde Courte." The program is from 8:45-9:45 a.m. The station signs with "La Marseilles" and both men and women announcers are used.

"Radio Nationale," 15240 kcs., located in Vichy, was heard 6-6:45 a.m. Vichy also heard on 11845 kcs. at 8:45 p.m. and 10:30 p.m.

Germany—New

NEW STATION on 11880 kcs. reported by R2228—Feller with North American program and very good signals. This station has also been heard in the afternoon transmission.

DXZ's rather new transmission to North America on 9570 kcs. is being heard regularly.

Other German stations reported heard on the East Coast are DXS on 15160 kcs., DZD on 10549 kcs., DZE on 12130 kcs., DZC on 10290 kcs., DXP on 6020 kcs., DXM on 7270 kcs., DJW on 9650 kcs., DJA on 9560 kcs.

Page ten

DJX on 9675 kcs. in Vienna, Germany is now carrying a North American transmission in the afternoon.

DZC, 10290 kcs., DJP, 11855 kcs., and an unidentified station on 9605 kcs. were heard in parallel at 7:40 p.m. in Spanish. The latter station had the best signal.

Corporal Lannon reports a new German station on 15,120 kcs. It is DXH2 in Warsaw, and is on the air 3-8 a.m.

DXZ, 9570 kcs., is heard well 5-8 p.m.

A station on 7230 kcs. relays the N. A. broadcast 6-10 p.m. Another station on 11880 kcs. is heard in parallel with DJD from 7-8 p.m. Reported by Allen.

DXM on 7270 kcs. is heard until 8:30 p.m. nightly, in parallel with DZD.

Great Britain

Fall schedule of the B. B. C. transmissions to North America list programs from 4:15 p.m. to 11:45 p.m. on 25, 31, and 49 meter bands. Stations used are not listed, although we assume that GSL on 6110 kcs., GSC on 9580 kcs., and GSD on 11750 kcs. will continue to be the stations beamed at us.

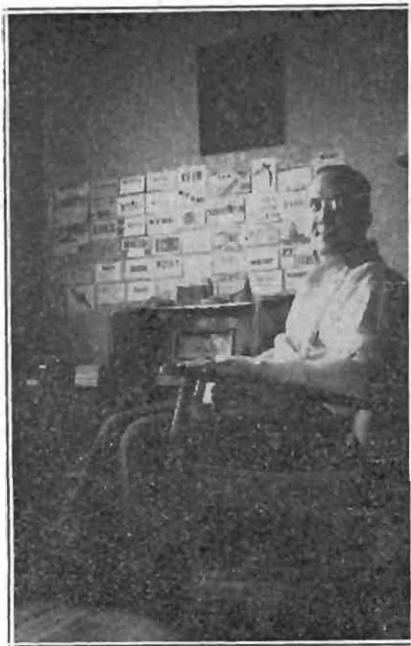

Assorted notes: GSB on 9510 kcs. operates from midnight to 3:15 a.m. . . . GRX on 9690 kcs. is one of the strongest signals heard here. . . . GSU on 7260 kcs. uses French from 12:30-12:45 a.m. . . . GSP on 15310 kcs. is heard with African transmission in English. . . . GRV on 12040 kcs., GSD on 11750 kcs., GSI on 15260 kcs., GSP on 11820 kcs., GSP on 15310 kcs., and GSV on 17810 kcs. are all heard in the afternoon with good signals. . . . Other calls heard are GRW on 6145 kcs., GRS on 6065 kcs., GRT on 7150 kcs., GSW on 7230 kcs., GRY on 9600 kcs., GSE on 11680 kcs., GRV on 12040 kcs. . . . What a flock of calls. What far cry from the days when G5SW was the British Shortwave STATION!

Iceland

TFJ on 12235 kcs. in Reykjavik is reported heard by R1843 (La.) as being heard on a Sunday afternoon broadcast. Power used was 2000 watts.

Italy

FLASH! "Radio Italia," the Italian Freedom Station is heard at times from 8-8:30 a.m. with very good signals, and free of jamming. The station uses 11920 kcs. Credit to R2228 (Mass.) please!

*Radexer George Grunert
Detroit, Mich.*

Since November 1st, the American Hour from 8-11:20 p.m. has been broadcast over I2RO3 on 9630 kcs., I2RO18 on 9670 kcs., and I2RO4 on 11810 kcs. Credit to R2006—(Tex.) for this one.

Some of our readers are not acquainted with the Rome policy it is evident. A reader writes to say that Rome stations are Two-R-O-with an added numeral and not Twelve-R-O-as RADEX lists it. We have it I (Eye) as ABCDEGH-I two-R-O! The Italian stations actually are assigned the "Eye" but drop it when

announcing to make the announcer's task less difficult—or perhaps there's a better explanation, quien sabe?

Assorted notes on stations heard: IRF on 9815 kcs., I2RO-18 on 9760 kcs., I2RO-14 on 15230 kcs., I2RO-4 on 11610 kcs., I2RO-17 on 19590 kcs., I2RO-6 on 15300 kcs., I2RO-8 on 17820 kcs., I2RO-3 on 9630 kcs., I2RO-15 on 11760 kcs., and I2RO-18 on 7310 kcs.

Portugal

CSW-6 on 11040 kcs. is reported on a Sunday until 3:30 p.m. by R1691 (Mass.).

CSW-7 on 9740 kcs. is reported by R2324 (N. Y.) directing programs to North America starting at 6:05 p.m. nightly.

Roumania—New

"Roumania calling from Belgrad" was heard on 9505 kcs. from 1:45-4:15 p.m. by R2228 (Mass.) on what was probably the former transmitter of YUC or YUD in Belgrad, Yugoslavia. Signal was excellent.

Slovakia

HMV on 9503 kcs. is the official call of "Radio Bratislavia" according to R2324—(N. Y.). The station broadcasts to North America on Monday, Wednesday, and Friday at 6 p.m. Their address is "Radio Bratislavia," S. S. V. Q., Bratislavia Jabovo, Nom. 13a, Bratislavia, Slovakia.

Switzerland

HER-3 on 6165 kcs., according to R1319, is signing off at 1:40 rather than at 12:40 a.m. as announced in RADEX.

HER-4 on 9535 kcs. is heard evenings with Spanish program from 6:45-7:30 p.m. and with English program to U. S. from 9-10:15 p.m. Signal is good but there is some QRM. Credit R228 (Mass.)

HLB on 9340 kcs., according to R1843 (La.) is heard with North American program on Wednesday, but never on Monday.

U.S.S.R.

RIB on 15370 kcs. in Moscow broadcast from 9 a.m. or earlier to 10:25 a.m. the meeting of the Russian scientists, who requested the help of the British and American scientists in war work. (Roberts in NNRC bulletin).

Radio Center is still broadcasting English program to America from 6-7:30 p.m. on 15110 kcs. and 15230 kcs. as per R2228 (Mass.)

Radio Moscow on 11910 kcs. was heard by Shaler Hanisch 6:30-7 p.m.

RKD, 9500 kcs., was logged at 7:30 a.m. with an R4 signal, presenting Russian war news.

"Radio Center" is heard on 11,700 kcs. in the afternoons, occasionally.

RV15, 9565 kcs., is on the air at 4:30 p.m. with news in Russian and other features.

Vatican State

HVJ on 11740 kcs. seems to find difficulty in over-riding the Chilean station on the same frequency. HVJ on Sunday from 8:300-8:45 is very difficult to copy because of this QRM—this from R2228 (Mass.)

NO. AMERICA

Canada

CBFW on 6090 kcs. was heard by Francis Fellers testing in afternoon, apparently preparatory to going back to that channel this winter.

CBFY on 11705 kcs. is still being heard at time of writing. They come on at 6 a.m. and go off at midnight. "O Canada" and "God Save The King" are heard at midnight.

CY8Z, Vancouver, 5450 kcs., was heard testing at 10 p.m. by Ed Landansky.

Costa Rica

TI4NRH, our good friend, Armando Cespedes Marin, who was an advocate of the Good Neighbor policy long before any American ever thought of it is now being reported by many RADEX readers on his Tuesday and Thursday broadcasts from 11 p.m. to midnight and sometimes later. Frequency seems to

change according to whatever channel is clear at time of broadcast. TI4NRH has been reported on 9750 kcs., 9740 kcs., and 9715 kcs.

TI4NRH at Heredia has moved from 9696 kcs. to 9740 kcs. They were heard 8-8:30 p.m. with a program in English.

TI7RVM, Guanacasta, 5985 kcs., was heard on Thursday at 8:15 p.m. by Ed Landansky, playing popular recordings.

Dominican Republic

HI-1J on 6025 kcs. NEW FREQUENCY has been heard with strong signals coming on the air at 5:35 p.m.

Haiti

HH2S on 5945 kcs. uses 100 watts and verifies with a nice card. Address: Societe Haitienne de Radiodiffusion, P. O. Box 81, Port-Au-Prince, Haiti. —R1843 (La.)

HH3W on 10135 kcs. heard until 8 p.m. when PSH came on and HH3W was no longer heard, according to R2544 (N. Y.)

HH2S, 5947 kcs. is heard with poor quality on its English program, Wednesdays at 6:30 p.m.

Honduras

HRP1 in San Pedro Sula on 6350 kcs. was heard by R2228 coming on the air with English announcements at 7:30 p.m.

HRN, 587 kcs., is on the air 3-8:30 p.m. Interval signal is a three bell chime.

Mexico

XEWW on 9500 kcs. gives its address as Apartado 2516, Mexico City. XEUV on 6020 kcs. signs off at 1:00 a.m. with the playing of "La Paloma."

XEFA on 9560 kcs. is heard until midnight daily with good signal.

Nicaragua

YNJAC, 5750 kcs., was heard 8:50-9:05 p.m. with an R9 signal.

Panama

HP5G, 11780 kcs., broadcasts George Williams English newspaper 4-4:30 p.m.

Salvador

HUB on 5560 kcs. is heard very well all evening until sign off at 11:05 a.m. with programs entirely in Spanish. . . . The verification card pic-

tures a coffee tree, a volcano, a moon, and a Salvadorian Flag, and call letters are in red.

YSPB on 6570 kcs. is heard irregularly in the evening until 10 p.m. The station announces as "The Voice of Salvador."

United States

WCAB official schedule on 6060 kcs. from 6:15 p.m. to 12:55 a.m., alternating to Europe until 7 p.m., thence to South America until 9 p.m., and the last part of schedule is to Europe.

WCAB on 15270 kcs. is now used to South America exclusively from 1-6 p.m.

WCBX on 11830 kcs. is now broadcasting to Europe daily on 11830 kcs. from 3-6 p.m. and to South America from 6:30 p.m. to midnight.

WCBX on 21570 kcs. is now broadcasting to Europe from 7 a.m. to 2:30 p.m. (15270 kcs. is discontinued in favor of the higher frequency, while South American transmissions are all on 11830 kcs., with 6170 being discontinued). This is official.

WLWO on 15250 kcs. until 8:35 p.m., when they switch to 11710 kcs., according to R2006 (Texas).

WNBN on the S. S. Argentina was heard by R2145—(Ohio) relaying a news summary from Latin American stations to WKP in Riverhead, N. Y. They gave their frequency as 9135 kcs.

WQV on 14800 kcs. was heard in a point to point communication with Geneva by R1843 (La.).

W5XAU on 26125 kcs. with 100 watts operates from 7 a.m. to 1 p.m. They verify reception. R2193 (Mo.).

W9XLA on 25400 kcs. verifies with a red and blue card. They use 100 watts and operate from 10 a.m. to midnight according to R2193 (Mo.)

