J.Ø. MADSEN, C. NOLDE, S.-O. LAWESSON, G. SCHROLL, J. H. BOWIE and D. H. WILLIAMS:

Skeletal rearrangement reactions in sulphides; disulphides, sulphoxides  
and sulphones upon electron impact

Tetrahedron Letters No.49, pp. 4377-4380 (1965).

p. 4379, second sentence, read "Generally speaking, the sulphides or  
disulphides may eliminate a sulphur atom (and in some cases additional  
hydrogen atoms), with combination of the terminal groups".
