KFRC, San Francisco, Calif. Organist. Canary Chorus. Little Show.

**WYANT, HELEN**

WHK-WCLE, Cleveland, O. Organist.

## — Y —

**YATES, J. NEWTON**

KFVD, Los Angeles, Calif. Organist.

**YEAMAN, HOLLADAY**

WMVA, Martinsville, Va. Organist. The Organ Loft.

**YOUNG, GORDON**

KVOO, Tulsa, Okla. Organist.

# MUSICAL DIRECTORS OF STATIONS IN THE UNITED STATES and CANADA

*When the story of radio's contribution to the winning of the war becomes recorded history the chapter concerning station musical directors will be an impressive one. For it is on the home front that this department is doing an all-out job providing morale-building musical entertainment for war plant workers. That war plant labor-management committees are cognizant of the important job musical directors are doing is indicated by the fact that many plants "pipe in" musical programs throughout the day and night shifts.*

## Alabama

# HOME ECONOMICS DIRECTORS OF STATIONS IN UNITED STATES AND CANADA

*Winning the war on the home front has been an all-out activity of station home economists ever since Pearl Harbor. With rationing and shortages of taken-for-granted items, housewives have received a much-needed helping-hand to tailor the family menu to wartime conditions.*

*Another much-needed service provided by this department concerned wartime lunches for defense plant workers. The many suggestions and programs built around this one project alone was an educational campaign of tremendous magnitude.*

# WHEN RADIO WRITES FOR WAR

*Prepared by DICK DORRANCE and JOSEPH LISS,  
OWI, Domestic Radio Bureau*

*A digest of practical suggestions on wartime radio scripts,  
prepared at the request of the Nation's radio writers by the  
Domestic Radio Bureau, Office of War Information.*

## **Above All Else**

The Office of War Information has received an increasing number of inquiries from radio writers, seeking advice and cooperation on the most effective methods of presenting war information.

This material has been prepared as a digest of the many suggestions supplied by the Domestic Radio Bureau to these writers, and is being issued at their request in the belief that these recommendations may be of assistance to American radio in general.

We have no desire to be censors, no desire to tell writers what they should say. We want only to point out—in accordance with the wish of these writers themselves—some of the common errors that often cause listener confusion.

Competent radio writers realize the responsibility that is theirs to give our Nation an authentic picture of the gravest peril free men have ever faced.

**They know that people look to radio for full information on the operations of our armed forces, within the limits of military security. They know that, behind the firing line, at home, and in the war factories, people also look to radio for information. All Americans are anxious to learn how they may best help their sons and brothers in uniform win the war.**

You will find that the following suggestions contains more “don’ts” than “do’s.” This is because the “do’s” can be enumerated simply.

\* \* \* DO study carefully all Radio Background bulletins sent out by the Office of War Information. They constitute official statements of America’s war problems. Read the background material closely. You can’t know too much about a subject. It’s time well spent, and rewriting saved, if you understand every angle thoroughly.

\* \* \* DO understand that war information must be aimed accurately, handled with care, with intelligence, with respect. Routine announcements, sensationalism, commercials that capitalize on the exigencies of war, name-calling, over-confidence . . . these are practices that can hardly come under the heading of war information.

Radio must explain and instruct.

What radio says must be authentic, well-considered, simply stated.

Radio must present the war and its problems in true proportions, giving proper emphasis to all matters and observing always the tenets of good taste.

## **Radio and Its Messages**

There are, as you know, two main types of war messages.

- (1) Messages of "action."
- (2) Messages of "understanding."

The "action" messages deal with specific, tangible things. They tell people the why, and what-to-do, of such matters as national mileage rationing, fuel conservation, salvage, etc. The facts involved are expressed simply. They may be put into a few words, supported by "reason why."

But war information is more than messages of "action." There are also things every citizen must know and understand about our fight if he is to play his part in this conflict and in the establishment of a fair and lasting peace. They are complex, continuing, frequently ignored or misunderstood things. In effect, they are ideals—the grasping might-by-right ideals of the Axis, and our own ideals toward a free existence.

These are the background of our war. Radio has an inescapable obligation to give its listeners a fuller understanding of whom we fight, and what we hope to gain in terms of universal freedom for all men everywhere.

## **Those Who Are Against Us**

Consider, first, the enemy.

His existence is our major problem. He is ruthless, calculating, intelligent, in his own warped way. He is as determined to conquer us as we should be to overthrow him.

Don't minimize the enemy's ability, his weapons, his staying power in this fight.

Don't make the enemy an object of humor. Beware of ridiculing him in ways that may lead the public to underestimate his strength, to become complacent, to slacken the intensity of its effort.

Calling the enemy by derogatory names—"yellow rats" or "dirty Huns" is an ineffectual way of fighting. Actions, not epithets, win wars.

**O**ur enemy is the German Nazi, the Italian Fascist, the Japanese militarist. At the same time, our enemy is not necessarily the German, Italian, or Japanese people. They have been misled by despotic rulers, by lies, by false promises based on false premises. And, when those among them who have brought this trouble on the world are eradicated, the people themselves must be permitted to know the fuller, better life that is our aim for all the world.

The enemy is not only in the Axis lands. His doctrines can come among us—into the cities and homes of America—when people here embrace the Axis ideals and philosophy of life. Men and women who foster racial prejudices are fighting for the enemy. So are the unwitting isolationists who want to appease and make shallow compromises with our enemies.

The Axis lives by war, by destruction, by death and the trampling of all human rights. Our enemies are all those persons and governments that think the Axis way is the right way. This globe is too small for them and us.

## ***Those Who Are With Us***

The United Nations, of course, are the antithesis of the Axis. Our theme is one of unity—of common action, common love of freedom, common consideration and esteem of one group of people for another.

We're not at war with the Axis just because it happens to be on the opposite side of the battle line. The United Nations are at war because the world the Axis wants to create has no place for men of free will.

Look upon the United Nations as *people . . . people* who may speak different languages, worship in different churches, live in diverse lands with different climates, customs, economies, histories and governments. Regardless of this, they still are bonded in an imperishable

desire to have all men, everywhere, know the fundamental freedoms.

The American public, by and large, still fails to understand the fullness of the term "United Nations." It does not mean a simple fraternalism that springs from a common plight. Instead the aim of the United Nations coalition is a sound and sensible working agreement upon which we can rest all our hopes for a successful post-war world.

The United Nations are more than just "the allies." They are *not* merely a collection of political entities, an array of governments geared opportunistically in a military enterprise of neck-saving proportions.

