## Announcement

---

On behalf of the Executive Board, I am delighted to announce the establishment of a new Board of Consulting Editors for *Tetrahedron* and *Tetrahedron Letters*.

Both journals were founded by Professor Sir Robert Robinson and Professor Robert Burns Woodward in the late 1950s. They have since played a leading role in organic chemistry research and are now at an exciting point in their development (see the Publishers' Announcement on the reverse of this page).

I would like to thank the previous members for their efficient and continued support over many years.

I would also like to welcome our new members on whom we will rely for support in our peer review process and advice in steering a course for the Journals.

Wishing all our readers and authors a Happy and Successful New Year.

Professor Léon Ghosez  
Chairman of the Executive Board of Tetrahedron Publications