OCEANIA

Australia

VLG-2 on 9540 kcs. seems to be the most consistently reported Australian in the East. It is being heard from 6:20-7:05 a.m. For a while VLQ-5 on 9610 kcs. was heard in parallel on this program, but the latter station was dropped from the transmission. VLG-2 on 9540 kcs. is also heard from 1-1:40 a.m. according to Warren—Tenn., who has just completed twelve reports on the station. VLQ-2 on 11870 kcs. is used in parallel on this program.

VLR on 9580 kcs. is now called VLG.

VLG-5 on 11880 kcs. is sometimes heard in the evening from 7-7:30 p.m. with not too good signals. VLG-5 is not being used on morning transmissions at present.

VLW-2 on 9650 kcs. at Perth is carrying the asiatic program around 9 a.m.

VLR-8 on 11760 kcs. is excellent at 10 p.m. Sydney is broadcasting an additional transmission to North America from 3:40-4:15 a.m. over VLQ on 9615 kcs.

Fiji Islands

VPD-2 on 9535 kcs. is being heard in the East by many listeners from midnight until approximately 12:30 a.m. Signal is fair and program consists of music (sometimes American tunes) with short talks in French by a lady announcer.

Hawaii

KHE on 17830 kcs. is still heard Saturdays with the "Hawaii Calls" program.

New Caledonia

FK8AA on 6135 kcs. was heard from 1-1:43 a.m. by R7—Pa.1 with R2-5 signals. "Ici Noumea" was the identifying announcements by a man. Program was in French and partly in German. Station leaves the air without a signature.

Order your Radex Sub Now - Save 40 cents

SO. AMERICA

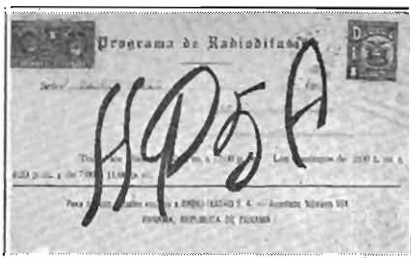

Brazil—New

"Radio Kizora" at Sao Paulo has been reported by R2228—Fellers testing October 31 on 11765 kcs. from 7:30-10:15 p.m. They announced in English at 9:30 p.m. Other times they announced in Spanish and Portuguese. Brazilian anthem used at close.

PPQ was heard on 11760 kcs. broadcasting special programs to Toronto and New York. A couple of times they were heard using music. PPQ is usually a phone station.—R2228—Fellers.

British Guiana

ZFY, according to R2117—Edwards, is actually on 6097 kcs. and not 6130 kcs.

HP5A's card by courtesy of Hal Robie.

Chile

CB1174 on 11740 kcs., "Radio Hucke" (pronounced Huckee) sign off at 11:58 p.m. Hoagy Carmichael's immortal "Stardust" is played before during and at the completion of sign off announcements. The station goes off the air with—of all things—"Marching Through Georgia." CB1174's address is "Radio Hucke," Casilla 6009, Santiago; Chile. (R7, Pa.1 is credited with this fine report).

Colombia

HJBK was heard signing off on

Page fourteen

6170 kcs. at 11:05 p.m. by R1319—Caldwell.

HJCF on 6075 kcs. heard signing off at 8 p.m. with a march.

Curacao

PJC in Willemstad is heard evenings with very good signals, though quite irregularly, from 5:30-7:30 p.m. They were once heard relaying the Paramaribo, Suriname station.

Ecuador

HCQRX, 5970 kcs., Quito, opens at 3:45 a.m. with a good signal. Reported by Art Cushen.

Paraguay

ZP-14 on 11720 kcs. is now being heard in this country with excellent signals from 6:30-8 p.m. Spanish is used throughout. This report on a seldom heard country is from R2228 (Mass.).

Peru

OAX1A, 6290 kcs., was heard at 8 p.m. with a good signal. OAX6A, 6050 kcs. Arequipa, was R9 plus at 7:30 p.m.

Suriname

PZX on 11515 kcs. in Paramaribo is Government station known as Government Radio Dienst, and transmits on Monday and Thursday from 6:36-7:36 p.m. The program is usually in the Dutch language. PZX uses 250 watts. This station is heard with a strong signal.

PZH on 6790 kcs. operates in parallel with PZX but uses on 25 watts and is a much more difficult station to hear. The owners want reports and will verify all correct ones. Verification from these station is white card with blue print.

THINGS TO COME

Full details on tuning and identifying Latin American stations in our special Good Neighbor edition in January.

Questions and Answers

Of, by, and for RADEX Readers

Questions

Jack Stephenson, 2721 W. 21st St., Oklahoma City, Okla.: "What is the slogan and Q.R.A. of Mexico City's X.E.X.A.?"

Hal Robie, 188 Bristol St., Springfield, Mass.: "What British station heard with powerful signal at 10:00 A.M. in the vicinity of 20,800 and 20,900 kcs.?"

Art M. Hankins, 1006 Ligonier St., Latrobe, Pa.: "What unknown station on approximately 9630 kilocycles at 10:00 A.M. Monday saying "CZ3U is off and clear."

L. M. Stracener Jr., 239 Nelson Drive, Route 3 Baton Rouge, La.: "Does anyone know the QRA's of WKED and WGHN on 27200 kcs; NUFG, NOKG, and NGG on 2750 kcs., XELO on 1190 kcs.?"

George Perrin, 76 Berry St., Rochester, N. Y.: "What happened to EAQ in Madrid?"

Hal Robie, 188 Bristol St., Springfield, Mass.: "Are any of the Hawaiian stations carrying the "Hawaii Calls" programs now?"

Art Hankins, 1006 Ligonier St., Latrobe, Pa.: "A mystery station picked up Sunday evening 6:55 P.M. Unable to judge frequency accurately but it was approximately 8640 kcs. The station was a Mexican with an "S" 9 signal. The announcements were all in Spanish and he announced "Radio Phillip" at each identification pause. Also announced call letters in Spanish once at 7:02 P.M. They sounded to me like XEJ or XEW."

Hal Robie, 188 Bristoll St., Springfield, Mass.: "Would like some help on these stations stations: The first concerns a station on approximately 15100 kcs. It was heard from 10:40 A.M. at which time there was a man talking in an unfamiliar language. At

10:45 there was on stroke on a gong. This was followed by a man chanting a weird tune until 10:58 A.M. Following this a man spoke for a minute and then a woman for about 3000 seconds. At 10:00 A.M. an organ and chimes played for a minute.

R2324: George Perrin, 76 Berry St., Rochester, N. Y.: "I have a puzzle. I heard W9XTO in Lake Bluff, Ill. calling W10XDA "Effie M. Morrissey. You have these listed on 6425 kcs. Lake Bluff is W9XEJ in RADEX. The next evening I heard Lorain, Ohio (WMI) on the same channel. WMI is listed on 6475 kcs. On what frequency did I hear these stations?"

Frank Gravely, 201 Starling Ave., Martinsville, Va.: "Who are the Spanish speaking stations on 1460 kcs. (around 3 a.m.) and on 1500 kcs.?"

A. L. Kempton, Harding, Mass., wants to know if anyone has received a veri from PK6XX.

Jack Stephenson, 2721 North West 21st St., Oklahoma City, Okla.: "What is the slogan and QRA of YNRS on 8585 kcs., in Managua?"

Walter J. Oliver, Room 230, Drake Hotel, Oil City, Pa.: "What is the station heard on approximately 11200 kcs. on Wednesday, September 24 at 12-12:05 a.m. broadcasting an Anti-Nazi talk in English, twice saying "La France Libre" but giving no call letters or location. They signed off with "God Save the King."

Ralph Edwards, 663 Astor St., Norristown, Penn. (R2117): "Is KZRM the station that is badly QRM'd by VLW2 around 6 a.m. The language used is not familiar." . . . "Also there is a station on 11740 kcs. in the morning from 6:30-7:45 a.m. with talks in

(Please turn to page 72)

On The West Coast

By MELVIN FISHER

Since we assumed the responsibility of conducting this column just a little over a year ago, we have had the pleasant experience of seeing RADEXERS rally to the cause, and by their whole-hearted support, in ever-increasing numbers, we have been able to reach a point where the news contained in our section has been read and accepted both by Eastern and Western Radexers. You will recall when we started out that one of our intentions was to compile information on western DX of sufficient interest to be of value and help to our Eastern friends, as well as to ourselves, just as the Eastern column is of value to us in giving us information and tips on tuning in stations rarely heard here on the West Coast.

We have now grown to the extent that your editor believes it is timely to launch an idea that he has been harboring for some time, and which he believes will organize Western Radexers to the strongest point ever experienced in this section of the country. This can only be accomplished by the continued loyalty of our faithful supporters, the West Coast Radex reporters.

Therefore we are assuming the authority and responsibility of appointing official organizers of Radex chapters in the various localities on the Pacific Coast. We are fully aware of the work and time which will have to be devoted by appointees in the enterprise, but are confident of its success. If by any chance any appointee finds it inconvenient or impossible to discharge the duties of his office, we will appreciate his notifying us by postal card, and another Radexer will be appointed in his place. We will gladly furnish names

and addresses of all Radexers in his locality which we have available to each organizer who requests the same.

Los Angeles area: George J. Hiss, 8914 Harratt Street, West Hollywood, California.

San Francisco area: Geo. Deligianis, 42 Perry Street, San Francisco, California.

Oakland area: Eugene S. Allen, 1710-10th Street, Berkeley, California.

Nevada area: Russell Cain, 1054 Holcomb Street, Reno, Nevada.

Portland area: Harry C. Powell, 1129 S. W. 10th Street, Portland, Oregon.

Washington area: Carroll H. Clark, 806-2nd Street, Snoshomish, Washington.

Santa Rosa area: Howard Darbo, 2823 Alton Lane, Santa Rosa, California.

On The East Coast

By RAY LA ROCQUE

SW Report-O-Meter

1.—Francis Fellers	100%
2.—Alton Caldwell	51%
3.—Buddy Giles	48%
4.—L. N. Stracener	45%
5.—Art Hankins	30%
5.—Ralph Edwards	30%

Honorable mention to: George Perrin, Wilson Barnes, Charles Ramirez, and Richard Crain.

BCB Report-O-Meter

1.—Steve Mann	100%
2.—Ernest Cooper	87%
3.—Peter Clarius	81%
4.—Eddie Strakna	57%
4.—Bill Scott	75%
5.—Len Kruse	57%

Honorable mention to: Benny Miller, John Toth, and Warren Corrigan.

A novel feature of our meters this month is the extreme contrast of scores. The BCB race was very close, while the difference between first and second place in the shortwave meter is more than the difference between first and last place in the broadcast band meter.

Francis Fellers walked away with honors in the shortwave group. . . . This Steve Mann fellow is a versatile chap. Last month found him near the top in the shortwave group, and this time he leads the broadcast band DXers. . . . And the mystery of the month—What happened to Norman Kane? ? ? ?.

A lot of new names this month, Buddy Giles, Raph Edwards, Eddie Strakna, Pete Clarius, Ernest Cooper, Bill Scott. The meter isn't new to Alton Caldwell, L. N. Stracener, Art Hankins, and Len Kruse, though. By the way in case you didn't know, the meters register according to the amount of useful material readers send to RADEX for use in our various news columns. To those who didn't make it, better luck next time. A complete list of reporters will be found at the end of this article.