**When you deal with them in scripts, dont take the superior viewpoint that the Yanks are coming and now the world's worries are over. Remember that America's part in this global struggle still has far, far to go before it matches that of the British, Russians, Chinese, and other United Nations. They have thrown resources and manpower and sacrifices into the fight that overshadow our own preliminary efforts.**

**Don't take the attitude that all the rest of the world is following America. Don't talk about America as the future center of world culture.**

**Don't give the impression that we're the only nation making planes and tanks.**

**Don't come out with flag-draped statements about Americans being the "best fighters" in the world.**

The United Nations have found it necessary to fight for the existence of these liberties—the freedom of speech and religion, the freedom from want and fear.

When the peril has gone, the task of the United Nations will be but half-done. The United Nations who worked together in war must also work together in peace, must build for *all* men a better world in which horrors like the Axis can never again occur.

## **Blueprint for the Future**

The common aim of the United Nations, therefore, is a just and well-planned world after the war.

The silhouette of this world has been sketched in a pioneer document of liberty supported by all of the United Nations—the Atlantic Charter.

Briefly, it proposes these as characteristics of the world in which we hope to face the future.

- (1) No selfish ambitions, territorial or otherwise, by one or more nations against others.
- (2) No territorial changes without the democratic consent of the peoples concerned.
- (3) The right of all peoples to choose their own form of government.
- (4) A world trade in which all may participate on equal terms.
- (5) Full collaboration between all nations to improve labor standards, foster economic advancement and social security.
- (6) A continued peace, wherein all men may live out their lives in freedom from want and fear.
- (7) Full freedom of the seas for vessels of all nations.
- (8) A universal abandonment of force in all world relations.

The aims, of course, are generalized. The specific means by which they should be attained can come only through the cooperation and intelligent action of the peoples themselves.

We face a grave danger. If peace comes, and the people are not ready to assume the responsibility of world reconstruction, there is certain risk that once again we shall have won a war and lost a peace.

Radio today should do all that it can, in practical and commonsense ways, to stimulate public discussions of the post-war world, to get people thinking and arguing about the kind of world they want to live in, and the practical ways we should proceed to assure that this time nothing goes amiss. Then, when peace comes, people with plans will be better equipped to tackle such problems than people who face a new future in bewilderment.

## **Some Have Had Thoughts**

Consider these prophetic utterances by representative leaders and thinkers among the United Nations . . . .

President Franklin D. Roosevelt:

*There are a few people in this country who, when the collapse of the Axis begins, will tell our people that we are safe once more; that we can tell the rest of the world to "stew in its own juice"; that never again will we help to pull "the other fellow's chestnuts from the fire"; that the future of civilization can jolly well take care of itself insofar as we are concerned. But it is useless to win battles if the cause for which we fought these battles is lost. It is useless to win a war unless it stays*

won . . . The objective of today is clear and realistic. It is to destroy completely the military power of Germany, Italy and Japan to such good purpose that their threat against us and all the other United Nations cannot be revived a generation hence. We are united in seeking the kind of victory that will guarantee that our grandchildren can grow and, under God, may live their lives, free from the constant threat of invasion, destruction, slavery and violent death.

Generalissimo Chiang Kai-shek:

*Unless real world cooperation replaces both isolationism and imperialism of whatever form in the new interdependent world of free nations there will be no lasting security for you or for us.*

Vice President Henry A. Wallace:

*Everywhere the common people are on the march. Thousands of them are learning to read and write, learning to think together, learning to use tools . . . When the freedom-loving people march—when the farmers have an opportunity to buy land at reasonable prices and to sell the produce of their land through their own organizations, when workers have the opportunity to form unions and bargain through them collectively, and when the children of all the people have an opportunity to attend schools which teach them the truths of the real world in which they live—when these opportunities are open to everyone, then the world moves straight ahead.*

Joseph Stalin:

*. . . abolition of racial exclusivity, equality of nations and integrity of their territories, liberation of enslaved nations and restoration of their sovereign rights, the right of every nation to arrange its affairs as it wishes, economic aid to nations that have suffered and assistance to them in attaining their material welfare, restoration of democratic liberties, the destruction of the Hitlerite regime.*

Viscount Lord Halifax:

*Nations, like individuals, can only exist in freedom and security if they are prepared to cooperate for mutual economic welfare and, if need be, for mutual defense. In the economic sphere, indeed, everything depends upon such cooperation. But no party to such an association as we picture will be ambitious to dominate its partners. Every nation, great or small, will have its place and make its own contribution. Moreover, past experience teaches that a stable international order must admit of ordered change in the relations between states. Just as the liberty of the individual must have regard to the needs of the community, so must every nation in future accept its obligations to the general family of nations.*

## Mechanically Speaking . . .

We've dwelt at some length on the importance of these three over-all topics—the enemy, the United Nations, the after-war world. Every-

thing else hinges or pivots on them. Every specific war message that radio conveys to its listeners contributes toward the downfall of the enemy and the strengthening of the United Nations.

This article, of course, has no thought of telling you things about the business of writing radio scripts. You're qualified to do that. What we *are* trying to do is give you a few of the same answers we've passed along in reply to sundry queries from time to time.

Our suggestions are presented for an important reason. When listeners are confused by muddy presentation of factual information on war issues, policy, operations, or progress—no matter how well-intentioned the writer of a program may have been—it retards our progress to victory. Inaccuracies, over-emphasis, poor taste, racial prejudices, super-confidence, ill-chosen words are all dangerous to a well-informed public.

Let's get down to cases . . .

## ***The Sins of Over-statement***

Superlatives are handy catch-phrases, cherished by some writers as a quick way to emphasize a point. Generally, however, superlatives and over-statements are inaccurate. This is total war. Each part of our total strength is dependent on the others. To characterize one element in the fighting and winning of the war as the *only* way, or the *best* way, is invariably inaccurate. It leads to unhealthy competition at a time when our objective should be cooperation. For example:

*"The only way to win the war is to buy War Bonds."*

*"The best way to win the war is to turn out food for freedom."*

*"We will lose the war if we continue our high accident rate."*

These matters are important—naturally—but none of them is the *only* thing that contributes to the job of winning the war.

Calling every new campaign of the United Nations "The Second Front" is also bad. The term "second front" has come to connote an actual invasion of Europe. The North African campaign, the battles at Guadalcanal are not "The Second Front." They are the North African campaign, the South Pacific theater of war, or "a new front."

