IN PHOTOCHEMICAL GENERATION OF VINYLKETENES BY ELECTROCYCLIC  
OPENING OF CYCLOBUTENONES by Alfred Hassner, Simha Naidorf  
in Tetrahedron Letters 27, 6389 (1986)

the sentence in the middle of the first paragraph should read

...there have apparently been few reports on photolytic ring  
opening of these compounds <sup>3b,4</sup>,...

Tetrahedron Letters, n° 40 pp 4917 (1986)  
M. Clarembeau and A. Krief  
On the Structure of  $\alpha$ -Metallo Benzylselenides

Legends to figures 1-4 should be read as follow

- refers to  $\delta^{77}\text{Se}$  NMR for compound 2
- refers to  $\Delta\delta^{77}\text{Se}$  NMR between compounds 1 and 2

Figure 3

read refers to  $\delta^{77}\text{Se}$  NMR for compound 2h instead of 2b
