

ERRATUM

J. W. ROWE and G. W. SHAFFER: Structures of contortadiol (agathadiol),
contortolal (agatholal), and hydroxyepimanol (epitorulosol).

Tetrahedron Letters No. 30, pp. 2633-2637 (1965).

The structural formulas illustrated for epimanol (I) and epitorulosol
(II) here and in the original publication [J. W. Rowe and J. H.
Scroggins, J. Org. Chem., 29, 1554 (1964)] are actually those of
manool and torulosol, respectively. The correct formulas should
have the antipodal S configuration at C-13.