## ***Brass Buttons & Bands***

War is not pretty. Wars aren't fought so that people can wear pretty uniforms. People don't join the armed forces or the merchant

marine "to see the world." Women don uniforms and go into war factories so they can do hard useful work. The fighting man's job is to destroy the enemy, to fight for "our way of life."

"Our way of life" is a broad statement. There isn't always time during a short recruiting announcement to go into a definition of post-war aims. This difficulty, nevertheless, is no justification for any radio writer to present such misleading sales talk as:

*"Join the WAACS (or WAVES) and wear the good-looking, proud khaki (or blue) of the service. Look smart."*

*"Remember, nurses (or WAACS or WAVES) have a high percentage of marriage in their ranks."*

*"Join the merchant marine and travel to places you have read about, places you've dreamed of visiting all your life. See Waikiki Beach, etc. . . ."*

These samples, of course, are not actual spot announcements, but a compound of wrong elements, all fused together to show what shouldn't be presented as a primary persuasion theme.

Conversely, there's no need to get gruesome and describe the rigors and risks of wartime life. It is important to stress the reason why men and women should serve their country. And, as a further incentive, there is no harm in pointing out the useful skills they acquire will serve them well in the post-war world.

## **Horror Stuff**

The Code of Wartime Practices for American Broadcasters, drawn up by the Office of Censorship in collaboration with the radio industry, states: "Radio is requested to avoid dramatic programs which attempt to portray the horrors of war, and sound effects which might be mistaken for air-raid alarms."

War, once again, is not pretty. There's no point rubbing it in, or bathing in blood baths, or having seamen fried in oil. Not only is it detrimental to manpower procurement, but the womenfolk at home can picture all too vividly the horrors that may befall their men without hearing radio paint the possibilities in primary colors.

An old expert in drama—Aristotle—has been telling dramatists for more than 2,000 years that horror is inept dramaturgy. When it comes as close to home as it does in war, it's unnecessarily harmful. Here, for example, is something that both Aristotle and the women of America would shudder at:

*"Every man was an expert at gonging, strangling, bone crushing, knifing, bayoneting, and otherwise putting the enemy out of action."*

Horror on the air has often been employed as a device of escapism. But when the horror portrayed is *realism*—something that's really happening in this war—then it can hardly be considered either escapism or entertainment. Listeners instantly associate it with someone dear to them who may be serving under hazardous circumstances of war.

Don't picture soldiers having their legs blown off or picking shrapnel from their flesh. Go easy on screams, moans, sounds of physical pain, death rattles. And be careful that some over-dramatic actor doesn't take a sob in one of your scripts and build it up to a blood-chilling shriek. Don't have doctors saw off legs, or bodies crackle in the flaming wreckage of a bomber.

In short, stick close to the standards of good taste. Remember that excessive horror can have a serious psychological effect upon people. That's why the Axis permitted horror stories and pictures to help soften up every country its troops have invaded.

## We Supreme Americans!

Over-zealous patriotic programs have not yet reached the point of closing with "Heil America"—but sometimes the effect is almost the same. Unconscious jingoism can well build up into a serious problem, threatening any intelligent consideration of the post-war world.

Take the word "yellow." Its use connotes a "white supremacy." But remember that the Chinese, Mongolians, and other Asiatic nationalities—besides the Japanese—have yellow skins.

A native of China is a *Chinese*, not a Chinaman. And all Chinese don't say "velly good" or talk like traditional laundrymen or Fu Manchu.

A native of the British Isles is a *Britisher* or the archaic *Briton*—not a "limey." A Britisher may be a Welshman, an Irishman, a Scotsman, or an Englishman. A Britisher is not exclusively an Englishman. And they don't like to be characterized as the "I say ol' top, by jove" type of puffwit.

Among Negroes—as among white men—there are college professors, scientists, soldiers who fight fascism, doctors, war production workers, human beings. When portraying a Negro on a radio program, avoid the Stepin Fechit type, the minstrel man, the stooge, the dumb

domestic, the guy always being chased by ghosts. And Negroes have names as commonplace as John and Mary. Seldom are they colorful as "Eight-ball," "Ironhead," "Blackboy," or "Razor." When Negro characters appear in a script, try to have them played by real Negroes—straight and intelligently—if Negro actors are available. And they *are* available in all large radio production centers.

## **Sticks & Stones . . .**

What should we call our enemies? They're Germans, Japanese, Italians, Nazis, Hitlerites, or Fascists. To pepper them with epithets like yellow Japs, dirty Huns, beasts, monsters, snakes—or to describe them as stupid, dumb, filthy, wooden-headed and so on—is not the way to win battles. Guns are more effective than name-calling. Besides, when we say the enemy is "stupid" or "dumb," we underestimate him and fool only ourselves. Don't minimize the Japanese by typing them as funny little men whose teeth protrude, who always wear thick-lensed spectacles, and say "so-solly" with an unctuous oiliness. Actually, the Japanese are tough fighting men, ruthless and fanatical in their military aspirations.

We can't hope that people will stop using the name "Japs." It's a convenient abbreviation—but after the war its continued use will not help the peace. After the warlords are overthrown, we shall have to accept the Japanese people into the common brotherhood of all men. The chauvinistic monicker of "Jap" will always bear the stigma of describing a hated enemy. Remember, incidentally, that loyal Japanese-Americans—now in western U. S. relocation (not concentration) camps—strongly resent being called "Japs."

Boasting about what we did in old wars won't help win this one. Boasting about old wars when we fought people who now fight beside us hardly promotes world unity. Don't dwell at length on the past military exploits of this country as evidence that we are invulnerable. This does not mean we shouldn't point with pride to times when we've fought in defense of the ideals of free men.

## **Fun as Usual**

Writers are not expected to lose their sense of humor when they write war scripts. Comedy and farce, when properly handled, can be a good vehicle for war messages. Certain situations that were funny

in peace-time, however, no longer seem so funny to listeners in view of wartime restrictions and sacrifices.

Programs that will be relayed overseas should avoid gags or situations that show "business as usual" on the home front. A day at the race track, crowds in a night club, vacation excursions, and the like may be construed by troops on the fighting fronts to indicate that the people back home are not really in the war. Besides, it might supply useful fodder for enemy propaganda machines.

Because of the rubber shortage and nationwide mileage rationing, scripts should avoid sequences where automobiles are used for non-essential purposes. Don't have the hero and heroine go for a ride in the moonlight. Don't show automobiles being used for long inter-city trips. Cut out the cross-country racing at 70 miles an hour.

Placing war messages on comedy scripts requires particular care if worthwhile results are to be attained. Be careful not to subordinate the message to the humor. Don't let it get lost in the laughs. End up on a serious note. The change of tempo punches the message home all the harder.

