## LINER GETS TELEVISION NEWS

Transmission by the photoradio process of pictures, stock market reports, bulletins and other facsimile material from shore to the United States liner "America" while on the high seas, was accomplished this month by the Radio Corporation of America.

According to the RCA announcement, the receiving set, installed in the smoking room of the ocean liner, is the visible recording apparatus of the latest invention, combining the results of experiments of the General Electric Co. and the Westinghouse Electric & Manufacturing Co., as well as those of the RCA.

It likewise carries forward the very recent successful test of a visible recorder designed by Charles J. Young, head of the General Electric and now of the RCA-Victor Co., by which copies of the front page of a newspaper were transmitted from Oakland, Calif., to New Haven, Conn., N. Y.

## THE CENSORSHIP COMMISSION CAN'T CENSOR?

Despite the avowed contention of the Federal Radio Commission and national legislators that the former has no censorship power over radio programs under the Act of 1927, the Commission has put the second station off the air within a fortnight because of the character of its programs.

Station KFBK, of Milford, Kans., was denied a renewal of its license following a hearing on the ground that Dr.

Brinkley had conducted a medication box over it and had solicited patients for goat gland operations. Prescriptions which the physician gave over the air, it was charged, could be filled only at one of the chain of drug stores with which Dr. Brinkley was associated.

The American Medical Association

was one of the chief complainants against the station.

Two Commissioners, Judge Ira E. Robinson and Judge E. O. Sykes, voted against the removal of the station and suggested putting it on probation with the medical programs eliminated.

An appeal was immediately filed by George Strong, counsel of KFKB, in the Court of Appeals of the District of Columbia.

Only a short while before the Commission put station KVEP, of Portland, Ore., off the air because of obscene language used by one of the broadcasters.

## U. S. FIRM TO OPERATE RADIO IN GREECE

Because of the world-wide repute of the American broadcasting systems, Greece has granted to an American concern, with offices in Philadelphia, a concession to erect, equip, and operate all radio broadcasting stations in that country for 20 years.

The first station to be built, according to information reaching the Department of Commerce, will operate on 25,000 watts power and will be one of the most modern in Europe and the Near East. It is expected that its programs will reach every principal city in Greece, and in favorable weather will be heard throughout Europe.

An entire American personnel will operate the station for a period of two years, after which Greece will put it in charge of an American supervisor. The expenses of the system will be defrayed by an annual subscription tax levied on receiving sets, which will vary according to whether the set is operated in a private residence, a store, or a place of amusement.

So far as Department of Commerce records show, this is the first instance of an American organization being called on to install and operate an entire broadcasting system in another country.

# The Pilot Radio Dealer Is Different

He is the direct representative of the Pilot Radio & Tube Corporation. Unlike other radio manufacturers, Pilot does not sell through middlemen. Each Pilot dealer has been carefully chosen. He must be able to maintain the reputation of Pilot products through intelligent service. He knows how the Pilot laboratory staff of engineers carefully guides Pilotron Radio Tubes through all stages of production. He knows why Pilotron Radio Tubes assure you a better and a more dependable service. He realizes that each and every Pilot radio part, be it kit, set or tube, must live up to Pilot's reputation for superiority, and must in turn protect the reputation of all other Pilot products.

*Your Pilot radio dealer has behind him the cooperation of the entire Pilot Radio Engineering Staff. You will find his advice most valuable.*

# STUDIO NEWS

Eddie Armstrong, KFI's tenor ballad singer, appears on the cover this week. For those whose ears are weary of the jazz assaults which greet us too frequently over the air, Mr. Armstrong's style of singing and choice of songs will be indeed a balm. The schedule for KFI is Wednesday, at 3:45, and Saturday night, at 9:00. KECA presents Mr. Armstrong on Thursday evenings, at 9:30, and Saturday at 8:30 p. m.

"Unt comes it now! Professor Herman Schnitzel of the University of Cincinnati, O-Ho-Ho"! None other than the famous broadcaster of German dialect is to appear before the microphone of KNX every Sunday, from 7 to 7:08 p. m. Professor Schnitzel will be remembered for his inimitable programs over the National Broadcasting Company System.

