Multisite molecular receptors and co-systems ammonium cryptates of macrotricyclic structures
F. Kotzyba-Hibert, J.M. Lehn and P. Vierling,
Tetrahedron Letters 21, 941-944.

On p942 lines 5 and 6 of the final paragraph should read'

... for the inclusion of one or both substrate molecules in the central cavity of the macrotricyclic, the latter forming a ...

On p944, last line, the date of receipt should be 7 January 1980, not December as printed.