In our judgment, it is poor taste to tie commercial plugs in with war messages. Listeners lose confidence, not only in the message but also the product which tries to capitalize on the gravity of the war. Surveys and letters of protest show a strong public resentment to the practice of commercial advertisers injecting high-power pressure at the expense of the war.

There is no more horrible example to give you than the slogan flaunted by the maker of a hair-removal cream—"For a nation under arms, watch your under-arms." Equally opportunistic are commercials that hitch-hike on war production incentive and nutritional needs, urging housewives to feed their husbands plenty of Smuggins Krispy-Crax for breakfast so they can help win the war.

## **The Right Words**

Words are important tools in the waging of war. Here are some rusty ones that can stand a little polishing.

*War effort* is apologetic. *Effort* can mean nothing more than *severe exertion* or *attempt*. Since the word implies questionable endeavor and, at the same time, has been done to

death, why use so weak a term? What's wrong with *war job*, *war drive*, *fighting the war* or just plain *war*?

*Sabotage* has also been over-used and applied to any and everything that might hamper the war. If a man doesn't show up for work, it's *sabotage*. If you don't vote, it's *sabotage*. If you go Sunday driving, it's *sabotage*. Words quickly lose their original meaning when used so indiscriminately.

There are no *defense plants*. They are *war plants*.

War is not a *game*. It's not fun to shoot down "Jap" planes.

Don't *exterminate the enemy*. Don't boast that we'll kill all the Japanese and Germans on the face of the globe. Extermination is Hitler's policy—not ours.

Avoid the word *conquer* in referring to successful military expeditions that have recovered territory from the Axis. The policy of the United Nations is not one of conquest. Our aim is to liberate, to restore countries to their rightful owners.

Don't use the expression *gasoline rationing*. The proper term is *mileage rationing*. There is no gasoline shortage except along the Atlantic seaboard. We are rationing miles so as to save rubber.

## **A Few Other Suggestions**

Audience reaction toward some programs on the air today makes it advisable to point out a few other faults that can be quickly remedied:

Whenever working messages into dialogue and dramatizations, try to keep a logical, natural atmosphere. Don't have a poorly educated character launch into a brilliant exposition of ways to avoid inflation. Avoid soapbox oratory, long and tiresome harangues, stilted recitations of facts. The way to work messages into dialogue is with in-character conversations, plot structure, plausible situations.

When you build up an argument *against* some particular war measure so as to knock it down with reasons and logic *for*, be sure that you knock it down *convincingly and completely*. To leave any lingering doubts in a listener's mind is, obviously, harmful.

"Scare" broadcasts can be dangerous. The idea of having a gutteral voice break into an apparently routine broadcast with "Stop!" in the name of the Third Reich!" and pretend to take over the station,

followed by a plug for War Bonds on the ground "this really isn't happening, but it might" is needlessly sensational. It gives listeners a sense of being duped, followed by resentment. In some cases, it has resulted in near-panic. Making America jittery is a poor way of selling the war.

## No Room for Rumor

Here are some suggestions about rumor—a tricky subject that must obviously be handled with care.

The first rule for radio, when dealing with rumors, is *don't quote an actual rumor on the air.*

Actual tests show that this usually results in even wider circulation than would be the case if radio hadn't entered the picture at all. Don't quote them for purposes of refutation or ridicule or adding a gag twist.

Even if only one or two people miss the point, there's still the chance they may send the whisper running through ever-widening circles. Besides, don't forget that some crepe-hangers are never happier than when they have a juicy rumor to play with.

A denial rarely catches up with or effaces the original impression created by a rumor. Leave the spiking of them to government officials.

Avoid dramatizing rumors and rumor-mongering in specific terms and incidents. This only encourages people to go witch hunting or snooping on the man next door. Even fictitious examples of rumor are likely to back-fire.

This, however, should not be construed to mean that radio can't do anything useful in this battle against malicious gossiping. The most effective antidote is *information*—straight-forward, authentic, complete information. Tell your listeners the facts, but make no *reference to existence of the rumor* that required dissemination of such facts. In this way, you fight it directly without running the risk of spreading its harm.

## The Bugaboo of Propaganda

Don't talk too much in your programs about the menace of Axis propaganda. There has been considerable indifference to it thus far, but we always face the danger of exaggerating its importance. Which,

**E, in the Printing profession, one of**

**the oldest forms of public  
information and recreation,  
are proud to be so closely  
associated with the Radio  
profession, one of the newest**

**and most active forms of public information and recreation.**

**We have a long established tradition to uphold, while Radio  
still in its infancy, is constantly establishing new and amazing  
traditions that will endure for a great many years to come.**

**This Radio Annual will remain as the printed record of the  
many traditions created during the year nineteen forty-two.**

**The Barnes Printing Co., Inc.**

**229 West 28th Street**

**- - - - -**

**New York**

of course, is just what the Axis wants us to do. They've worked hard to build up an illusion of invincibility. Let's not play their game.

Don't spotlight specific cases where the Axis propaganda machine has been at work, even for purposes of ridicule—except when released by an official government agency.

It's worth remembering that comparatively few persons listen to shortwave broadcasts. These, of course, are the principle channel by which the Axis tries to pour poison into the United States. To spotlight any specific item of propaganda which has not been officially released by the U. S. Government may stimulate listeners' curiosity to the point of eavesdropping directly on Berlin, Rome, or Tokyo.

## **One Final Word**

Clearance does *not* mean censorship.

The clearance of scripts is performed in the interest of accuracy, consistent war information policy, and to avoid common errors that often cause listener confusion.

In the case of private or commercial programs, not presented in cooperation with government agencies and not for overseas consumption, clearance is optional. (Scripts for overseas must be cleared by the Office of Censorship.) However, when using material that relates to governmental or military problems, realize the advisability of clearing the final script for accuracy of message, technical authenticity of the scene, and the safeguarding of vital information.

ALL programs sponsored by Government agencies—fully or in part—must be cleared with the Script Editor, Domestic Radio Bureau, Office of War Information, or any of its regional branches.

Clearance IS NOT—

- . . . . . censorship.
- . . . . . a means of holding up your script. A script can be cleared, in many cases, within a half hour. But give the clearance editor more time. He may have more scripts on his desk than just yours.

Clearance IS—

- . . . . . a way to make your scripts better.
- . . . . . a guarantee of accuracy and uniformity of information.

The Domestic Radio Bureau of the Office of War Information at Washington, or any of its regional offices throughout the country, will be **glad** to give you advice on all clearance matters.

