

Erratum

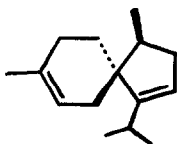

N. H. ANDERSEN, and D. D. SYRDAL: The Alaskenes - Precursors of Tricyclic Sesquiterpenes.

Tetrahedron Letters, No. 26, pp. 2277-2280 (1970).

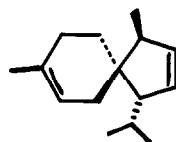

p. 2277 Structural formula V, VI, and VII should appear as below.

V

VI

VII

p. 2278 Neoacorone (V)* was

* The stereostructure of VII is based on its production in high yield from isoacorone. We find neoacorone to be a mixture, not of cryptoacorone and acorone, but of acorone, isoacorone and an additional minor component.
