

ERRATUM

4-HYDROXYNORNANTENINE, A 4-HYDROXYLATED NORAPORPHINE

Tetrahedron Lett., (30), 2649-52 (1978)

A. Urzúa and B. K. Cassels

Universidad Técnica del Estado, Facultad de Ciencia, Departamento de Química,
Santiago, Chile

The absolute configuration of the title compound is (4R, 6aS), as depicted in the Figure, and not (4S, 6aS) as stated in the text. The same discrepancy between figures and text is noted in the literature references to cataline and episteporphine, which are illustrated as (4R, 6aS) and (4R, 6aR), respectively, and not (4S, 6aS) and (4S, 6aR).