Suggestions

R2193—Bernhard Keiser thinks that operating schedules of stations should be shown in the list instead of the names of owners, and that the listing should show whether the station verifies by card or letter so that the DXer would know whether to send 3c or 1c return postage. (We are working on a data section which will list schedules as well as other data on stations. As for return postage, RADEX has always felt it is common courtesy to include 3c whether or not the station uses card or letter, unless the station definitely requests that you send less. You see verification cards, some of them very costly, cost even more than letters to send, when you figure it out, and then add to the cost of printing, the necessity of paying an office worker to answer these cards and the time it takes to check the reports, we DXers are getting off very cheaply at 3c. The stations are granting us a courtesy in verifying. They are not obligated to do this. So why not show our appreciation by sending 3c for return to all domestic stations and an international reply coupon to foreign countries.—RL)

Grant W. Hastie would like to see even more standard broadcast news. (The Channel Chatter section this month is larger than ever, Grant.—RL)

R1397—Jim Weaver agrees with Bob Gilchrist about the additional information on stations. Jim is interested in slogans and has some 200 of them in his collection.

Lawrence E. Yarnes would like to see RADEX publish at least once a season a complete list of world wide standard broadcast stations. (We

would gladly do this but world conditions at present make information from European and many other countries very rare and unreliable and a complete list is an impossibility. However our new Barometer of Foreign DX will serve as a list of those stations which are being heard by others.—RL)

Joe Lippincott likes the idea of including more South American stations in our listing, but wants us to include in large letters those that are being heard, and to list the others in smaller type. (Our DX Barometer will assist you to identify those which are being heard by others Joe. What do you think of it?—RL)

Kenneth M. Battelle wants the Monthly Changes in Station Data reinserted in RADEX. Also wants a separate section for Western Shortwave reports. (Station Data Changes now a regular feature of RADEX. Western reports are made to stand out by use of italics and are in your own PST.—RL)

R2162—Len Kruse wants a revised list of veri-signers and suggests every Radexer send in his latest verification signers. (A good idea, and veri signers are among the particulars to be included in our proposed data section when it is ready.—RL)

R1320—Frank Gravely likes the old Radexing with the Radexers better than the new Channel Chatter and wonders what others think?

R2369—Kern Anderson wants a data section on shortwave stations as well as broadcast band stations. (Such a list is difficult to compile and can only be accomplished if all readers send in the data they have on hand. After the completion of Broadcast Band data section we will consider a similar listing for shortwave stations if enough information is available.)

K. Page of Buffalo, N. Y. is anxious for more improvements in RADEX and would like to see the RADEX more on the style of older issues of a few years back.

Personal Notes

Here's a welcome note for Radexers who are also postage stamp collectors. Joe Lippincott, Celo Community, Celo, N.x C. offers to sell stamp supplies to club members at 20% discount! . . . Chet Roman, now at Fort Ord, California informs us that one of our Canadian members, Allan Caçorath is in the Royal Canadian Air Force and is now serving overseas in England. He would appreciate notes from his friends, most of whom do not know that he has left Canada. The address: (Can.) R101529, Lac. Cadorath A. B., R. C. A. F. Overseas, England.

Norman Magurie has moved from Connecticut back to his old location out on the mesa—Albuquerque, New Mexico. . . . Charles A. Mills, Box 326, Strathroy Ontario is now with the Royal Canadian Air Force. He will trade SWL cards with any who care to address him.

We're highly impressed by the arrangement of Len Kruse's broadcast band reports for Channel Chatter. . . . Raph H. Edwards, 663 Astor Street, Norristown, Pa., would like to correspond with anyone living in Australia, New Zealand, the Philippines, or any far Eastern country.

Greeting to an old friend! We welcomed a letter from Barney Ahman of Baltimore—long time no hear, Barney!

Shortwave Notes and Quotes

R2324—George Perrin, 76 Berry St., Rochester, N. Y., says that he will be glad to furnish QRA's of the following: CHNX, CBFW, VUD4, VLQ5, TGWA, TG2, HJDE, PSH, OPM, FZI, HH2S, COK, COCW, HP5G, HVJ; HAT4, JZK, JLS2, JLU4, RV96, RNE, and PRA8.

Richard B. Crain thinks that more DXers should try the police bands for DX-citement! Conditions are exactly the same as the graveyard frequencies on the broadcast band in respect to both distance and interference. "Thus far, I've logged 50 stations in 20 states," says Richard. It takes real skill to log distance on these bands—most stations are 100 watts or less and are covered constant QRM.

John Toth, Co. "D", 4th Infantry, Fort Richardson, Anchorage, Alaska is thankful to those who wrote him about his last notice in RADEX and would appreciate hearing from others who care to write. John is especially interested in knowing where he can get himself a stack of SWL cards printed. On a two-tuber in Anchorage he has logged WRCA and CKWX as well as WLWO. The receiver doesn't tune above 10000 kcs.

Mrs. D. K. Smith, Pacoima, Calif., has recently purchased a Magnavox Regency Commode 51 Series Radio-Phono combination. Says Mrs. Smith "When I bought it I was principally interested in the phonograph, wishing to enjoy good music at will. However, I have developed a desire to hear foreign stations but do not have too much success: I have picked up Tokyo, Mexico City, London, Australia, but only occasionally. How much distance may I reasonably expect of the set, and how free should it be from static?"

BCB Notes and Quotes

R2377—Jim Davis of Rochester, N. Y. is new at the verification game and so far has heard from seventeen stations out of twenty reports. XENT, KNX, and KSL are among the stations verified.

R2324—George Perrin, 76 Berry St., Rochester, N. Y. would like to hear from DXers who have heard WHEC and WSAY at distances over 1000 miles.

Jack Troha of Cleveland, Ohio is one of our new readers who wonders how much luck other DXers have had in verifying home town stations.

RADEX REPORTERS—Members

- R7, Pa. 1 Art Hankins, Latrobe, Pa.
 R431: S. A. Meyer, Austin, Texas.
 R451: Chet Roman, Fort Ord, Cal.
 R615: Edward Shirley, Jamestown, N. Y.
 R626, Tenn. 3 Bill Scott, Johnson City, Tenn.
 R694: Ken Page, Buffalo, N. Y.
 R695: Frank B. Lee, Wildwood, N. Y.
 R739. Kans. 5 Gerald Harris, Kansas City, Kans.
 R839: Bill Cunningham, Hollywood, Cal.
 R1010: Norman E. Whiton,
 R1049: Stanwood Mors, Haverhill, Mass.
 R1319: Alton Caldwell, Jr., Brockton, Mass.
 R1320: Frank Gravelly, Martinsville, Va.
 R1397: James O. Weaver, Elkhart, Ind.
 R1470: Jack Stephenson, Oklahoma City, Oklahoma.
 R1691: Hal Robie, Springfield, Mass.
 R1841: Elwin L. Gleason, Moosic, Pa.
 R1920: Richard Coatsworth,
 R1843: L. N. Stracener, Baton Rouge, La.
 R1922: Harry Johnson, Los Angeles, Cal.
 R2003: Arnold F. Worme, Brooklyn, N. Y.
 R2006: Buddy Giles, Wichita Falls, Texas.
 R2009: Jose Carriazo, Jr., Habana, Cuba.
 R2117: Ralph Edwards, Norristown, Penn.
 R2145: Frank Coryell, Cleveland, Ohio.
 R2167: Len Kruse, Dubuque, Iowa.
 R2193: Bernhard Keiser, Webster Groves, Mo.
 R2228: Francis Fellers, Amherst, Mass.
 R2233: Wm. Waldman, Asheville, N. C.
 R2309: George Wells, Warwick, R. I.
 R2324: George E. Perrin, Rochester, N. Y.
 R2327: Eddie Strakna, Jewett City, Conn.
 R2347: Geo Deligianis, San Francisco, Calif.
 R2353: Donald Staples, E. Bridgewater, Mass.
 R2368: Benny Miller, Spring City, Tenn.
 R2369: Ken Anderson, Detroit, Mich.
 R2379: Jim Davis, Rochester, N. Y.
 R2451: Lloyd E. Staples, E. Bridgewater, Mass.
 R2457: Lothrop Mittenhol, Los Angeles, Calif.
 R2464: Charles Lannon, ort Louis, Washington.
 R2467: Wilson Barnes, Lockport, N. Y.
 R2469: Eddie Dunyai, Phoenixville, Pa.
 R2544: John Hisgen, Albany, N. Y.

Non-Members

- Harvey Warren, Kingsport, Tenn.
 John B. Bliss, Batavia, Ill.
 Charles Ramirez G, Habana, Cuba.
 Fred E. Delaney, Springfield, Mass.

WEST COAST (Cont.)

510 Oildale Drive, Bakersfield, California.

Salinas, area: Forrest L. Webb, 140 W. San Luis, Salinas, California.

Prompt notice of acceptance or rejection of appointments will be appreciated, and will facilitate organization. As stated before, your West Coast editor will be glad to furnish all names and addresses available of DX-ers in your area, and will endeavor to get the support of headquarters in obtaining names and addresses we do not have on record here in Berkeley.

We are well aware of the magnitude of this project, but with the continued support of every West Coast RADEXER, we are confident of the success of this movement.

May we close by urging all Radexers who have not done so to subscribe to the new and better Radex, and thereby have your copies mailed to your homes. Since copies will not appear on the newstands in the future, this will assure you of not missing a single copy of the improved Radex.

THE BIG THREE

Another record topples as Eugene Allen successfully defended his championship against stiff competition and became the first Radexer to have the honor of being Big Three champion twice in a row. It was the third time in all that he has reached the top spot. Corporal Chas. Lannon finally reached the first three in second place after several good efforts and Ed Landansky, the Eastern veteran, took over the third spot, sending in only one report, but it was just good enough to put him in the top three.

Shaler Hanisch of Pasadena, California, and Gerald Stoneman of Canada put up a fine battle for third place, as the point scores will show.

5. Gerald Stoneman22
6. Lawrence E. Yarnes12

THE READERS SAY:

LARRY YARNES, Wasco, California,—“Have heard Japanese stations on 940, 970, 1060, and 1100 kcs. as well as JOAK2 and JOQK between 2:00 and 3:00 a.m. Other heard are 2YA, 1YA, 2BL, 4QS, 2CY, 4BC, 4AK, 5QG, 2NR, 3LO, 2NC, 2KO, 2WL, 4ZN, 3WV, and either 3TR or 6IX.” He has heard stations which he is almost positive are South Americans on 1160 kcs. (behind KSL) at 7:00 p.m., on 720 kcs. at 8:00 p.m., on 880 kcs. at 8:20 p.m., and on 1155 kcs. at 8:45 p.m. He believes these are YV5RL, HJCU, YV5RQ and YV4RD (or YV1RD) respectively.

GERALD STONEMAN, Chilliwack, B. C.,—“DX-ing this past month was good on the BCB. I picked up KGU, WABC, KGMB, 2YA, 1YA, 3YA.”

FRED ANDERSON, Manila, P. I.,—“Recent veries here are very few: WKBN, WHAS, WLW, KHSL, KTW, KPO, XGRS, ZZA, PLG, XOA, MTCY, XENE, VLS, 2YA, 3YB, and KZND. . . . I have ordered 1500 SWL cards and will QSL 100%. . . . There are 14 members now in our Philippine Radex Club.”

