

ERRATA

H G Kuivila and C H -C Pian, Chemistry of organoditins -I Stereochemistry of dehalogenation of vicinal dihalides, *Tetrahedron Letters*, 2561 (1973)

(a) In Table 1, under the heading 'isomer' the word *erythro* should appear in the line with the first row of figures of the second set

(b) In the last column of the Table, headed '*cis*', the second number up from the bottom should be 11 3 instead of 85 1

D J Pasto and J K Borhardt, Partial resolution and correlation of the absolute configuration of (-)-(R)-2-phenylisobutylenecyclopropane, *Tetrahedron Letters*, No 27, 2517 (1973)

pg 2518, line 3, reading $([\alpha]_D^{25} + 3.8^\circ)$
should read $([\alpha]_D^{25} + 12.1^\circ)$

pg 2519, line 9, reading the optical purity of the ester,
should read the enantiomeric purity of the ester,

Sidney I Featherman and Louis D Quin, Assignment of structure to isomeric 4-phosphorinanos by ^{13}C NMR spectroscopy, *Tetrahedron Letters*, No 21, 1955 (1973)

Further study of the ^{13}C spectrum of the Va-Vb mixture has revealed that the lowfield halves of the CH_3 doublets were superimposed, leading to incorrect assignments in Table I. Correct values are Va δ 180.8 ($^2J_{\text{PC}} = 14.3$), Vb, δ 180.9 ($^2J_{\text{PC}} = 16.8$ Hz). Assignments to particular isomers were again made on the basis of the conformational effect expressed as Vc, but must be considered tentative only.