Roy Ringwald, director of KHJ Ensemble, brilliant arranger, composer and musician, is leaving KHJ on July 10th, to become a member of the Biltmore Trio, that famous feature of Earl Burtnett's Los Angeles Hotel Biltmore Orchestra. Mr. Ringwald comes from Santa Monica and, in spite of an imposing list of accomplishments, is only twenty years of age.

On July 4th, KMTR offers "The Writing of the Star Spangled Banner" with the KMTR Orchestra, under the direction of Ray Bailey. The program will be heard at 8 p. m. This musical continuity as prepared by Harry Geise, program director of the station, tells in dramatic form how our national anthem, "The Star Spangler Banner" was taken from an old English drinking song, "To Anacreon in Heaven," and the lyrics, inspired by Francis Scott Key, while he was on board the flag of truce boat during the war of Independence. This program will be released also over KMIC, Inglewood, at the same time.

With the idea of serving the people of the San Joaquin Valley during the day, as well as the night, station KWG, Stockton, will be joined to the Don Lee chain of stations on June 30. KWG has recently been purchased by the James McClatchy Publishing Company, which owns stations in Fresno and Sacramento, already members of the same Don Lee Columbia network. This gives Don Lee a total of nine transmitters, the largest and most complete system on the Pacific Coast. They are: KFRC, San Francisco; KHJ, Los Angeles; KMJ, Fresno; KFBK, Sacramento; KWG, Stockton; KOIN, Portland; KVI, Tacoma; KOL, Seattle, and KFPY, Spokane. The official welcome to the new station will be given on the Blue Monday Jamboree of June 30.

Five spots on the dial, in Southern California, on July 1st, from 10 to 11 p. m., will bring the outstanding program of the day, the musical extravaganza, which emanates from the studio of KMTR. With Edmund Lowe, noted stage and screen star as master of ceremonies, over the five-station hookup, will be heard the famous Saxophone Bands of vaudeville fame, many screen celebrities and a special musical program featuring the augmented KMTR Studio Orchestra, the Dare Sisters, Roy Rockwood, baritone; Billy Markowitz and his Sizzling fiddle; Preston Lodwick, renowned xylophone soloist, and other outstanding features to be announced. This gala event is given as a tribute to the sixth annual Relief Association Benefit of the Pasadena Fire Department, which will be given July 4th, in the Rose Bowl. The broadcast will be heard from 10 to 11 p. m., July 1st, from KMIC, KTM, KGFJ, KFVD and KMTR.

KTBI announces the addition of Mr. Christian M. Books to the staff. Mr. Books will act in the capacity of Program Director and Announcer.

# Questions & Answers

*A Weekly Department Conducted by K.G. Ormiston, I.R.E.*

**QUESTION.**—With the disgusting amount of advertising injected into practically every radio program, and the over-abundance of trashy stations that clutter up the dial so that it is practically impossible to get out-of-town reception, one realizes the mess into which radio has drifted in this country through the lack of government ownership or control. Great Britain has the ideal system, and I, for one, deplore the fact that our government lacked the vision to place radio upon a similar basis in its inception.—W. W., Riverside, Calif.

**ANSWER.**—The above extract from a letter constitutes a comment rather than a question, but we find on our desk at the same time the following statement by Mr. E. B. Newill, vice-president and chief engineer of the General Motors Radio Corporation, relative to the situation in England. It so adequately answers our correspondent's argument that we decided to print it as a reply in this department.

"How would you radio fans like to pay a tax on your receiving sets and then have the choice of only about three programs, all of which have been prepared largely with the idea of what you ought to listen to? You probably would not.

"Then be glad you're in the Good Old U. S. A. when you tune in tonight and get just what you want. For over in Great Britain there are only three programs in the English tongue—and the set owner must pay an annual tax of \$2.43 to listen in on these.

"Radio over there is a government affair, with a balanced program throughout the day ranging from a non-sectarian religious service for the shut-ins through to a dance music program during the dinner hour and scattered periodic talks on home subjects and lessons in French and Italian, or some other such subject. So it is a case of take what is offered rather than tune in on what you want.

