Andreas Scheurer, Paul Mosset and Rolf W. Saalfrank, Efficient synthesis of (2*R*,3*R*)- and (2*S*,3*S*)-2,3-diaminobutane-1,4-diol and their dibenzyl ethers, *Tetrahedron: Asymmetry*, **1997**, *8*, 1243–1251, PII: S0957-4166(97)00086-4.

The indicated absolute configurations of compounds **4–8**, **10** and **11** are erroneous: (2*R*,3*R*) should be read as (2*S*,3*S*) and vice versa[1].