CHATTER COLUMN

Owners of KSFO have been licensed by the FCC to operate a 100,000 watt international SW station to serve the Far East, Australia, and Central and South America in the interests of National Defense. Frequencies used will be 6060 kcs., 9570 kcs., 11870 kcs., 15350 kcs., 17760 kcs., and 21610 kcs. The station will operate 20 hours daily airing news and entertainment in English, French, Dutch, possibly Chinese, Thai, Russian, and

Spanish, Portuguese, Japanese, and Korean. Directional characteristics will give the beam a power equivalent to over 4,000,000 watts. (Our thanks go to George Deligianis for keeping us posted on the latest developments of radio in San Francisco). . . . Lee Mason, Detroit, and Junior Moyers, Harrisville, W. Va., were the two lucky winners of all-expense trips to Cuba given by station COK in a contest on reporting to the station. . . . Charles A. Morrison, president of the IDA, has received an appointment as Shortwave Information Consultant to the Foreign Broadcast Monitoring Service of the FCC. He has been very active in a crusade to convince the government of the important part SWLers can play in National Defense, and deserves the support of all DXers in carrying out the duties of this responsible office. Headquarters of the IDA has just been shifted to Normal, Illinois. . . .

 Ed. Landansky, Honolulu, Hawaii

LATE FLASHES

New station for Louisville, Ky. on 1080 kcs. with 1000(5) watts. . . . SCOOP:—WNEU and WOV will very soon exchange call letters. We thought this happened only in Mexico (XEQ-XEDP)! . . . KFRE is the call for new Fresno, Calif. station. WJLD is ditto for Bessemer, Ala. . . . New station for New Bern, N. C. on 1450 kcs.—250 w. . . . New station for Guadalajara, Mex. on 580 kcs. with 1 kw. . . . XEMG is actually in Gomez Palacio, Dgo., not Durango City, according to Bill Cunningham. . . . Another exchange of call letters—this time in Cuba. CMJL and CMJK make the swap.
 Mexican government okays XEAW on 1010 kcs. and lists power as 50 kw., but they sound like 150 kw. here in New England! WRVA has officially protested to the FCC on XENT causing interference to their

WTMJ RADIO CITY TO COST \$750,000

At a cost of \$750,000, Milwaukee's new "Radio City" housing WTMJ, W55M, and the Milwaukee Journal's Television outlet, is expected to be completed by next Spring. The edifice of modern architecture is a will fice of modern architecture will on the banks of the scenic Milwaukee River, miles from the busy downtown area.

Upon entering, a visitor will find an elaborate lobby extending upward for two floors, with walls embellished by impressive murals depicting the rapid advance of radio as an art and science. Large and luxuriously upholstered seats will be distributed freely throughout the lobby for the comfort of the visitor.

One of the largest studio auditoria in the country will make up the WTMJ main studio and programs like "Heinie and his Grenadiers" will play daily to an audience of 400 people in this new studio auditorium.

Sketch of WTMJ Radio City

signal in locations which are supposed to be in WRVA'S service area!

RADEX wishes to acknowledge the assistance of the Van Nostrand Engineering Co., Atlanta, Ga., for some revisions in our monthly test programs listing!

Changes listed here are not shown in our indices but will be made in next issue.

The Radex Club

By ANNE TENNA

Associate Radio Clubs—URDXC and WDXA

Dear Radex Clubsters:

Another of our little meetings opens with a lot of letters, plenty of new members and a few ideas and suggestions. Remember that anyone who is interested may join the RADEX Club simply by sending his or her name to RADEX. Before we greet the new members I'd like to state that if you haven't as yet received your club membership card, please be patient. Our supply of cards is exhausted and we hope to have new ones from the printer very soon. Now, greetings and welcome to our rapidly growing group (2666 members now), to the following:

Arkansas: Don Phillips, Ashdawn (R2577).

California: Kenneth R. O'Brien, Los Angeles (R2554); William Cunningham, Hollywood R2644); Bernard Anderson, Oakland (R2666); Kenneth M. Battelle, Corcoran (R2624), Lawrence E. Yarnes, Wasco (R2630); Ebernard Gurevitch, Hollywood R2614); Harold A. Hill, San Francisco (R2659); Richard L. McCoy, Alameda (R2600); David Babcock, Riverside (R2579); Shaler Hanisch, Pasadena (R2571); John Chipps, San Bernardino (R2612); Deane Holderby, Burbank (R2651); George H. Levertt, West Los Angeles (R2553); A. F. Jenkins, San Francisco (R2604); Mrs. L. E. Grannis, Eureka (R2607).

Connecticut: Alvan Hyde, Hartford (R2661); Mrs. Anna Puzinski, Torrington R2590); Frank Ursone 11, Norfolk (R2574).

District of Columbia: Ernest L. Wilkinson, Esq., Washington (R2608)

Idaho: Ted Cady, Moscow (R2559 Idaho 4).

Illinois: Cornelius Van Fleet, Winnetka (R2576); Michael Leppanen, Chicago (R2648); Frank Janacek, Chicago R2603).

W45BR in Baton Rouge, La., the first FM station in the deep South runs only 1000 watts, yet they have been heard and verified as far as Ontario, according to R1843—L. N. Stracener.

W45D in Detroit verified in six days for R2145—Frank Coryell. They were heard on an A. M. receiver. The W45D Chief Engineer stated that FM stations can be heard on AM receivers, but with very poor modulation.

W43B in Boston (Paxton), Mass. verified in two days with a letter and an interesting booklet on FM for R1691—Hal Robie (Mass.).

K51L owned by the St. Louis University is just beginning construction and will not be on the air for several months.

K65KC is the call of the 46500 kcs. station in Kansas City and they are now on the air commercially. The last two items from R2193—Bernhard Keiser (Mo.).

K45LA, the first FM station in the West came on the air August 11, according to R2457—Lothrop Mitten-thal, and they are using 1000 watts

Iowa: Bill Sanders, Cedar Rapids (R2697); Len R. Kruse, Dubuque (R2551).

Kansas: Carl Martin, Atchison (R1934).

Louisiana: Rana Joseph La Gardeur 111, New Orleans (R2552).

Maine: Leon, Howland, Topsham (R2558).

Maryland: George H. Dannettel, Baltimore (R2638); Jack Harröll, Baltimore (R2668).

Massachusetts: W. F. Irving, West Roxbury (R2654); R. L. Martin, Waltham (R2507); C. P. Atherton, Clifton (R2649); Walter E. Welsh, Lynn (R2605).

Michigan: William Ohlsson, Highland Park (R2636); Mrs. T. H. Van Buren, Sturgis (R2547); Robert Bazzy, Highland Park (R2633); Everett C. Glen, Clio (R2611).

Minnesota: William Streng, Winona (R2562); James Park, Hopkins (R2649); Robert Bjur, Minneapolis (R2627).

Missouri: Carl Newman, St. Louis (R2618); Harlie Smith Jr., Fulton (R2546); Bob Mc Arthur, Independence (R2548).

New Jersey: Richard Latabe, Trenton (R2561); Frederick Deibert, South Amboy (R2657); H. Kehlenbeck, Bayonne (R2658); Frank Koble, Garfield (R2613); Joe Stauhs, Bloomfield (R2655); Yale Eastman, Summit, (R2569); Herbert Foster, Belleville (R2629); William Carey, Orange (R26653).

New York: Rt. Rev. Alexander Turner, New York City (R2637); Bruce Briggs, Delevan (R2638); John Kotlarski, Buffalo (R2657); Norman Weiner, Rochester (R642); Lloyd Mertz, Rochester (R2643); Arthur Maintland, New York City (R2587); C. J. Dzimit, Herkimer (R2581); John Reinhardt, Buffalo (R2585); Miss Ida Van Nostrand, Flushing (R2582); Paul Harrington, Laurelton (R2647); Mahlon Stilwell, Troy, (R2566); R. C. Bernes, Syracuse (R2625); John Hisingen, Albany (R2544).

North Carolina: Grady Ferguson, Charlotte (R266).

Ohio: George Andrews, Shelby (R2623); Dick Sovacool, Akron (R2621); Buddy Benedetti, Cleveland (R2599); Dan Musynski, Toledo (R2601); Baxter Lackey, Dayton (R2573); J. W. Waldron Newman, Tiffin, (R2564); Tom Morrison, Jr., Cleveland (R2619); Casimir J. Koczan, Cleveland (R2564).

Oklahoma: James McCoy, Jr., Cushing (R2622).

Oregon: Lorne Turner, Portland (R2634); Wm. Myers, Salem (R2563)

Pennsylvania: Oscar Williams, Clarion (R1954); Andrew Tuttle, Philadelphia, (R2663); J. Kenneth Focht, Reading (R2620); William Russell, Pittsburgh (R2560); Carl Gable, Lebanon (R2639); George Smith, Jr., Berwick (R2640); Roswell Brown, Philadelphia (R2653); Walter Oliver, Oil City (R2672).

Rhode Island: C. Raymond Wheeler, Westerly (R2662).

Tennessee: John W. Kirk, Jr., Memphis (R2609).

Texas: James Willborn, Amarillo (R2641); Walter Reid, Houston (R2602).

Utah: George Mitton, Logan (R2580).

Virginia: T. G. Mebs, Portsmouth (R2645); Norman L. Atkins, Portsmouth (R2610).

Washington: Geoffrey Hilton, Zillah (R2628); Stanley Ozbolt, Bucoda (R2678); Ernest Pomeroy, Seattle (R2632).

Wisconsin: Raymond John Jensen, Racine (R266); Bohdan Dembinski, Wilwaukee (R2575).

Canada

Ontario: Ken Roney, Delhi, (R2652); Bill Stewart, Ottawa (R2556).

New Brunswick: Herbert B. Tobin, Saint John (R2579 N. B. 3)

Quebec: Charles Connery, Thetford Mines (R2598).

Peru

V. C. W. Forbes, Lima (R2635 Peru 1).

Some time after the close of the DX season I'd like to select a few official RADEX Club reporters—these reporters to be allowed to use a special Club indicia instead of their regular number for one year after their appointment, at which time new reporters will be named to replace them, or they will be re-appointed according to their reporting during the season.

For the selection of these reporters I am watching very closely the "Report-O-Meter" in Ray La Rocque's column and the "Big Three" in Melvin Fisher's Column. Awarding 25 points for first place, 15 for second, 10 for third, 5 for fourth, and 3 for fifth. One point is awarded for honorable mention or for 3rd place in Melvin Fisher's consolation division. Starting with the Sept.-Oct. issue of RADEX, the list now stands:

Eastern

1.—Norman H. Kane	40 pts.
2.—Bob Gilchrist	30 pts.
3.—Roger Legge	28 pts.
4.—Morgan B. Iler	25 pts.
4.—James Weaver	25 pts.
5.—Stephen Mann	20 pts.
6.—Francis Fellers	16 pts.
7.—Alton Caldwell	11 pts.
8.—Arnold F. Worme	6 pts.
8.—Len Kruse	6 pts.
9.—Ed M. Vickers	5 pts.
9.—Jack Paulus	5 pts.
10.—L. N. Stracener	4 pts.
11.—Bill Cunningham	3 pts.
11.—Bob Koppelon	3 pts.
11.—Carl Silvester	3 pts.

One point each for Buddy Giles, J. Laperal, L. A. Mayo, Chet Stedman, Harold Smith, Frederick Kummer, Ralph Kastner, and Norman Whiton.

Western

1.—George Hiss	40 pts.
2.—Eugene S. Allen	25 pts.
3.—Charles Benedict	15 pts.
4.—Gerald Stoneman	11 pts.
5.—Harry H. Johnson	10 pts.
6.—Arthur Cushen	8 pts.
7.—Russell Cain	5 pts.
8.—Allen G. Hooker	3 pts.
9.—Corporal Charles Lannon	1 pt.