"The average American receiver can pick up locally some three chain programs and from two to ten local inde-

pendent broadcasts. The British set owner has the choice of three programs — one from the local transmitter — of which there are 19, a second from Daventry-5XX, sixty miles from London, which transmits at high power the same program as London 2LO and is designed to reach sections remote from the low power local stations, and a third from Daventry - 5GB - Experimental, which broadcasts a program originated mostly in the London studios and is an alternative for those who do not care to listen to the regular London program.

"One thing more—over there announcers remain anonymous."

## Synchronization Experiment Fairly Successful

For some time prior to June 6th, stations WHO, Des Moines, and WOC, Davenport, both in Iowa, conducted tests in simultaneous operation on the same channel (1000 kilocycles) after midnight. These tests proved so satisfactory that permission was requested from the Federal Radio Commission to operate permanently on the synchronized basis. Permit was issued June 6th, and since that time these two stations have operated simultaneously on the same frequency. This experiment is very interesting for the reason that there is no land wire between the two stations by means of which synchronization is usually accomplished.

WHO and WOC are each of 5000 watts power and are separated by 190 miles. Special equipment, designed and built by the Bell Laboratories, is employed, together with matched crystals. At Marengo, a point midway between the two stations, there is a monitoring station which receives the carriers and programs from both WHO and WOC simultaneously, and the output is carried back to Davenport by land wire. The Davenport operator thus is able to check on the synchronization and make the necessary minor

10:00 p. m.—Mariners Dance Orchestra.

## WOC-WHO Experiment

(Continued from Page 13)

adjustments to keep the two carriers in perfect step. The controls at Des Moines are fixed.

Over an area midway between the two stations, there is some interference. It is claimed that Iowa is better served by this simultaneous operation of the two stations. However, it is pointed out that since the two stations are but 190 miles apart, that a single high-powered station could adequately serve the territory now covered by the two stations, and eliminate the high cost of the half-way monitoring station and telephone lines to one of the stations.

The Westinghouse Company abandoned their simultaneous and synchronous operation of WBZ and WBZA, at Springfield and Boston, respectively, for the reason that the maintenance expense was too great. Instead, they now are consolidating WBZ and WBZA and will operate one station with 15,000 watts power. These two stations have been synchronized by wire, and served to overcome "dead spots" in the Boston area where the Springfield station was but poorly heard.

The essential features of these programs are identical with those sent us by the stations

9:00 p. m.—University of Southern California.  
9:30 p. m.—John TeGroen, Trio.

Fifteen thousand persons gathered at the airport of the Aero Corporation on south Western Avenue last Sunday afternoon to witness the return of "Mr. Tall Feller," "Zeke," Zeke's cousin, and Zeke's little pig, "Estate." Direct from the Ozark Mountains in Arkansas, the big green and gold tri-motored Fokker of the Macmillan Petroleum Corporation, brought the Beverly Hill Billies together again. They appear nightly

except Monday, over KMPC, from 10 to 11 o'clock.

Radio lectures by college professors from all parts of the country who have come to the campus of the University of Southern California as visiting instructors in the 1930 summer session, are announced by the radio education division of S. C. for the July broadcasts over KMPC.

 8:30 p. m.—Melody Quintet; Carl Tobin, tenor; Jane Sargent Sands, pianist.  
 9:30 p. m.—Orchestra with Cotton Bond, Alice Blue.

### TELEVISION NOT HERE YET

While gratified at the recent developments in television experiments, Radio Commissioner Harold A. Lafount believes that the visual broadcasting art has not yet "arrived."

After citing the recent successful demonstration of virtual life-size television in the General Electric laboratories at Schenectady, N. Y., the Commissioner added: "Television is still in the experimental stage, however. Engineers themselves who are working within the laboratories in their endeavor to hasten the arrival of the visual art will not predict, even approximately, whether it will be months or years before it can be afforded the public."

