CORRIGENDUM

Tetrahedron Letters, Vol. 29, No. 28, pp 3441-3444 (1988)

Gary W. Morrow, Shaopeng Wang, and John S. Swenton*. Spirodienones via a Thermal Uncatalyzed [1,3]-Oxygen-to-Carbon Migration.

A calculation error was made in reporting the rate constants listed in the table. Given below is a corrected table. No scientific conclusions were changed by this correction.

Table. Kinetic Data for Thermal [1,3]-Oxygen-to-Carbon Migration for 4a and 4c

4a ^a		4c ^a	
Temperature (°C)	Rate ^b (× 10 ⁵ sec ⁻¹)	Temperature (°C)	Rate ^b (× 10 ⁵ sec ⁻¹)
153	2.60	99	2.63
169	10.65	113	12.27
182	32.39	128	51.76
$k = kT/h e^{-31,800/RT} e^{-5.5/R}$		$k = kT/h e^{-29,700/RT} e^{-0.1/R}$	

^a Concentration of 4a was 6.3 × 10⁻² M and 4c was 5.81 × 10⁻⁴ M.

^b Rates are averages of two determinations and are thought to be accurate to ± 5%.
