Three new compounds whose preparation was described in the above paper did not have their melting points stated:

They are

2-Phenanthryl Styryl Ketone, m.p. 151°

6-Chrysyl Styryl Ketone, m.p. 190–191°

7-Phenyl-6,7-dihydro-5H-cyclopenta(g)chrysen-5-one, m.p. 261–263°
