Squares represent 325 miles across and 200 miles up and down from your own city, then it will be easy to estimate

This map is divided into 100 squares numbered in the first column from 1 to 10, the next 11 to 20 and so on.

To locate a station on the map, find the number in the first column that contains the number of the Broadcasting Station is located.

down. Mark in pencil or ink the approximate location of the distance to the station you are hearing.

left hand upper corner. The first row is numbered

column headed "Map Location" on pages 2 to 24 and in that square you will find the city where the
