G. Andrews and D. A. Evans, The Stereochemistry of the Rearrangement of Allylic Sulphonium Ylids: A New Method for the Stereoselective Formation of Asymmetry at Quaternary Carbon, Tetrahedron Letters, 31, 5121, (1972).

The last sentence of the first paragraph of page 5123 should read:  
"The formyl proton resonance ( $\text{CDCl}_3$ ) of the axial isomer 11 (9.30  $\delta$ ) as compared to 10 (9.26  $\delta$ ) showd the expected downfield shift of the axial formyl group.<sup>15</sup>"