# FOR VICTORY TODAY AND SOUND BUSINESS TOMORROW

## ***Get This Flag Flying Now!***

This War Savings Flag which flies today over companies, large and small, all across the land means *business*. It means, first, that 10% of the company's gross pay roll is being invested in War Bonds by the workers voluntarily.

It also means that the employees of all these companies are making a definite contribution to Victory . . . by helping to buy guns, tanks, and planes that America and her allies *must* have to win. And it means that billions of dollars will be held in readiness for post-war readjustment.

Think what 10% of the national income, saved in War Bonds now, month after month can buy when the war ends!

For Victory today . . . and prosperity *tomorrow*, keep the War Bond Pay-Roll Savings Plan rolling in *your* firm. Get that flag flying now! For full details, plus samples of result-getting literature and promotional helps, write or wire: War Savings Staff, Section F, Treasury Department, 709 Twelfth Street N.W., Washington, D. C.

# SHOWMAN'S CALENDAR

FOR 1943

## January

- 1: New Year's Day (In all the States, Territories, District of Columbia and possessions).  
Paul Revere Born (1735).  
Proclamation of Emancipation (1863).
- 2: Georgia Admitted (1788).
- 4: Utah Admitted (1896).
- 6: New Mexico Admitted (1912).
- 8: Anniversary of the Battle of New Orleans (Louisiana).
- 9: Connecticut Admitted (1788).
- 17: Benjamin Franklin Born (1706).
- 19: Robert E. Lee's Birthday (Alabama, Arkansas, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia).
- 21: Stonewall Jackson Born (1824).
- 29: McKinley Born (1843).  
Kansas Admitted (1861).
- 30: Franklin D. Roosevelt's Birthday.

## February

- 3: Horace Greeley Born (1811).
- 6: Massachusetts Admitted (1788).
- 7: Charles Dickens Born (1812).
- 9: Nebraska Admitted (1867).
- 11: Thomas A. Edison's Birthday.  
Daniel Boone Born (1734).
- 12: Lincoln's Birthday (Alaska, California, Connecticut, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Montana, Nevada, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, South Dakota, Tennessee, Utah, Virgin Islands, Washington, West Virginia, Wyoming).  
Georgia Day.
- 14: Valentine's Day.  
Admission Day (Arizona).  
Oregon Admitted (1859).
- 15: Destruction of the Maine (1898).
- 19: Ohio Admitted (1803).
- 22: Washington's Birthday (All the States, Territories, District of Columbia and Colonial Possessions).
- 27: Henry Wadsworth Longfellow's Birthday.  
First Railroad Charter (1827).

## March

- 1: Nebraska Admitted (1867).
- 2: Texas Independence Day.
- 3: Florida Admitted (1845).  
First Postage Stamp used in U. S. (1847).
- 4: Pennsylvania Day.  
Vermont Admitted (1791).
- 5: Boston Massacre (1770).

## April

- 7: Luther Burbank's Birthday (California).
  - 10: Ash Wednesday (First day of Lent).
  - 15: Maine Admitted (1820).
  - 17: St. Patrick's Day.
  - 21: First Day of Spring.
  - 22: Emancipation Day (Puerto Rico).
  - 25: Maryland Day.
  - 30: Seward Day (Alaska).
- 
- 1: All Fools' Day.
  - 6: War Declared with Germany (1917).
  - 7: Peary Discovered North Pole (1909).
  - 8: Battle of Appomattox (1865).  
Louisiana Admitted (1812).
  - 9: Surrender of General Lee (1865).
  - 12: Halifax Independence Resolution (North Carolina).
  - 13: Thomas Jefferson's Birthday (Alabama).
  - 14: Assassination of Abraham Lincoln.  
Pan-American Day.
  - 18: Palm Sunday.
  - 19: Patriot's Day (Maine, Massachusetts).
  - 21: Anniversary of Battle of San Jacinto (Texas).
  - 22: Morton's Birthday (Nebraska).  
Arbor Day (Nebraska).
  - 23: William Shakespeare Born (1564).  
Good Friday.
  - 24: First Newspaper Issued in America (1704).  
U. S.-Mexico War (1846).
  - 25: War Declared with Spain (1898).  
Easter Sunday.
  - 26: Confederate Memorial Day (Alabama, Florida, Georgia, Mississippi).  
Slavery Abolished in U. S. (1865).  
First Shot of War with Germany (1917).

  - 28: President Monroe Born (1758).  
Maryland Admitted (1788).
  - 30: Louisiana Purchased.  
Washington Became First President (1789).  
Rhode Island Settled (1636).

## May

- 1: May Day.
- Child Health Day.
- Labor Day (Philippines).
- Dewey's Victory in Manila (1898).
- 2: Stonewall Jackson Shot (1863).
- 5: Napoleon's Death (1821).
- 7: Lusitania Torpedoed (1915).
- 9: Mother's Day (2nd Sunday).
- 10: Confederate Memorial Day (Kentucky, North Carolina).

- 11: Minnesota Admitted (1858).  
 12: Florence Nightingale Born (1820).  
 20: Anniversary of the Signing of the Mecklenburg Declaration of Independence (North Carolina).  
 21: Lindbergh's Flight to Paris (1927).  
 23: South Carolina Admitted (1788).  
 24: First Telegraph Message Sent (1844). Empire Day (Canada).  
 29: Wisconsin Admitted (1848). Rhode Island Admitted (1790).  
 30: Memorial Day (In all the States, Territories, District of Columbia and Colonial Possessions, except Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, New Mexico, North Carolina, South Carolina, Virginia and Tennessee).

## June

- 1: Kentucky Admitted (1792). Tennessee Admitted (1796).  
 3: Confederate Memorial Day (Louisiana, Tennessee). King's Birthday (Canada). Jefferson Davis' Birthday (1808).  
 6: Nathan Hale's Birthday (1756).  
 8: Battle of New Orleans (1815).  
 10: Franklin Drew Lightning From Sky (1752).  
 14: Harriet Beecher Stowe's Birthday. Flag Day.  
 15: St. Swithin's Day. Arkansas Admitted (1836). Pioneer Day (Idaho).  
 17: Bunker Hill Day.  
 18: Battle of Waterloo (1815).  
 19: Beginning of War of 1812.  
 20: West Virginia Day.  
 21: Longest Day in Year.  
 23: Penn Signs Treaty of Peace with Indians.  
 25: Virginia Admitted (1788).  
 26: First American Troops Land in France (1917).

