Corrigendum

Corrigendum to “Asymmetric reduction using (*R*)-MeCBS and determination of absolute configuration of *para*-substituted 2-fluoroarylethanol” [Tetrahedron: Asymmetry 2008, 19, 1941–1946]

The authors wish to correct an error which occurred in the above published paper. The error occurred in the first sentence of Section 4.4 in the Experimental. The correct sentence is published below:

The (*R*)-MeCBS (437 mg, 1.5 mmol) was dissolved in DME (10 mL) and cooled to -20°C . Through an addition funnel was added a solution of α -fluoroacetophenone (1.5 mmol) dissolved in DME (5 mL) over 20 min.
