

ERRATA

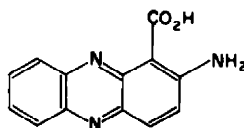

C. C. TUNG: 1,2-Dihydroquinoline studies—I. The structure of the arylamine-acetone condensation products. *Tetrahedron*, **19**, 1685 (1963).

The author's address is as follows:

Research Department,
Agricultural Division,
Monsanto Chemical Company,
St. Louis 66,
Missouri, U.S.A.

F. G. HOLLIMAN: Phenazines—V. The synthesis of 2-aminophenazine-1-carboxylic acid. *Tetrahedron*, **19**, 1911 (1963).

The formula I on p. 1911 should be replaced by the following:

TETRAHEDRON LETTERS

1964

NUMBER 6

FEBRUARY

CONTENTS

K. MORITA and Z. SUZUKI: A simple method for the preparation of bicyclo[2.2.2]octane systems from methyl vinyl ketone derivatives	263
J. GOUGH and M. D. SUTHERLAND: The structure of spinochrome B	269
K. TAKEDA and M. IKUTA: Structure of linderene	277
U. RENNER and H. FRITZ: Isomere des Voacamins: Voacamidin, Conodurin und Conoduramin	283
N. K. KOCHETKOV, A. J. KHORLIN and A. F. BOCHKOV: New synthesis of glycosides	289
E. E. VAN TAMELEN and I. G. WRIGHT: Total synthesis of DL-corynantheine	295
R. G. SCHULTZ: π -Allylic complexes from allene	301
F. C. CHANG: Alkaline hydrolysis of methanesulfonate esters without inversion	305
P. T. LANSBURY, R. E. MACLEAY and J. O. PETERSON: On the role of electrophilic catalysis in competitive reduction of ketones	311

Papers to be published in future issues

- A. L. J. BECKWITH and R. J. LEYDON: Free-radical substitution of ferricinium ion.
M. V. BHATT: Quinone Studies—I.
B. JORDANOV, A. JOVTSHEFF, S. SPASSOV, B. BLAGOEV and M. AGOVA: IR-Spektroskopische Konformationsermittlung einiger 3-in-1-ol-Verbindungen.
A. HASSNER and C. HEATHCOCK: Synthesis of fused ethyleneimines from cyclic olefins.
R. IKEDA, D. NAKAMURA, S. ITO, H. SUGIYAMA and M. KUBO: Pure quadrupole resonance of bromine in bromotropolones.
R. R. SAUERS and P. E. SONNET: Addition of ethyl diazoacetate to bicyclic olefins.
C. F. HAMMER, D. S. SAVAGE, J. B. THOMSON and R. STEVENSON: The conversion of ergosterol to a ring C-benzenoid steroid.
A. MUSTAFA *et al.*: Reaction with 4-substituted isoxazolin-5-ones—II.
R. C. COOKSON, N. S. ISAACS and M. SZELKE: Some derivatives of dicyclopentadiene.
