R. FUTAKI: Tracer studies on the mechanism of the dienone-phenol rearrangement with mineral acids

Tetrahedron Letters No.26, pp. 2455-2458 (1967).

p 2457 The second and third figures at the bottom should be as follows:

p 2458 VI under the last figure should read IV'.

R. J. BAUMGARTEN and P. J. DECHRISTOPHER: A novel deamination: The synthesis of styrene from 2-phenylethylamine via the utilization of the saccharin anion as a leaving group
Tetrahedron Letters No.31, pp. 3027-3029 (1967)

p. 3027, author by-line: Philip J. DeChristopher instead of Phillip L. DeChristopher

p. 3027, line 1: nucleophilic instead of nucleophillic

p. 3028, paragraph 1, last line: N-alkyl derivative I, instead of N-alkyl derivative (II)

E. J. COREY and W. H. PIRKLE: Tricyclo [2^{3,6}.1.1.0]pyran-2-one
Tetrahedron Letters No.51, pp. 5255-5256 (1967)

p.5255, line 4, for "greater volatility"
read "lesser volatility"