Words from Cuba

A personal note from our Havana Club member—R2009:

"Hello everyone in all parts of the World. . . I hope that everyone of you will excuse my delay in answering your very fine letters and SWL cards. At present I have received over 850 letters and cards from many parts of the world due to the appearance of my notice in RADEX. So you can imagine how much money I need to answer all of these SWL's some of them who request Cuban view cards, pipes, newspapers, stamps, pen-letters, information concerning special transmissions, etc. I cannot possibly attend to everyone at the same time.

"I do want to make it known that I WILL ANSWER to EVERYONE who has so kindly written me, but please let me have plenty of time as I haven't too much money, hi! All I can say is that RADEX is responsible. I now have almost a thousand cards and letters and they are still coming!"

Well here's one RADEX Club member who realizes the value of a notice included in RADEX. This is a splendid example of why I think the RADEX Club is the ideal nucleus for a united front among the DXers. Can I urge all RADEX Club members who are also members of other clubs to write your club president about getting together with us as an associate club. Tell him that you'll stick with his club too, but that the plan behind the Associated DX Clubs is to benefit him as well as every DXer who is a member.

Not enough mail has had time to reach me since the last issue for me to do anything about appointing names to our Stations Relations Committee as yet. For some time requests have been coming in to me and to RADEX for the inclusion of more personal reports as RADEX used to do years ago. This practice was discontinued because the continuous repetition of long lists of stations were of

little interest to anyone but the person who had logged them.

However, I think we can strike a happy medium between the inclusion of these reports and their complete omission. If all RADEX Club members will submit reports to me regularly I will try each month to tabulate them in an interesting and easily read form. Understand I do not want station news at this is for other departments of RADEX. I merely want to know what you are hearing and what you are verifying—only the best catches, don't make your lists too long. At the same time you can figure your all-time DX score by using the same method as in the RADEX Contest. Multiply your total number of verifications by the number of countries verified to get your score. In this way I will be able to classify our members according to your score. In this way I will be able to classify our members according to their DX rating!

Reader Reports

One of our new members R2632—Ernest K. Pomeroy of Seattle, Washington undoubtedly finds a whole lot more pleasure in his radio than the average fan. He's a disabled war veteran. Ernest you're free to enter any contest we have—there are no special requirements.

R2590—Anna F. Puzinski of Torrington, Conn., is another of our new members. Anna wonders if there are any other lady members. There most certainly are, but they are distinctly in minority, Anna. I personally wish the few that we do have would write me more often so that we could mention a "yl" more often in this column.

Speaking of yl's R868—Nancy Lee Saxton of Chicago is one of our minority group of female supporters. Nancy writes to support the new RADEX plan by subscribing for a year.

Tom Moss of Georgia (R1101 Ga. 4) writes to tell me that he's now displaying a new indicia—W4HYW, a genuine ham call, for Tom has just recently received his ticket from the

FCC. Tom will verify all reports from Radex Club members and asks that return postage in United States stamps be sent unless an IRC is used. The QRA: 570 Oak Drive, Hapeville, Ga.

Radexer
Tom Moss,
now W4HYW.

Everett A. Erickson is Captain of a very unique organization—the CRMSS. The Civilian Reserve Monitoring Station System is a voluntary organization of radio fans who wish to learn how they can aid in National Defense. The CRMSS works with the CRARS, a similar organization composed of ham stations and the listeners in exchange for payment of dues receive training in traffic handling and a course in radio procedure. Code practice is planned for a later date. Write to Everett A. Erickson, Capt., National Headquarters, Civilian Reserve Signal Section, 18 Wellman St., Beverly, Mass., for further information.

R2309—George Wells of Warwick Neck, RR. I., says he heard a couple of hams (W3FJU and W8SCD) chatting the other night and they mentioned that they do not verify—they merely tops the SWL carls in the waste basket.

R1200 N. Z. 3—That's Arthur T. Cushen of Invercargill, N. Z., the world's Southernmost City. Arthur is shortwave Editor of the N. Z. DX Club and regular contributor to many magazines in Australasia as well as very frequent reporter to Mel Fisher, Radex West Coast Editor. Arthur has written to 600 stations and veri-

fied 64 countries in 2½ years of DX.

Charles Morrison of the International DXers Alliance writes to say that the club's new address is Normal, Illinois and that sample copies of the club's publication, the Globe Circler can be ordered by anyone interested in detailed and complete shortwave notes.

Chatter

Tom Morrison—R2619 is a comparative newcomer to our hobby and I'd like to say hello and thanks for the nice letter. KNX is Tom's best catch. . . . For Charles Wm. Nelson of Cleveland: Your indicia of R2031 was assigned you some time ago.

William Schrueder of Scranton, Pa.—R1635 hasn't missed a copy of RADEX in three years. . . . Not to be outdone, Wm. A. Reese (club indicia not given) hasn't missed a copy since November 1938.

Charles Connery—R2598 has been DXing since May 1938 and boasts of HJCR, CMBL, OAX4A, and CMKN as his best catches, on the broadcast band. . . . For Mayer F. Gates, Jr., of Little Rock, Ark.: You are listed in the RADEX Club files as being R233 Ark. 2, which makes you one of our pioneer members.

Art Hankins, R7, Pa.1, of Latrobe, Pa., says that his station reports usually contain two pages with first page having technical information on equipment used, conditions, and strength and quality of signals, while the second page has a detailed report of what was logged.

Robert Mc Hale—R2557 attributes his being bitten by the DX bug to RADEX which he first bought a year ago. . . . George Deligianis adds his Club stationery and other supplies to the already countless votes for stationery, seals and buttons. RADEX will be made available just as soon as we can complete arrangements with printers.

Don Weaver, R2178 of Hot Springs, Ark., is now attending Western Military Academy.

Page twenty-six

Our Associate Clubs

WDXA—World DX Alliance is celebrating its third Anniversary and is sponsoring a series of DX programs to be known as Between the Nations DX Parade. Programs for WDXA members are being arranged for members from stations in Latin America and Canada for the event.

URDXC — Universal Radio DX Club: A total of fifteen programs over the following stations were broadcast for the URDXC DX Contest which is now completed: XEAC in Tijuana, WPID in Petersburg, Va., KSL in Salt Lake City, and HP5G in Panama City. Many prizes were donated including an Echophone Radio and three one year subscriptions to RADEX.

Chapter Activity

Charles Werdig—R1140 of Washington is working hard to form a chapter in The District of Columbia, Maryland, and Virginia. . . . Jim Weaver—R1397 is busy contacting RADEX club members in the vicinity of Elkhart and St. Joseph counties in Indiana.

Eddie Strakna—R2327 is perhaps the most ardent chapter fan that the club has. That a Connecticut Chapter hasn't yet been organized is not his fault. Eddie is keeping the mailman busy with letters trying to reach an agreement on a meeting date that will prove suitable to all the prospective chapter members. Eddie offers a suggestion that RADEX have a humor section as well as a quiz section. For some DAFFYNITIONS Ed offers the following:

A SHORT WAVE is a wave on a close-cropped head of hair.

A BROADCAST BAND is a special belt made out of cast Iron for stout people.

A FREQUENCY CHECK is a check on an account that is drawn out frequently.

A METER is a person who meets other people.

(Page 29, please)

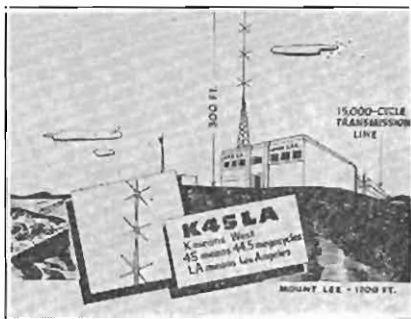

Frequency Modulation

DX ON FM BANDS

Possibilities for DXing on the FM bands are just beginning to make themselves known to DXers who have yet to explore these new and mysterious channels. If you like to DX where there is no QRM or QRN, FM is your band brother. Of course there are no foreign catches available, but there are over 50 stations in this country spread from coast to coast. Attempts to log them all should offer a lot of fun, for conditions are a lot different on these bands than on any other band on your receiver.

The FM broadcasters just released a statement saying that though the service area of a station is definitely limited, there have been many occasions where long range reception has been reported. Some of the larger FM stations now estimate their range to be as much as 300-400 miles—but there again there have been reports that show that the signals have travelled much farther.

A listener in Tennessee during a period of freak reception heard stations in Boston, New York, Rochester, Schenectady, and New Hampshire. Then another listener reported Detroit, Chicago, New York, and Boston from way down in Louisiana. The FM Broadcasters statements remind us that such reception is not an every day occurrence. But when the stations are heard the signal is crystal clear and free of static. Then we are quickly informed that even these freakish conditions can never possibly create interference problems when stations are more numerous, because a peculiar characteristic of FM makes it possible to hear only one station on each channel at a time. Only the loudest signal will be heard—the other signal just isn't heard, that's all.

Sketch of new Don Lee FM station in Los Angeles.

Reader Reports

Now for some reports from our own RADEXERS who have ventured in the FM field:

Clarence R. Hawes of Wrentham, Mass. writes, "I am a regular RADEX reader and an FM fan. W43B is perfect here, W1XTG — fair, and W2XMN very good. With inside and outside 5½ ft. doublet, and alternate antennas in a 28 ft. double and a 55 ft. single. DX here includes W45D, W47C, W47NV, and W55M. I believe that FM will pull in as much distance as AM and the quality is much better. Information on antennas for FM would be appreciated."

E. B. Charlton, Baton Rouge, La. forwards a schedule for W45BR, his local stations, which has been included in our listing.

Norman E. Whiton, 76 Green St., Greenwood, Mass.: "I have recently become very much interested in FM with the purchase of a Lafayette FM receiver. I have logged only W43B, W39B, and W1XK, along with W1XTG and W2XMN, but I have no special antenna." Norman wants to

hear from anyone in Boston or vicinity who has an FM receiver.

Alton L. Caldwell of Brockton, Mass. has heard W49B, W43B, W2XMN, W1XTG, W1XK, and W1XPW.

Hal Robie of Springfield, Mass. states that W43B verified in a couple of days with a letter accompanied by an interesting booklet on Fm broadcasting.

Ralph Kastner, New Braunfels, Texas has heard W47NV in Nashville. However their verification was a letter thanking him for report of WSM!

Fred E. Delaney of Springfield, Mass. is of the school who think that DX possibilities on FM are strictly limited. Using just a home-made multi-element serial in his attic, Radex Delaney finds that hours when both the sending stations and his set are in darkness prove best for FM reception. Stations heard include W1XSN, W2XMN, W1XSO, W1XTG, W43B, W71NY, W65H, and W2XOY. Fred would like to have RADEX use its influence to urge newspapers to carry FM program listings. And he would like to have RADEX include transmitter locations in listings.

K65KC is the call of the 46500 kcs. now on the air commercially. The last station in Kansas City and they are two items from R2193—Bernhard Keiser (Mo.)

K45LA, the first FM station in the West came on the air August 11, according to R2457—Lothrop Mittenhal, and they are using 1000 watts temporarily until their regular equipment is completed.

FM News and Notes

Production of FM sets has reached 1000 receivers per day, according to

Page twenty-eight

estimates of Major H. Armstrong based on figures of licensed manufacturers. . . . W59C is now on the air, operating 12 hours daily. This station has sold the largest single amount of air time. A department store has a full hour program seven days a week.

Kansas City gets a new Commercial FM station on 44900 kcs. . . . During the display of Northern Lights early in the season FM had its opportunity

HEAR F-M ON YOUR RADIO FOR 89c

Princeton Radio & Mfg. Co.
15889 Princeton Ave.
Detroit, Michigan

Send me your improved Ultra High Frequency converter right away. I understand that it is complete and money-back guaranteed to satisfy me in every way. I don't want to miss the new F-M programs.