The Federal Radio Commission, he declared, is doing its utmost to foster television development from the regulatory side. There are inherent difficulties in television by radio, he said, primarily because the art requires channels above 10 times the width of the channels employed for regular voice broadcasting.

**DAILY EXCEPT SUNDAY**

6:30 a. m.—Studio program, Frank Wright.

Melodious Italian melodies, seldom heard on the air will be played by Zac Kalbach's Goldoliers Orchestra for KJR and Northwest Broadcasting System artists Saturday evening from 9 to 10 o'clock. The program will bring listeners melodies dearest to the hearts of the Italians, the selections being gleaned from songs popular in the country and in the village streets of Italy.

- 12:00 midnight.—R.K.O. Midnight Vaudeville Frolic.

**“OREGON WILDCAT” IS ARRESTED**

Robert Gordon Duncan, self-styled "Oregon Wildcat," whose harangues over the air were responsible for the recent cancellation of the license of station KVEP, Portland, Oregon, has been arrested for violation of the Federal Radio Law which forbids the broadcasting of "obscene, indecent or profane language." The Radio Commission will probably take part in the prosecution when the trial is set.

Simultaneous with the opening of the new towers and dedication of the screen-grid transmitter of KYA now being installed in the Whitcomb Hotel, KYA will throw open newly decorated studios in the Loews Warfield Building with improved system of lighting and ventilation. The studios, accordings, to announced plans, will be among the most beautiful and efficient on the Pacific coast.

The essential features of these programs are identical with those sent us by the stations

## WANTS RADIO IN EVERY FARM HOME

A radio in every country home is the wish of the Virginia Commissioner of Agriculture, George W. Koiner, as expressed in the following statement recently issued:

"It is stated that 35 per cent of the farmers have radios," Mr. Koiner said. "In some sections there are more than in others. The radio is a great boon to the isolated country home. The best music in the great cities may be brought to the home which could never be heard otherwise. Also the important market news and the interesting sporting news for both the old and the young. We wish there could be a radio in every country home."

 8:30 p. m.—Preview of Sunday School Lesson.  
 9:00-11:00 p. m.—NBC.\*

## Trade Meetings Discontinued Until September

The Radio and Music Trades Association of Southern California will not meet during July and August for their regular first Thursday of the month meeting at the Breakfast Club. According to Mr. Al Farquharson, Secretary of the Association, a tentative date has been set for August 30th, the first day of the Radio Show, and the meeting place will probably be in the Coconut Grove at the Ambassador Hotel, Los Angeles.

After carefully inspecting the new Philco models, which are now being shown at the H. R. Curtiss Company's display room, 1145 Wall Street, radio dealers enthusiastically agree Philco radio values are higher than ever before. Prices are lower too, they note, and many brand new features provide an entirely new thrill in radio performance.

The four new Philco models offer a complete price range and include Console, \$119.50; Lowboy, \$139.50; Highboy, \$179.50; Radio-Phonograph, \$239.50. As the models advance in price, new mechanical features and increased cabinet beauty are found.

The "hams" continue to gather around the windows of Radio Manufacturers' Supply Company, 1000 South Broadway, like bees to a honey pot. This concern is featuring equipment for the amateurs, and has arranged an exhibit in one of the Broadway windows, which includes hundreds of "QSL" cards, which the hams use to acknowledge hearing others' signals. All amateurs are invited to bring in their cards for display purposes. Same will be returned in good condition. There seems to be a great spurt of amateur interest and enthusiasm at present, much new blood entering the field, and finding the

fascination of this instructive and pleasurable hobby. Nightly these amateurs communicate with each other, either by Morse code or voice, over great distances. The thrill afforded them by their activities is unequalled in any other branch of radio.

The Western Music and Radio Trades Association Convention, to be held at the St. Francis Hotel, in San Francisco, from June 30th to July 3rd, inclusive, promises to be one of the greatest radio conventions ever held in the West. With the convention will be combined the First Annual Pacific Radio Trade Show, held in the new William Taylor Hotel.

