

ERRATA

O. KORVER, Optical rotatory dispersion and circular dichroism of δ -lactones.
Determination of the absolute configuration of (+)5-decanolide and (+)5-dodecanolide.

Tetrahedron **26**, 2391 (1970)

The absolute configurations of the (+)5-decanolide and (+)5-dodecanolide are
R (not *RS*)

The absolute configuration of the (–)5-hexanolide is *S* (not *SR*)