## July

- 1: Battle of San Juan Hill. Dominion Day (Canada). Battle of Gettysburg (1863).  
 2: Garfield's Assassination (1881).  
 3: Idaho Admitted (1890).  
 4: Independence Day.  
 10: Wyoming Admitted (1890).  
 11: John Quincy Adams Born (1767).  
 13: Forrest's Day (Tennessee).  
 24: Pioneer Day (Utah).  
 25: Occupation Day (Puerto Rico).

## August

- 1: Colorado Day. Beginning of World War (1914).  
 3: Civic Holiday (Canada).  
 10: Missouri Admitted (1821).  
 13: Occupation Day (Phillipines).  
 15: Panama Canal Opened (1914).  
 16: Bennington Battle Day (Vermont).  
 20: Benjamin Harrison Born (1833).

## September

- 6: Lafayette Day. President McKinley Assassinated (1901). First Battle of the Marne. Labor Day.  
 9: Admission Day (California). Defender's Day (Maryland). Jewish New Year.  
 17: Constitution Day.  
 21: Day of Atonement (Hebrew).  
 22: Nathan Hale Executed (1776). First Day of Autumn.  
 26: American Indian Day (4th Friday).

## October

- 1: Missouri Day. Wright Brothers Took First Long Distance Flight in Airplane (1905).  
 8: Chicago Fire (1871). Farmer's Day (2nd Friday) (Florida).  
 9: Fraternal Day (Alabama).  
 12: Columbus Day.  
 18: Alaska Day.  
 19: Surrender of Cornwallis (1781).  
 27: Navy Day.  
 31: Hallowe'en. Admission Day (Nevada).

## November

- 1: All Saints' Day (Louisiana).  
 2: General Election Day. North and South Dakota Admitted (1889).  
 4: John Philip Sousa Born (1854).  
 8: Montana Admitted (1889).  
 11: Armistice Day. Washington Admitted (1889).  
 16: Oklahoma Admitted (1907).  
 17: Suez Canal Opened (1869).  
 21: North Carolina Admitted (1789).  
 25: Thanksgiving Day.

## December

- 3: Illinois Admitted (1818).  
 7: Delaware Day. Pearl Harbor Attacked (1941).  
 8: Eli Whitney Born (1765). U. S. Declared War on Japan (1941).  
 9: Germany-Italy Declare War on U. S. (1941).  
 10: U. S. Declares War on Germany-Italy (1941). Mississippi Admitted (1817).  
 11: Alfred Nobel Born (1833). Indiana Admitted (1816).  
 12: First Marconi Wireless Across Atlantic (1901). Pennsylvania Admitted (1787).  
 14: Alabama Admitted (1819).  
 16: Boston Tea Party (1773).  
 18: New Jersey Admitted (1787).  
 21: Shortest Day of Year. Pilgrims Landed at Plymouth Rock (1620). Woodrow Wilson's Birthday (South Carolina).  
 25: Christmas Day.  
 28: Iowa Admitted (1848).  
 29: Texas Admitted (1845).  
 31: New Year's Eve.

ARBOR DAY is observed in states on different days, usually in the Spring. The dates in the same states often vary from year to year by proclamation.

---

# RULES AND REGULATIONS OF F. C. C. REGARDING PRODUCTION BY RADIO BROADCAST STATIONS

---

*As of January 1, 1943*

---

## GENERAL

Except Sundays, the licensee of each standard broadcast station shall maintain a minimum operating schedule of two-thirds of the total hours that it is authorized to operate between 6 a.m. and 6 p.m., local standard time, and two-thirds of the total hours it is authorized to operate between 6 p.m. and midnight, local standard time, except that in an emergency when, due to causes beyond the control of the licensee, it becomes impossible to continue operating the station may cease operation for a period of not to exceed 10 days, provided that the Commission and the inspector in charge shall be notified in writing immediately after the emergency develops.

The licensee of each standard broadcast station shall operate or refrain from operating its station during the experimental period as directed by the Commission in order to facilitate frequency measurement or for the determination of interference. (Stations involved in the after-midnight frequency monitoring programs are notified of their operating and silent schedule.)

If the license of a station specifies the hours of operation, the schedule so specified shall be adhered to except as otherwise prescribed in the rules herein stated.

## Share-Time Stations

If the licenses of stations authorized to share time do not specify hours of operation, the licensees shall endeavor to reach an agreement for a definite schedule of periods of time to be used by each. Such agreement shall be in writing and each licensee shall file the same in triplicate original with each application to the Commission for renewal of license. If and when such written agreements are properly filed in conformity with this rule the file mark of the Commission will be affixed thereto, 1 copy will be retained by the Commission, 1 copy forwarded to the inspector in charge, and 1 copy returned to the licensee to be posted with the station license and considered as a part thereof.

If the license specifies a proportionate time division, the agreement shall maintain this proportion. If no proportionate time division is specified in the license, the licensees shall agree upon a division of time. Such division of time shall not include simultaneous operation of the stations unless specifically authorized by the terms of the license.

For the purpose of determining the proportionate division of time of the broadcast day for sharing time stations one night hour shall be considered the equivalent of two day hours.

If the license of a station authorized to share time does not specify the hours of operation, the station may be operated for the transmission of regular programs during the experimental period provided an agreement thereto is reached with the other stations with which the broadcast day is shared and further provided such operation is not in conflict with the rule of operation during experimental periods herein stated. Time sharing agreements for operation during the experimental period need not be submitted to the Commission.

Departure from the regular operating schedule set forth in a time-sharing agreement will be permitted only in cases where an agreement to that effect is reduced to writing, is signed by the licensees of the stations affected thereby and filed in triplicate by each licensee with the Commission prior to the time of the proposed change. If time is of the essence, the actual departure in operating schedule may precede the actual filing of written agreement, provided appropriate notice is sent to the Commission and the inspector in charge.

If the licensees of stations authorized to share time are unable to agree on a division of time, the Commission shall be so notified by statement to that effect filed with application for renewal of licenses. Upon receipt of such statement the Commission will designate the applications for a hearing, and pending such hearing, the operating schedule previously adhered to shall remain in full force and effect.

## Limited Time Stations

If the licensee of a broadcast station is required to commence or cease operation of the station at the time of sunrise or sunset, the license will specify the hour of the day during each month of the license period when operation of such station will commence or cease.

