

E R R A T U M

An Unusual Cleavage of a side chain during
catalytic Hydrogenation of Some Octabones.

A. S. Sarma* and P. Chattopadhyay

Department of Organic Chemistry, Indian Association
for the Cultivation of Science, Calcutta - 700 032

Tetrahedron Letts., 21, 1079 (1980)

The structure of 4 was incorrect. The
actual structure is the hydroxy-ketone,
corresponding to ketal 4.
