L. A. Yanovskaya, B. Umirzakov, V. F. Kucherov, I. P. Yakovlev, B. M. Zolotarev, O. S. Chizhov, L. G. Vorontsova, I. N. Fundyler, M. G. Grunfest, Yu. V. Kolodyazhny and O. A. Osipov: Substituent effects on some physicochemical properties of chalcones and their vinylogues. *Tetrahedron* 29, 4321-4329 (1973)

The Editors regret that Figs 1-4 were omitted from the above article.

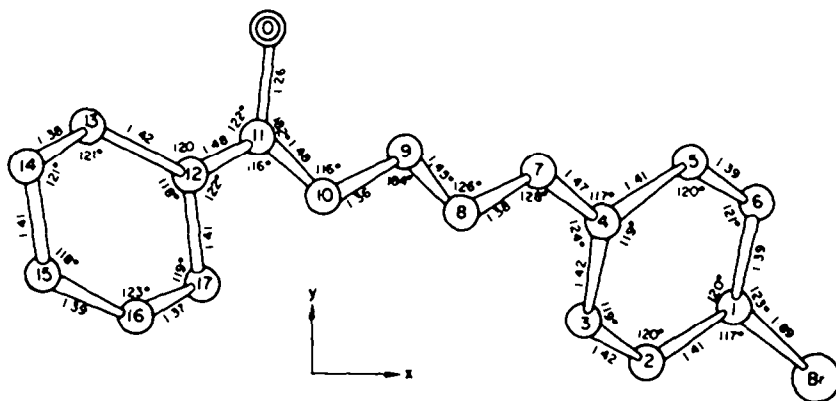

Fig 1. The projection of the molecule of I ($n = 2$, $R = \text{Br}$) on the plane $(X, Y, 0)$

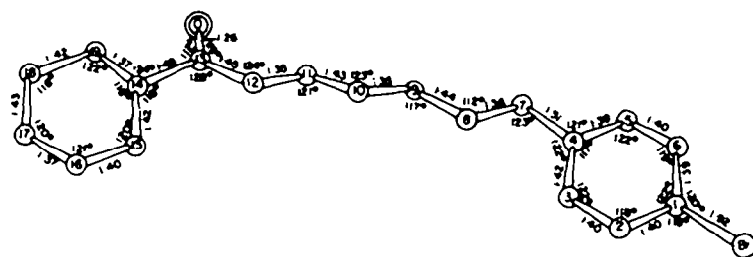

Fig 2. The projection of the molecule of I ($n = 3$, $R = \text{Br}$) on the plane $(X, Y, 0)$

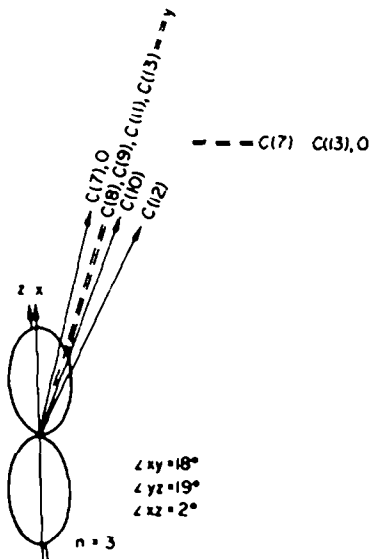

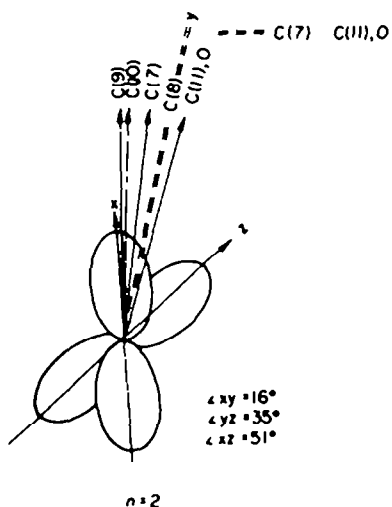

Fig 3. Schematic picture of directions of π -orbitals of polyenic chain of I ($n = 2$, $R = \text{Br}$).

Fig 4. Schematic picture of directions of π -orbitals of polyenic chain of I ($n = 3$, $R = \text{Br}$).