The licensee of a secondary station authorized to operate limited time and which may resume operation at the time the dominant station or stations on the same channel ceases operation shall, with each application for renewal of license, file in triplicate a copy of its regular operating schedule, bearing a signed notation by the licensee of the dominant station of its objection or lack of objection thereto. Upon approval of such operating schedule, the Commission will affix its file mark and return 1 copy to the licensee authorized to operate limited time which shall be posted with the station license and considered as a part thereof. Departure from said operating schedule will be permitted only in accordance with the procedure set forth in these rules.

If the licensee of a secondary station authorized to operate limited time and a dominant station on a channel are unable to agree upon a definite time for resumption of operation by the station authorized limited time, the Commission shall be so notified by the licensee of the station authorized limited time. After receipt of such statement the Commission will designate for hearing the applications of both stations for renewal of license, and pending the hearing the schedule previously adhered to shall remain in full force and effect.

## Material Term of License Violations

In all cases where a station licensee is required to prepare and file an operating schedule, any deviation or departure from such schedule, except as herein authorized, shall be considered as a violation of a material term of the license.

All references herein to standard time or local standard time refer to local standard time as determined and fixed by the Interstate Commerce Commission.

## Time Changes

If local time is changed from standard time to daylight-saving time at the location of all stations sharing time on the same channel, the hours of operation of all such stations on that channel shall be understood to refer to daylight-saving time, and not standard time, as long as daylight-saving time is observed at such locations. This provision shall govern when the time is changed by provision of law or general observance of daylight-saving time by the various com-

munities, and when the time of operation of such stations is specified in the license or is mutually agreed upon by the licensees: *Provided, however, That* when the license specifies average time of sunrise and sunset, local standard time shall be observed. In no event shall a station licensed for daytime only operate on regular schedule prior to local sunrise, or shall a station licensed for greater daytime power than nighttime power or for a different radiation pattern for daytime operation than for nighttime operation operate with the daytime power or radiation pattern prior to local sunrise.

Where the local time is not changed from standard time to daylight-saving time at the location of all stations sharing time on the same channel, the hours of operation of such stations shall be understood to have reference to standard time, and not daylight-saving time, unless said licensees mutually agree upon a new schedule which shall be effective only while daylight-saving time is observed at the location of some of these stations.

The time of operation of any broadcast station which does not share time with other stations on the same channel shall be understood to have reference to local standard time unless modification of such license with respect to hours of operation is authorized by the Commission.

The provisions of the rules defining various types of stations and time periods shall not prevent the transmission of programs between four o'clock a.m., local standard time, and local sunrise, of standard broadcast stations with their authorized daytime facilities, *Provided:* That the provisions of this rule shall not extend to:

(1) Stations regularly sharing time during daytime hours either under licenses pursuant to which time-sharing agreements have been entered into or licenses specifying hours of operation, unless time-sharing agreements have been reached covering such operation prior to local sunrise. Sections of these rules regarding sharing time shall be applicable to such agreements.

(2) Any class II stations causing interference by use of its daytime facilities within the 0.5 mv/m 50% sky wave contour of any class I station either of the United States or of any country party to the North American Regional Broadcasting Agreement, except (a) where the Class I station is located east of the Class II station in which case operation may begin at local sunrise at the class I station; (b) where an agreement has been reached with the class I

station to begin operation prior to local sunrise.

(3) Operation by use of its daytime facilities of any class II station on any class I-A channel not assigned to the United States under the North American Regional Broadcasting Agreement.

Any station operating during such hours receiving notice from the Commission that undue interference is caused shall refrain from such operation during such hours pending further notice from the Commission.

Nothing contained in outstanding instruments of authorization for such stations shall prohibit such operation except as herein provided.

The period 4:00 a.m. to 6:00 a.m., local standard time, shall not be included in determining compliance with section of these rules on minimum operating schedule.

### **General Rules Applicable to Standard and High Frequency Broadcast Stations**

The station license and any other instrument of authorization or individual order concerning construction of the equipment or the manner of operation of the station shall be posted in a conspicuous place in the room in which the transmitter is located in such manner that all terms thereof are visible and the license of the station operator shall be posted in the same manner.

The licensee of each station shall have a licensed operator or operators of the grade specified by the Commission on duty during all periods of actual operation of the transmitter at the place where the transmitting equipment is located.

The licensed operator on duty and in charge of a standard or high frequency broadcast transmitter may, at the discretion of the licensee, be employed for other duties or for the operation of another radio station or stations in accordance with the class of operator's license which he holds and by the rules and regulations governing such other stations: Provided, However, That such duties shall in no wise interfere with the proper operation of the standard broadcast transmitter.

### **Logs**

The licensee of each broadcast station shall maintain program and operating logs and shall require entries to be made as follows:

#### **A. In the Program Log**

a. An entry of the time each station identification announcement (call letters and location) is made.

b. An entry briefly describing each

program broadcast, such as "music," "drama," "speech," etc., together with the name or title thereof, and the sponsor's name, with the time of the beginning and ending of the complete program. If a mechanical record is used, the entry shall show the exact nature thereof such as "record," "transcription," etc., and the time it is announced as a mechanical record. If a speech is made by a political candidate, the name and political affiliations of such speaker shall be entered.

c. An entry showing that each sponsored program broadcast has been announced as sponsored, paid for, or furnished by the sponsor.

### **B. In the Operating Log**

a. An entry of the time the station begins to supply power to the antenna, and the time it stops.

b. An entry of the time the program begins and ends.

c. An entry of each interruption to the carrier wave, its cause and duration.

d. An entry of the following each 30 minutes:

- (1) Operating constants of last radio stage (total plate current and plate voltage).
- (2) Antenna current.
- (3) Frequency monitor reading.
- (4) Temperature of crystal control chamber if thermometer is used.

e. Log of experimental operation during experimental period (If regular operation is maintained during this period, the above logs shall be kept).

- (1) A log must be kept of all operation during the experimental period. If the entries required above are not applicable thereto, then the entries shall be made so as to fully describe the operation.

Logs of standard or high frequency broadcast stations shall be retained by the licensee for a period of two years except when required to be retained for a longer period in accordance with the provisions of the rules pertaining to logs involving communications incident to a disaster or incidents to or involved in an investigation by the Commission or concerning which the licensee has been notified, in which case they shall be retained by the licensee until specifically authorized in writing by the Commission to destroy them; Provided, further, That logs incident to or involved in any claim or complaint of which the licensee has notice, shall be retained by the licensee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

## **Station Identification**

A licensee of a standard or high frequency broadcast station shall make station identification announcement (call letters and location) at the beginning and ending of each time of operation and during operation on the hour and either on the half hour or quarter hour following the hour and at the quarter hour preceding the next hour: *Provided*

Such identification announcement during operation need not be made on the hour when to make such announcement would interrupt a single consecutive speech, play, religious service, symphony concert or operatic production of longer duration than thirty minutes. In such cases the identification announcement shall be made at the beginning of the program, at the first interruption of the entertainment continuity and at the conclusion of such program.

