

E R R A T A

V. Jäger and W. Schwab, Synthesis via Isoxazolines II. Novel 4-Substituted 2-Isoxazoline by Endo-Deprotonation/Alkylation,

V. Jäger, V. Buß and W. Schwab, Synthesis via Isoxazolines III. Diastereoselective Synthesis of γ -Amino Alcohols with 2 and 3 Chiral Centres,

Tetrahedron Letters, pp. 3129-3132 and 3133-3136 (1978).

The dates of receipt/acceptance should read

(Received in UK 2 May 1978; accepted for publication 22 June 1978)

NOTICE TO CONTRIBUTORS

ABSTRACTS

It is mandatory for authors to supply with each paper a short abstract of 1 to 3 lines typed in single spacing. This must appear immediately after the address and before the commencement of the paper. Keywords are no longer required.
