

ERRATUM

David E. Cane and G. G. S. King, THE BIOSYNTHESIS OF OVALICIN: ISOLATION OF β -trans-BERGAMOTENE, Tetrahedron Letters No. 51, pp 4737 - 4740 (1976).

This manuscript was to have been published simultaneously with the article by S. Nozoe et. al, ISOLATION OF β -trans-BERGAMOTENE FROM ASPERGILLUS FUMIGATUS..., Tetrahedron Letters No. 50, pp. 4625 - 4626 but was inadvertently omitted.

In addition the manuscript was altered in an unauthorized manner during the editorial process. As a result the following changes should be noted:

- 1) The last two lines of p. 4740 should follow footnote 8.
- 2) The last line of footnote 11 "*See the accompanying manuscript" is changed to see S. Nozoe, H. Kobayashi, and N. Morisaki, Tetrahedron Lett., 4625 (1976).

The Editor regrets the above errors.