Enclosed is 89c. Rush postpaid.

Note: Converter operates without wiring changes on radios which receive short waves. F-M programs heard with this converter do not have perfect tone quality.

Special Exclusive Distance Crystal Radio Plans

Send me 25 copyrighted crystal radio and telephone plans plus an assortment of supersensitive silicon, galena, and pyrites (fool's gold) crystals. I expect sets made from these plans to be unsurpassed in loudness, distance, and sensitivity, (Europe reported) or my money back.

Enclosed is a quarter. Rush postpaid.

Enclosed is a dollar. Send both converter and plans right away.

to display its superiority over other types of broadcasting, when listeners and observers reported no difference in signals and no noise during the magnetic storm which caused all sorts of upsets on standard broadcast and shortwave broadcast bands.

K45LA First in West

The first FM station in the far West, K45LA, started broadcasting on August 11th and is now operating from noon to midnight, seven days a week. . . . Estimates were that 2000 FM receivers were sold in Los Angeles before the station was a month old! K45LA's transmitter is atop Mt. Lee, 1700 feet high. Special 15000 cycle transmission line was installed to carry the program from studio to transmitter, seven miles away. . . . K45LA uses 1000 watts and plans a 50000 watt station as soon as equipment can be obtained. . . . Many KHJ features are broadcast over K45LA in addition to many special FM programs.

W47NV Exploitation

A caravan of two trucks, frequency modulation sets, a tent, and a display showing the progress of radio over a plan of sixteen years comprises the modbile unit that W47NV, the Nation's pioneer Commercial FM sta-features of FM to specators in fourteen towns in the Nashville area.

The unit was used at fairs, and at various public gatherings in these towns. People in rural areas are very much interested in FM because atmospheric conditions often hamper good reception of regular stations

The caravan will continue to expound the advantages of FM and is at present travelling with the REA—Rural Electrification Authority!

Radex Club

And so, Radexers, we come to the end of the our little gathering for this month. Write me, please, about anything that concerns you or the club. And for those who don't think I'm a real person (I don't like being called alias' Ray La Rocque as one member put it) I'm having some pictures made and will have one included on these pages in the next issue. You can get in touch with me through the RADEX Editorial Office, 105 Highland St., Worcester, Mass. My own address—ah that's a deep dark secret!

SOUTH OF BORDER DOWN MEXICO WAY

Those border Mexicans again are the subject of much talk. It seems that XEAW, apparently is not satisfied with its lot on 1570 kcs. and has taken upon itself to use 1010 kcs. too. The station carries two different programs simultaneously has been received—one on each frequency.

Thus far no word from Mexican authorities on any permission granted XEAW for use of this frequency. Certainly the power used on 1010 kcs. is very high, and antenna is evidently beamed toward this country as programs are received like a local in comparison with the 1570 kcs. station which is often weak and never very clearly audible.

XENT seems to have become satisfied with its 1140 kcs. assignment and is also never strong enough to cause serious interference to American stations on that channel.

January Radex will have Spanish alphabet, So. American lists etc. Send three dimes for your copy now.

Ham Hounding

By OWEN CALLIN

Reports and comments on ham radio should be sent direct to Owen P. Callin, 121 East Weber Road, Columbus, Ohio.

The DX season is here once more and with all the dope that's flooding the columns of Radex there is no reason at all why it can't be another successful season for DXers—whether you concentrate on the ham bands, broadcast or shortwaves.

For the later two it will probably be more of a season than for the ham band listeners—the war is seeing to that. But we're resolving to do our part by ferreting out every spark of helpful information we can and presenting them to Radexers.

It is really your magazine now, you members of the far-reaching Radex Club. Since it comes only to your homes now, it is your official DX publication. Through it you are in constant contact with your fellow-members, applauding their catches and proudly exhibiting your own.

So let's all keep our interest alive. DX will never die and as long as there is DX there should be an official publication for DX. In the past you will attest that information in your Club magazine has helped you log a toughie. It will again. Let's keep DXing among the major hobbies of civilization.

As we have said, Radex now belongs to the Radexers. And since it does, we're going to run each issue a picture and little story about every one of the Radex Club members, to introduce him, as it were, to his fellow-memebrs.

No one will know who is to be next. I'll decide that by picking a name out of the hat. BUT, the only names that will be in that hat will be those who have sent me reports and who do their part in helping Ham Hounding be of interest and value to ham band listeners.

Page thirty

You know what that means. Let's have those reports regularly. There is still enough doing on all the bands to create interest. Take 160 meters, for example. How about you DXers in the W1 district trying for W6s and W7s? And you W6s and W7s, how about listening for those W1s, W2s, W3s and W4s on the Atlantic Coast. Our best DX on 160 from Columbus is a W5 in Arizona. What's your best DX on 160 and where did you find him?

Let's hop up to 80 meters. Here's a narrow field of CW and phone stations that sounds like it might be 20 meters. Have you logged a K6 or K7 there? How about letting your club members know what you've heard on that band.

How about 40 meters? Wide open. Most of these old timers with their CW rigs have received their best QSLs by working the foreign stations on CW. It's easy to learn to recognize a code CQ. And from there on its easy to recognize the call since it is repeated so many times. Besides, look at the Latin American phones on this band.

Then, there's 20, the real DX band. One of these nights it will surprise everyone by staying open all night. And 10 meters. It's pretty wile open now. And have you tried listening for those Russians and Siberians on CW? They're on the air, you know. I'll bet very few of you have a U card.

And just a week or so ago along comes an SWL card from a DXer who concentrates on the ultra high-frequency bands, five and two and a half meters. Trying rigging up a receiver or a converter and see what sort of DX you log there.

There's the picture. You can or

cannot have a successful DX season. But if you don't it will be in spite of Radex and your club members who are ready to give you a hand!

Radex Club is being swelled daily by newcomers. Many others are sending in their first reports. Three more introduced themselves this issue: Kenneth Dimon (R2533) of Greenport, N. Y., Frank Coryell (R2145) of Cleveland, Ohio, and Van R. Field, who just moved from Center Moriches, Long Island, out our way to Piqua, Ohio. Van, incidentally, is the ultra-high frequency DXer. How about some reports on your activities, Van, and let us know what's doing in that field—also, write to Editor Ray La Rocque for membership in the club if you haven't as yet joined up.

Many thanks for your reports, fellows, and lots of success in your DX quest. Keep 'em coming!

MYSTERY

Grady C. Ferguson (R2606) reported that on Sept. 6 at 10 p.m. he had the good luck to pick up a K7SXB or SFB on approximately 17300 kilocycles, in contact with 2XYM and transmitting a picture!

Grady, however, does not know the QRA of either station but would like them very much so that he could get in touch with them. If anyone is familiar with these QRAs, please pass along the details to Grady Ferguson, 301 Tuckaseege Road, Charlotte, N. C.

Thomas M. Moss (R1101) of Hapeville, Ga., and who has long been a DXer and a member of the Radex Club, is now a ham! Tom is now W4HYW, and although his rig is running low power he will be watch-

ing for those reports from club members. And he assures one and all that they'll be answered for return postage and filed under the call area of the reporter.

Tom uses all bands, both phone and CW. He says he intends to use the ultra-high-frequency bands, too, in a short while.

And so, another Radex club member makes good and joins the other hams in the big time!

QSL of W8TMP, who claims longest QSO!

We would like to call attention to another Radex-sponsored Club, The American QRA Club. Headquarters are at 239 Nelson Drive, Route 3, Baton Rouge, Louisiana. For details write to L. N. Stracener, Jr., president of the club.

The club puts out a monthly bulletin of fresh, 100 per cent QRAs of SWLs and BCL swappers. The dues are 50 cents per year.

QRA and QSL

For Radexer A. M. Hankins, Frank Coryell (R2145) comes through with the following QRA's: K6QUD: F. C. Firth, 2651 Puunui St., Honolulu, Hawaii; K6REF: Hale C. Cheatham, Lihue, Kanai, Hawaii.

Frank also says to send all QSLs for unknown K6s to K6LBH, Jim Pa, 1416-D Lunalilo St., Honolulu.

These stations QSLed for return postage: K6QUD, 6OJI, 6IQN and 6SRZ.

Wanted by L. N. Stracener, Jr. (R1843) the QRAs of OA1A, W5XGV and W1OXNL (heard on 4412.5 kcs.), W8GYV, W8GT and W3IRA.

Some requested QRAs: XE1IF: Luis Farel Cubillas, Triangulo No. 702, Col. del Valle, Mexico, D. F.; W6RX: John Imsand, 1040 Channing Ave., Palo Alto, Calif.; W1KLC: F. B. Newton, Nauset Rd., East Orleans, Mass.; W1LYH: Guy A. Bixby, 107 Malden, Everett, Mass.; W8SQL: G. H. Fitzgerald, 419 Beech, Lansing, Mich.

Zeke, Coop, and Bax, the gang at K5AT.

Our special guest of the month is K5AT, operated by three fun-loving gentlemen commonly known as Zeke, Coop and Bax. They call themselves "The Jungleers" and the accompanying photo shows them just returned from a hunting trip in the jungle with their catch. They didn't say what the catch was but from the photo the animals either are alligators or lizards—we'll guess the latter.

Page thirty-two

K5AT has been operating at Fort Davis in the Panama Canal Zone for the past three years with a rotating gang. That is, it is sort of a club to which the members pay dues and then take turn operating the station. The dues help to keep the equipment in pretty fair shape.

Coop, Bax and Zeke write the following:

"The Commanding General governs our time on the air and also the bands that we operate. At present our schedule of working hours are 3 to 5 E. S. T. on the Ten meter band, twenty meters from 5 to 8 and Forty meter CW 8 to 11. At present we have only three active members and our hours of operation are divided equally among us.

The gang are as follows—Capt. Harry N. Cooperman D. Dental Corps ("COOP"), Sgt. Marion W. Baxley ("BAX"), Sgt. Stanley W. Kulpa ("ZEKE"). We feel that K5AT is the most popular 10 Meter gang and we can prove it with the number of contacts each week. During this past summer the 10-meter band has been very dead but most of the Op's in the states claimed that we were still coming in. We have given signal reports to as many as 31 Hams in twenty minutes. What has happened has been that the moment we placed a CQ out every 10 meter op up in the states, Puerto Rico, Hawaii and the many numerous US possessions come back with a call. In the past there have been too many to let out and our practice down here has been such as to ask any of the op's calling us to alternate their call and our call and in this manner understand that they would be satisfied with just a report. This has been working out in fine shape and that is where we have established our record.

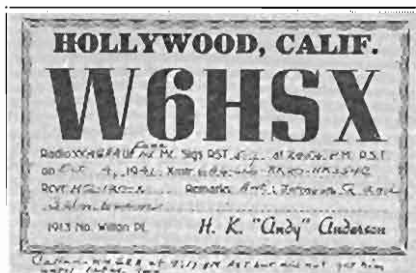

"We are using a Hallicrafter SX 28 receiver and our rig is nothing to speak of as to its modern design. Our transmitter uses a three element rotary beam, cathode modulated hav-

ing about 150 watts input with a pair of 812's in the final, Speech amplification using 616's.

What gets us is that the Panama Canal Zone has a wet season of 8 months and a dry season of the remaining four. During our rainy sea-

son (May to January) we have a most extraordinary high noise level and our receiving is a little bit shaky. But with the winter setting itself in up in the states we feel that the noise will deminish and that the old band will hold up."

