

## ERRATA

G. MANECKE und J. GAUGER : Kondensationsprodukte der Quadratsäure

mit primären und sekundären Aminen :

Tetrahedron Letters No.11 p. 1339 (1968)

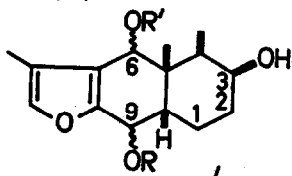

Formel III muß wie folgt aussehen :

L. NOVOTNY, Z. SAMEK, V. HEROUT and F. SORM: The structure of kablicin. The main component of the light petroleum extracts of petasites *kablikianus* TAUSCH ex BERCHT, and of petasites *paradoxus* /RETZ/ BAUMG. Rhizomes

Tetrahedron Letters No.11, pp. 1401-1404, 1968.

The Formula of Kablicin /I/ should be

and therefore 3-hydroxy-groups in formulas II, III, IV, V and XII should be beta oriented.
