Masamune has pointed out that the intermediacy of 1,2,3,4-tetrahydro-9,10-didehydroanthracene (8) in his conversion of the cyclohexene-annelated 1,5-bisdehydro[10]annulene (7) to 1,2,3,4-tetrahydroanthracene (9) has already been discussed in review articles [A.V. Kemp-Jones and S. Masamune, "Topics in Non-benzenoid Aromatic Chemistry", Vol. 1, Ed. T. Nozoe et al., Hirokawa Publishing Co., Inc., Tokyo, 1973, p. 121; R.G. Bergman, Acc. Chem.