THE "W" SECTION

A very interesting chap by the name of Sherwood Espenschied is the op of W8TMP; representing the 8th call area in this month's W Section. He is only 17 years old but has operated for two years, having obtained his license when he was but 15.

Sherwood is on 160-meter phone with 150 watts using a TZ40 final and a half wave flat top antenna, pair of 6L6s in Class A-B, plate modulated.

His DX is 32 states on 160, and incidentally, he exchanges cards with ALL SWLs. His QRA: P. O. Box 134, Hartville, Ohio.

He offers the following dope on Akron (Hartville is a suburb) YL ops: W8VFL is Martha Lee Bishop, who used to write a ham column for the Akron Beacon-Journal and is now Mrs. W8UDR of Chagrin Falls, Ohio. W8WLO is "Rita," who will soon have 5 watts on the air instead of 25. (Boys: Rita's xtal frequency is 1832 kcs).

Sherwood boasts of the longest QSO we have ever heard of—11 hours and 9 minutes with W8SKM of Akron.

W8TMP has two pet peeves: when he hears someone he wants to talk to and the rig keeps continually arcing or the crystal won't kick in, and when he's got the power turned away up listening to a distant station and a local comes on the air almost tearing the earphones from his head!

Peter ("Peter") Housekeeper, the op of W2KMQ, is responsible for many hams now operating. He is a science teacher at the Peekskill, N. Y. Senior High School, and is trustee of the High School Radio Club, W2KVR. He is also president of W2NIK, the Peekskill Community Club and Skipper of the Jans Peek Sea Scouts.

W2NIK and the Sea Scouts did a great job relaying from a boat in the Hudson River the time and position of the first 51 boats in the Albany-New York races recently.

Pete's own rig is operated on 20 and 75-meter phone. It consists of a 6A6, 807, pair of RK12s and a single 100TH running about 300 watts. TZ40s are used for modulators, and there is an Astatic D104 mike. The

antenna is a 75-meter doublet which also works on 20 meters with careful adjustment.

Our last ham of the month is W6HSX, H. K. ("Andy") Anderson, 1913 N. Wilton Place, Holywood, Calif. He was born on a farm near Hopkinsville, Ky., in 1876, which makes him about 65 years old. He was educated at South Kentucky College there which later merged with Transylvania at Lexington, Ky. He also took a technical training and became a refrigerator engineer.

Andy has had quite a checkered business career, having been bank cashier, teacher and principal in a high school, installed and bought out a 100-ton refrigerator plant, and was postmaster at Madisonville, Ky.

He moved finally to Hollywood and went into semi-retirement, taking up real estate and life insurance as a part-time business.

He learned telegraphy at an early age and took up radio as a hobby about 18 years ago, later took a course in radio engineering and now has a kilowatt transmitter modulated on the 20-meter band.

HIGHLIGHTS

Reports are beginning to pick up and by the next meeting we should have plenty of dope. Meanwhile, here are the highlights.

ALASKA — Bill Wells (R2443) overhead W3EWW saying he was moving to the K7 district and was leaving in October. He may be heard from K7BUB or K7HAR until his own rig is shipped there. K7FTM is on a frequency of 14.21 megs.

CANAL ZONE — K5AQ and K5AH heard by Ken Dimon (R2533) on 10 meters, both with a R7-8 signal. NY1AE heard and verified by L. N. Stracener (R1843); the op is G. E. Zakotmik, Box E, Pedro Miguel, Canal Zone. NY1AD also heard.

CHILE—CE1AB and CE1AO both are operating on 20 meters and often

speaking in English. Here are some frequencies: CE2CI 14050, 3AG, 14140, and 3BG 14110.

COSTA RICA—TI2RC in San Jose, TI2WT in Grecias, and TI5-CMR in Alajuela heard on 20 meters.

GUATEMALA—TG5JG heard calling Chile. Are the TG hams back on the air?

HAWAII—Here are frequencies of some of the K6 amateurs: FSF 28740; RVG 28790; PSY 28460; RUA 28430.

MEXICO—XE2S heard on 10 meters asking for SWL reports. His card is green and black. Some frequencies: XE1FR 14090; XE2GO 14050; XE1MH 14090.

PERU—OA4C in Lima has been heard speaking English on 20-meter phone—also OA4D.

PHILIPPINES—Some more frequencies: KA1CW 14110; KA7FR 14120; KA1AR 14080.

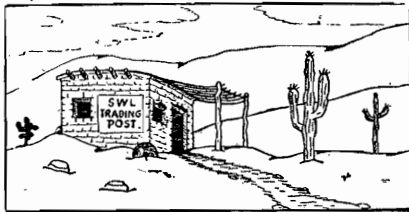

PORTO RICO—K4HVQ on 10 meters is in the Tenth Bombardment Squadron.

VENEZUELA — Bernie Arnold (R1978) received a card from YV1AG who QSLed for no return postage and answered in English.

CHATTER—Many thanks to your friend who furnished the frequencies, Mel. . . L. N. Stracener—thanks for your fine card, OM, and write me more details about that W8 manager. . . also a fine card received from Frank Coryell. . . Received Oddgeir Barneson's card, too—a neat one. . . to all youse guys: my cards are almost ready and you'll all get one as soon as. . . Tom Moss: I'll probably be down there not before next September, Tom, but will sure stop and see you when I go through. . . To Van Field: I'll let you know of any UHF hams around Piqua if I hear of any.

Veri News and New Veris

LATEST VERIFICATIONS

Standard Broadcast

KSCJ's new verification card is a very clever card in three colors. The card, as shown, was designed by KSCJ's manager, Gene Flaherty and drawn by George Vandenberg artist for Sioux City Journal.

KXOK's verification is printed on standard government postal and has black outline call letters, 1/2 inch high, across the face of card.

CHML verifies on a postcard with a picture of the station on it.

KGMB in Honolulu verifies with an attractive printed post card.

WFCI verifies by personal letter.

HJAN card has both standard and shortwave calls listed on it and reverse contains a personal message in Spanish.

XEG's verification card shows Cerro de la Silla (Saddle Mountain) in the background of the XEG building in Monterrey.

WTIC in Hartford sends a verification stamp to the listener for every correct report.

WBEN will send anyone a booklet showing their studios, transmitters, etc. for a three cent stamp.

Shortwaves

VLQ-5 and VLG-5 send the regular A. B. C. verification card.

OPM verified with a letter in French and sent a dozen interesting and unusual stamps as a souvenir. Letters to this stations should be sent to Radio Congo Belge, Cabinet Du Gouverneur General, Service De L'Information, Leopoldville, Belgian Congo.

CJCX in Sydney verifies with a postal card printed in black. Card was enclosed in an envelope that had a censor's stamp on it.

Page thirty-six

Clever new KSCJ card being sent DX-ers who correctly report the station and enclose return postage.

CB1174's address for those who want it is "Radio HUcke," Casilla 6009, Santiago, Chile.

CBFY verifies with the same Canadian Broadcasting Corp. card as CBFW.

XGOY in Chungking verifies with an attractive card which usually takes quite a while to reach its destination.

For assistance in compiling this data we thank R2467—Wilson Barnes, R2167—Len Kruse, R2327—Eddie Strakna, R1920—Richard Coatsworth, R1691—Hal Robie, R2612—John Chipps.

LATIN-AMERICAN

ISSUE IN

JANUARY

Calendar of DX Programs

CLUB SPECIALS and REGULAR TESTS

When reporting these programs RADEX Club members are urged to use the utmost care to make their reports interesting and informative. Ask for verification, but do not demand it. Tell the station that you saw their program LISTED IN RADEX. Tell them what the RADEX Club stands for and ask them to contact the club regarding our policy for better relationship between DXer and radio station.

If you add a new catch through the efforts of one of the clubs who have arranged the program, write a letter to that club thanking them for arranging it and ask for details on joining the organization!

SPECIAL PROGRAMS

Wednesday Morning, Dec. 3rd

3:00-4:00 WWSA, 550, Harrisburg, Va.
(WDXA)
3:30-4:00 KHMO, 1340, Hannibal, Mo.
4:00-4:15 WIZE, 1340, Springfield, O.
(WDXA)
4:00-4:15 WGAU, 1340, Athens, Ga.
4:15-4:30 WATW, 1340, Ashland, Wisc.

Thursday Morning, Dec. 4th

2:00-3:00 WROL, 620, Knoxville, Tenn.
(WDXA)
3:20-3:55 WDAK, 1340, West Point, Ga.

Friday Morning, Dec. 5th

4:00-4:30 KYUM, 1240, Yuma, Ariz.

Sunday Morning, Dec. 7th

1:00-1:05 WBZA, Springfield, Mass.

Tuesday Morning, Dec. 9th

2:20-2:35 WACO, 1450, Waco, Tex.

Sunday Morning, Dec. 14th

2:00-3:00 CHRC, 800, Quebec City, P. Q.
(GNSWLC)
1:30-5:00 CFRN, 1260, Edmonton, Alta.
(NNRC)

(No return postage on CFRN if you live outside of Canada)

Monday Morning, Dec. 15th

3:30-4:00 KLX, 910, Oakland, Calif.
3:30-4:00 KMYR, 1340, Denver, Colo.

Tuesday Morning, Dec. 16th

2:00-3:00 CKVD, 1230, Val D'Or, P. Q.
(GNSWLC)

Wednesday Morning, Dec. 17th

2:00-4:00 WOCE, 1240, W. Yarmouth, Mass.
(GNSWLC)

Friday Morning, Dec. 19th

3:30-4:00 KFNF, 920, Shenandoah, Iowa
(WDXA)

Saturday Morning, Dec. 20th

4:15-4:30 KWFC, 1340, Hot Springs, Ark.
4:30-4:45 WJHC, 1400, Opelika, Ala.

Thursday Morning, Dec. 25th

A lot of Latin Americans are on all night, try especially for Costa Rican stations!

Tuesday Morning, Dec. 30th

4:00-5:00 WCED, 1230, DuBois, Pa.—RADEX is often mentioned on this program—listen!

Thursday Morning, Jan. 1st

12:01-7:00 WKBW, 1520, Buffalo, N. Y. Many stations not usually on after midnight are on late New Year's eve!

REGULAR TESTS

First Sunday			3:15-3:30	WGBR	1400	2:45-3:00	WJHO	1400
4:00-4:15	WESX	1230	3:20-3:35	WSAU	1400	2:50-3:05	WMJM	1490
First Monday			3:25-3:40	WSPB	1450	2:50-3:05	WCRS	1450
2:00-2:30	WAOV	1450	3:25-3:40	WGAC	1240	2:55-3:10	WTMA	1250

American Broadcast Station Index

By frequencies - With names of owners

KEY TO SYMBOLS

Frequencies are given in kilocycles per second, and wavelength in meters. Night power is shown in watts in third column and daytime power (when different) is shown in parentheses in kilowatts. Thus (25) indicates 250 watts. Exact frequencies, when not multiples of ten are shown in the second column.

As soon as possible after a station has been granted a construction permit to change frequency, power, or other facilities, the change will be made in our listing. Until such time as the station is known to commence use of the new facilities, the letter (P) will designate that the station has a construction permit only. This method, it is believed, will eliminate the possibility of a station making a change before we have had the opportunity to list it.

