

## CORRIGENDA

PII: S0040-4039(97)01696-1

Santos Fustero, Antonio Navarro and Amparo Asensio, A new and general synthesis of *N*-substituted fluorinated  $\beta$ -iminosulfoxides, *Tetrahedron Letters*, **1997**, *38*, 4891–4894, PII: S0040-4039(97)01051-4.

Bravo, Zanda *et al.* have previously reported the synthesis of *N*-aryl and *N*-alkyl fluoroalkyl (aryl sulfinyl) methyl imines by addition of *N*-substituted trifluoro and chlordifluoro acetimidoyl chlorides to two equivalents of  $\alpha$ -lithium methyl *p*-tolylsulfoxide (*R*).

The authors regret the unintentional omission of the following reference:

Bravo, P.; Cavicchio, G.; Crucianelli, M.; Markovsky, A. L.; Volonterio, A.; Zanda, M. *Synlett*, **1996**, 887

Our method differs from the procedure of Bravo, Zanda *et al.* in that the reactions were carried out with only one equivalent of aryl methyl sulfoxide. We have also extended and applied this methodology to non-fluorinated aromatic and aliphatic imidoyl chlorides.

The authors apologise for this omission and thank Dr. Zanda for pointing this out.

PII: S0040-4039(97)01697-3

Jan-E. Bäckvall and Catrin Jonasson, Palladium-catalyzed 1,2-oxidation of allenes, *Tetrahedron Letters*, **1997**, *38*, 291–294, PII: S0040-4039(96)02295-2.

On page 292, in the fourth line, 1,2-heptyne (3) should read 1,2-heptadiene (3).
