signed CAMPUS—in Ivory, Walnut and
colors. AC-DC.

AT SCHOOL

4-station Automatic Tuning. In Ivory,
Walnut and College colors. With Letters
for College, Club or Personal initials.

ASK TO SEE THE
DIONNE QUINTUPLET RADIOS

Short wave stations heard most satisfactorily by listeners in North America are listed below. Each symbol represents one-half hour; pointed UP for mornings; DOWN, noon to midnight. If yours is Eastern Standard or Central Daylight Time, rule out the 1st, 3rd, 4th and 5th rows of figures and copy 2nd row of numbers on the other pages. You can quickly see which stations are operating at the time you tune and often identify those heard by chance. Most of the North American Stations operate continuously and are listed at the right without Time reference. Spots for Amateurs, Ships and Aircraft are designated by an "A", "S" or "C" at the left, between megacycle numbers.

Magic Keyboard
Tuning!

•
8-Tube
Performance!

•
Full 12-Inch
Speaker!

•
Plays and Changes
12 Records Auto-
matically

★ If you want to enjoy the world's best entertainment at its best — and then enjoy the best of it over and over — here is the instrument for you!

With this new Stewart-Warner you command world-wide reception — or enjoy your regular favorites day after day

without touching a dial — or hear a full hour of recorded music, with records changed for you automatically.

The radio is a powerful superheterodyne, with Stewart-Warner's famous Magic Keyboard automatic tuning, 9-position tone control, volume control and switch outside the cabinet, and 3-wave-band Magic Dial under the counter-balanced top. Takes either 10 or 12 inch records, has built-in record well. Stop in today and hear this and the other console and table radio-phonograph models, as well as a complete line of Stewart-Warner Radios with connections for record players.