Second Column Symbols
 A—Status in doubt.
 B—National "Blue" Network.
 C—Columbia Network.
 D—Daytime only.
 E—Minor Network.
 F—Canadian Network.
 G—Specified Hours.
 K—Licensed for facsimile.
 L—Limited time.
 M—Mutual Network.
 N—National "Red" and "Blue" Networks.
 O—RHC-Cadena Azul (Cuban Network)

P—Has Construction Permit only.
R—National "Red" Network.
Q—Station not in use.
S—Synchronized.
Sx—Indicates a "Booster" (or amplifier, or satellite) station working with larger station. The main station is indicated by S.
a-b-c—Small letters show stations using same transmitter.

Fourth Column Symbols
a—verifies for return postage.
b—Verifies only occasionally.
d—Verifies for government postal card.
e—Verifies free.
f—Verifies for 10 cents.
g—Card for postage; verifies stamp for 10c.
z—No information available.
1-2-3—Figures denote stations sharing time.
?—Reported but not officially confirmed.
...—No information.

MONTH'S CHANGES IN STATION DATA

New

1190 Tiajuana, B. C. 5000 w.
 1340 Fresno, Calif. 250 w.
 1400 Bessemer, Ala. 250 w.
 1490 XEOB Gomez Palacio, Dgo., 100 w.
 1490 CJMH Medicine Hat, Alta. 100 w.

Frequency and Power

550 from 760 XEFU, no change
 570 from WNAX, 1000(5) to 5000 w.
 680 from KFEO, 500(.25) to 5000 w.
 910 from KVAN, 250 to 500 w.
 980 from 1240 WSIX, 250-5000 w.
 980 from 1180 XETZ, no change
 990 from WNOX, 500 to 10000 w.
 1080 from KWJJ, 500 to 1000 w.
 1110 from 1190 XELO, no change
 1240 from KGY, 100 to 250 w.
 1240 from KDON, 100 to 250 w.
 1240 from 1030 XERZ, no change
 1260 from KFGQ, 100 to 250 w.
 1260 from XEDF, 250 to 500 w.
 1380 from KTSM, 500 to 500(1) w.
 1380 from WAWZ, 1000 to 1000 (5) w.
 1380 from WMBG, 1000(5) to 5000 w.
 1400 from WBTM, 100(.25) to 250 w.
 1400 from WMFD, 100(.25) to 250 w.
 1430 from KTRN, 500 to 1000 w.
 1430 from WRBY, 500 to 500(1) w.
 1450 from 1230 WFAM, no change
 1450 from 1370 WFNC, no change
 1490 from KRNR, 100(.25) to 250 w.

Call Letters

CJVI from CFCT (1480 kcs.)
 WASK from WFAM (1450 kcs.)
 XELO from XEBC (1270 kcs.)
 CHEX to Peterborough, Ont. (1430 kcs.)
 KPAS to Pasadena, Calif. (1110 kcs.)
 KTTT to Springfield, Mo. (1400 kcs.)
 XEKN to Reynosa, Tamps. (590 kcs.)
 XELY to Aguascalientes, Ags. (1490 kcs.)
 XENJ to Navojoa, Son. (1430 kcs.)
 XEOR to Orizaba, V. Cruz (580 kcs.)
 XETL to Tuxpan, V. Cruz (1390 kcs.)
 XETX to Casas Grandes, Chih. (1400 kcs.)
 XEYZ to Tlaxcala, Tlax. (1480 kcs.)

Delete

WBRB Grand Rapids, Mich. on 1230 kcs.
 ----- Morelia, Mich. on 640 kcs.
 ----- Puebla, Pue. on 1020 kcs.

1550 kcs.

CKTB in St. Catherines, Ontario will be in operation on this channel by the time this item appears in print. CKTB has clear channel on this frequency and will use 1000 watts. W. H. Allen, chief technician, informs R2167—Len Kruse that CKTB was the first Canadian station to use a vertical radiator. Remember the "Silver Spire"!

BCB — 1550 kcs.

XEWC is a new one in Tiajuana heard testing since June 18th. (Yarnes)

1560 kcs.

WQXR in New York City increased its power from 50000-10000 watts on November 1.

1570 kcs.

CFPL can be heard every evening—in the clear (Cooper—N. Y.)

1590 kcs.

WAKR is now on the air, interfering with KITE in the evening hours throughout much of the central part of the country. . . .

CHANNEL CHATTER

nice verification and are more than pleased to receive reports on their new station. They ask all DXers to write—R2167 Iowa). . . . KATE is on until 3 a.m. every Sunday. . . . WHFC can be heard daily until 2 a.m. . . .

WGPC signs on at 6 a.m. and off at 12:05 a.m. The antenna system consists of a single 175 foot vertical radiator. It is non-directional. Mailing address is simply: Station WGPC, Albany, Ga. All DX reports are answered if they include return postage. This from Fariss, Chief Engineer. . . .

1470 kcs.

XEAU, the new Border station in Agua Caliente, using 10 kw., ought to be on the air by time this item reaches the reader.

1490 kcs.

WEBC can be heard coming on the air at 7 a.m. on Sundays. . . . WDBC is now on the air.

The Shortwave Stations

from 2000 to 22000 kcs.

Abbreviations used in our shortwave list: Mid. for midnight, ex. for except, days of the week are abbreviated by using the first two letters as Su. for Sunday, etc. Whenever known, exact schedules are given, otherwise brief notes are included which are intended to help the listener identify the station.

Points are awarded for official corrections to this list sent in by readers. The scores are added in with your scores for reporting the SHORTWAVES IN REVIEW and totaled in the "Report-O-Meter" found in another section of RADEX.

2000 kcs. band

2320 TGWC Guatemala City, Guat., 9-9 a.m.; 12:45-3:45 p.m., 5:30 p. m.-12:15 a.m.

ANSWERS

a language sounding like Portuguese and a musical program on the Oriental side. Is this CR6RC? . . . "Another station on 9520 kcs. is heard from 5:45-5:15 a.m. carrying a program of Oriental music and talks. There were no English announcements. Is there an oriental station on or near this frequency besides ZBW-3?"

Ivor Sutherland, 30 Corte Madera Ave., Mill Valley, California would like to know why the station at Point Reyes—W2XN has a 2 instead of a 6! The station is heard every day on 2390 kcs.

Philippe A. Bates, 4101 Stanwood St., Holmesburg, Philadelphia, Pa. would like to know what station around 6070 kcs. announces as the Imperial Broadcasting System?

For Albert Koppe: "KGIW has returned to the air"—Llyod E. Staples, E. Bridgewater, Mass.

For Arnold Worme: "Yes JLG-4 and JVZ do QSL! Or at least they did as late as Dec. 4, 1940. They send, in addition the program booklets mentioned, Japanese post cards, detailed blanks for future reports, and international reply coupon, and a verification card in monotone sepia color bearing Japanese scenes."

Page seventy-two

For George Perrin: "Information on Radio Martinique: Frequency of 9700 kcs., power 200 watts. They do verify with nice card in five colors. QRA is Radio Martinique, Boite Postale 136, Fort de France, Martinique, Antilles Francaise."—Walter J. Oliver, Room 230, Drake Hotel, Oil City, Pa.

For Llyod E. Staples: "XERA was seized by the Mexican Government. The Government accused XERA of being in the hands of Nazi Sympathizers and that code messages were being sent through the station without authorization of that government."—George Deligianis, 42 Perry St., San Francisco, Calif.

For Arnold Worme: "The Cuban you heard using the slogan 'Radio Suaritos' is COCM on 9850 kcs."—Jack Stephenson, Oklahoma City, Okla.

For Robert E. Earles: "W9XTD is Donnelley Radio Telephone Co., Donnelley and Sheridan Roads, Lake Bluff."—Jack Stephenson, Oklahoma City, Okla.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC.

Required by the Acts of Congress of Aug. 24, 1912, and March 3, 1933.

Of Radio Index, published monthly except March, July, August and October at Emerson, New Jersey, for Oct. 1, 1941.

State of New Jersey, County of Bergen, ss.:

Before me, a Notary Public in and for the State and county aforesaid, personally appeared Ola B. Taylor, who, having been duly sworn according to law, deposes and says that she is the Business Manager of the RADIO INDEX, and that the following is, to the best of her knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended, by the Act of March 3, 1933, embodied in section 537, Postal Laws and Regulations, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: Publisher, The Radex Publishing Co., 12 Locust Ave., Emerson, N. J. Editor, Ray La Rocque, 105 Highland St., Worcester, Mass. Managing Editor, None. Business Manager, Ola B. Taylor, 12 Locust Ave., Emerson, N. J.

2. That the owner is: The Radex Publishing Co., 12 Locust Ave., Emerson, N. J. The following are the names and addresses of stockholders holding 1 per cent. or more of the capital stock of The Radex Publishing Co.: L. A. Byrne, 12 E. 48th St.,

N. Y., N. Y., as trustee for W. B. Auer, 148 Copley Ave., Teaneck, N. J.; A. F. Wiese, 91 Griggs Ave., Teaneck, N. J. and W. C. Auer, 148 Copley Ave., Teaneck, N. J.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: None.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

Ola B. Taylor, Business Manager.

Sworn to and subscribed before me this 30th day of September, 1941.

(Seal) (My commission expires June 10, 1946). Jacob Feinber

Help RADEX grow with Vitamin "S"—the Pecuniary Vitamin. Each coupon accompanied by \$2.00 or more supplies RADEX with countless units of Vitamin "S." Include a gift sub for a friend.

The Radex Publishing Co.
148 Copley Ave., Teaneck, N. J.

Enclosed find \$..... for which send me postpaid my choice of your offers as checked below:

RADEX—three years	RADEX—two years
U. S. A. \$6.00, Canada \$5.95	U. S. A. \$3.60, Canada \$4.35
RADEX—one year	RADEX—one copy
U. S. A. \$2.00, Canada \$2.40	U. S. A. 30c, Canada 35c

MAP and TIME CONVERTER—25c

You may combine total years of your new sub. or renewal with that of one or more friends to get preferred rate. Add 25c a year on Foreign subs. except Cuba and Mexico.

Do you waste time?

Figuring and counting on your fingers is a very slow and inaccurate method of converting the time in various parts of the world to GMT or EST. Make up your mind now to spend a quarter for a RADEX Time Converter and Map of the World. Just a twist of the wrist and the desired time stares at you from the converter dial. It's as easy as that.

Radox Time Converter and World Map
25 Cents

RADEX CONTEST

There are no contest scores this month as most contestants are withholding their final coupon until December 1st, awaiting receipt of a few delinquent verifications. Please mail your final coupon either No. 6 or the special X coupon to the RADEX Editorial Office, 105 Highland St., Worcester, Mass., on December 1st. Late coupons will delay the counting of score and announcement of final results. We will not accept any coupons post-marked after December 5th!

Radex for Christmas

WILL BRING ENJOYMENT THROUGHOUT
THE YEAR

RADEX IS ESPECIALLY APPRECIATED
BY SHUT-INS. WE HAVE ATTRAC-
TIVE GIFT CARDS FOR YOUR FRIENDS
TO GO WITH EVERY ORDER.

Please use convenient order form on page 80—opposite inside cover

Treat yourself to a subscription at the same time and take advantage of our
two year rate of \$3.60 (anywhere in the United States). Better still, send
two names with yours and get the \$5.40 offer.

GET MORE DX WITH HEADPHONES

WE recommend
the famous
Trimm line of
headphones for
DX success. They
are precision-built,
and combine ultra-
sensitivity with
rugged construc-
tion.

The Trimm "Featherweights"
weigh but 4¼ ounces com-
plete. 24,000 ohms. **\$8.50**
Trimm "Professional," 4,000
ohms. **4.00**
Trimm "Dependable," 2,000
ohms. **3.25**
