Z.W.WOLKOWSKI: Tris(dipivalomethanato) europium-induced shifts in PMR Oximes

Tetrahedron Letters No. 12, p. 825- 828 (1971)

The shift values for the aldehydic proton in acetaldoxime isomers should be permuted (Table 1). The relevant conclusions concerning assignment of oxime isomers will be discussed in a full paper.

M. RAVAUX, M. LALOI-DIARD et M. VILKAS: Réactivité de benzotriazoles vis-à-vis de l'acetate de p-nitrophényle. Hydrolyse de l'acétyl-1 benzotriazole.

Tetrahedron Letters No. 43, pp 4015 - 4018 (1971)