Such identification announcement need not be made on the half hour or quarter hours when to make such announcement would interrupt a single consecutive speech, play, religious service, symphony concert, or operatic production. In such cases an identification announcement shall be made at the first interruption of the entertainment continuity, and at the conclusion of the program, *Provided*, That an announcement within 5 minutes of the half hour or at the quarter hour following the hour or at the quarter hour preceding the next hour, will satisfy the requirements of identification announcements.

In case of variety show programs, baseball game broadcasts, or similar programs, of longer duration than thirty minutes, the identification announcement shall be made within five minutes of the hour and of the half hour or at the quarter hour following the hour or at the quarter hour preceding the next hour.

In case of all other programs the identification announcement shall be made within two minutes of the hour and on the half hour and at the quarter hour following the hour and at the quarter hour preceding the next hour.

In making the identification announcement, the call letters shall be given only on the channel of the station identified thereby.

## **Mechanical Reproduction**

Each broadcast program consisting of a mechanical record, or a series of mechanical records, shall be announced in the manner and to the extent set out below:

1. A mechanical record, or a series thereof, of longer duration than thirty minutes, shall be identified by appropriate announcement at the beginning of the program, at each

thirty minute interval, and at the conclusion of the program; provided, however, that the identifying announcement at each thirty minute interval is not required in case of a mechanical record consisting of a single, continuous, uninterrupted speech, play, religious service, symphony, concert or operatic production of longer duration than thirty minutes;

2. A mechanical record, or a series thereof, of a longer duration than five minutes and not in excess of thirty minutes, shall be identified by an appropriate announcement at the beginning and end of the program;
3. A single mechanical record of a duration not in excess of five minutes, shall be identified by appropriate announcement immediately preceding the use thereof;
4. In case a mechanical record is used for background music, sound effects, station identification, program identification (theme music of short duration) or identification of the sponsorship of the program proper, no announcement of the mechanical record is required.
5. The identifying announcement shall accurately describe the type of mechanical record used, i.e., where an electrical transcription is used it shall be announced as a "transcription" or an "electrical transcription" or as "transcribed" or "electrically transcribed" and where a phonograph is used it shall be announced as a "record."

## **Rebroadcast Programs**

(a) The term "rebroadcast" means reception by radio of the program of a radio station, and the simultaneous or subsequent retransmission of such program by a broadcast station. (In case a program is transmitted from its point of origin to a broadcast station entirely by telephone facilities in which a section of such transmission is by radio, the broadcasting of this program is not considered a rebroadcast.)

(b) The licensee of a standard or high frequency broadcast station may, without further authority from the Commission, rebroadcast the program of a United States standard or high frequency broadcast station, provided the Commission is notified of the call letters of each station rebroadcast and the licensee certifies that express authority has been received from the licensee of the station originating the program. (The notice and certification of consent shall be given within three (3) days of any single rebroadcast, but in case of the regular practice of rebroadcasting

certain programs of a standard or high frequency broadcast station several times during a license period, notice and certification of consent shall be given for the ensuing license period with the application for renewal of license, or at the beginning of such rebroadcast practice if begun during a license period).

(c) The licensee of a standard or high frequency broadcast station located within a state or the District of Columbia may, without further authority of the Commission, rebroadcast on a non-commercial basis a non-commercial program of a United States international broadcast station.

The licensee of a standard or high frequency broadcast station located in any territory or insular possession of the United States may, without further authority of the Commission, rebroadcast any program of a United States international broadcast station.

In the case of any rebroadcast under these provisions, the Commission shall be notified of the call letters of each station whose programs are rebroadcast and the licensee shall certify that express authority has been received from the licensee of the station originating the program.

(d) No licensee of a standard or high frequency broadcast station shall rebroadcast the program of any other class of United States radio station without written authority having first been obtained from the Commission upon application accompanied by written consent or certification of consent of the licensee of the station originating the program. (The broadcasting of a program relayed by a relay broadcast station is not considered a rebroadcast.)

(e) In case of a program rebroadcast by several standard broadcast stations such as a chain rebroadcast, the person legally responsible for distributing the program or the network facilities may obtain the necessary authorization for the entire rebroadcast both from the Commission and from the person or licensee of station originating program.

Attention is directed to Section 325 (b) of the Communications Act of 1934, which reads as follows:

"No person shall be permitted to locate, use or maintain a radio broadcast studio or other place or apparatus from which or whereby sound waves are converted into electrical energy, or mechanical or physical reproduction of sound waves produced, and caused to be transmitted or delivered to a radio station in a foreign country for the purpose of being broadcast from any radio station there having a power output of sufficient intensity and/or being so located geo-

graphically that its emissions may be received consistently in the United States, without first obtaining a permit from the Commission upon proper application thereof."

### Political Broadcasting

No station licensee is required to permit the use of its facilities by any legally qualified candidate for public office, but if any licensee shall permit any such candidate to use its facilities, it shall afford equal opportunities to all other such candidates for that office to use such facilities, provided that such licensee shall have no power of censorship over the material broadcast by any such candidate. The following definitions shall apply for the purpose of this rule: a. 'A legally qualified candidate' means any person who has publicly announced that he is a candidate for nomination by a convention of a political party or for nomination or election in a primary, special or general election, municipal, county, state or national, and who meets the qualifications prescribed by the applicable laws to hold the office for which he is a candidate, so that he may be voted for by the electorate directly or by means of delegates or electors, and who has qualified for place in the ballot or is eligible under the applicable law to be voted for by sticker, by writing in his name on the ballot, or other method, and has been duly nominated by a political party which is commonly known and regarded as such, or makes a substantial showing that he is a bona fide candidate for nomination or office, as the case may be.

The rates, if any, charged all such candidates for the same office, shall be uniform and shall not be rebated by any means, directly or indirectly; no licensee shall make any discriminations in charges, practices, regulations, facilities or services for or in connection with service rendered pursuant to these rules, or make or give any preference to any candidate for public office or subject any such candidate to any prejudice or disadvantage; nor shall any licensee make any contract or other agreement which shall have the effect of permitting any legally qualified candidate for any public office to broadcast to the exclusion of other legally qualified candidates for the same public office.

Every licensee shall keep and permit public inspection of a complete record of all requests for broadcast time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the licensee of such requests and the charges made, if any, if request is granted.