Monday, June 30th, will be strictly for business, displays and inspection of the new models. Tuesday will be Music Day, with a full morning and afternoon of musical presentations and committee meetings. At 6:30 p. m., a banquet will take place in the Colonial Ballroom of the St. Francis, and from 8 o'clock to 12. the guests will dance. At midnight Philco will put on a midnight frolic at the Paramount Theater.

Wednesday, July 2nd, will be designated as Radio Day, with another full day of musical presentations, committee meetings, luncheon in the Colonial Ballroom at the St. Francis, and a banquet at 6:30. A dance will again take place from 8 to 12.

Thursday, July 3rd, the Golf Tournament will be held at the California Golf Club, and after the game, the golfers and their guests will be entertained at a stag dinner.

Great plans have been made to entertain the lady guests, and there will be automobile trips, luncheons and theater parties during the entire time of the convention.

From the rumors floating around, it looks as though at least half of the radio and music men in Southern California will be in attendance at the convention, which will help to make the 1930 Trade Show a real success.

## TIMELY TRADE TOPICS

On Tuesday evening, June 24th, a dealers' preview of the new Edison radio receivers was held at the show-rooms of Fey & Krause, Inc., 1616 So. Figueroa St., Los Angeles. The new Edison receivers, featuring the Light-O-Matic tuning principle were attractively displayed, and an enthusiastic reception was accorded them by a large number of dealers. Mr. H. D. Alshuler, manager of the radio division of the new concern, was kept busy renewing old franchises and signing up new dealers, who are determined to do a real job with Edison Radio this year. Fey & Krause, Inc., are the exclusive Edison distributors for Southern California and Arizona-

The announcement of the new line-up of radio receivers by the Crosley Radio Corporation has made everyone very happy in the Kierulff & Ravenscourt organization, the California distributors for this popular line of receivers.

Mr. Kierulff said, "Crosley has brought out some great radio sets in the past, but this year he has produced the best radios for the value that have ever been offered to the public. We expect to do more business in the last five months of 1930 than we have ever done before."

Mr. H. E. Howard of the Waltham Radio Corporation, Ltd., manufacturers of the popular Waltham midget receivers, stated that they have appointed three new distributors on the Coast.

The Domestic Appliance Company, 1610 8th Avenue, Seattle, Washington, the Billings Radio Manufacturing Company, North and Elm Avenues, Fresno, California, and Edwin W. Earle, 662 Alma Avenue, Oakland, California, will, from now on, act as jobbers in their districts.

The Plymouth midget set has been very popular with the trade and public and, consequently, the Plymouth Radio Corporation of Los Angeles, California, the manufacturers of this popular line, have had to constantly increase production.

Many distributors have been appoint-

ed throughout the Middle West and South, and this last week Mr. Mart Borden, manager of the company, received an order from a new distributor in Alabama, which will necessitate another increase in production.

The midget radio was designed and first built in Los Angeles, but it looks as though other parts of the country will purchase more of this type of set this year than the West.

"The trade instantly saw the value of the new Royale 'Companion', and are placing large orders for this new model," said Mr. C. W. Smith, of the Griffin-Smith Manufacturing Company, Los Angeles, California.

The Royale "Companion" is a combination electric phonograph and radio set, built into a very attractive walnut end-table. The end-table is 27 inches high, and is so constructed that it will fit along the side of an easy chair in a manner that all controls for both radio and phonograph are within reach, which makes it possible for one to operate it without getting out of their chair.

"Our dealers are so enthusiastic about the new Apex line and have placed such large orders for the new sets that it looks as though this will be a real Apex year in Southern California," said Mr. R. B. Yale of the Yale Radio Electric Company, Los Angeles, California, distributors in Southern California and Arizona for Apex receivers.

Screen-grid tubes, dynamic speaker, beautiful cabinets and extremely low list prices make the Apex line a very attractive one this year.

When Listenwalter & Gough take on a line of merchandise they have always done a real job, and they are certainly living up to their reputation in the distribution of Angelus midget receivers in the state of California.

According to Mr. Haynes, Listenwalter & Gough, through their dealers, have been selling so many Angelus sets that they (Davison & Haynes Manufacturing Company), have had to work two shifts in order to keep up with the demand.
