M. Furukawa, I. Hayakawa, G. Ohta and Y. Iitaka, Structure and chemistry of kidamycin. *Tetrahedron* **31**, 2989–2995 (1975).

(1) p. 2990 line 2 down (in Table 1)

(2a) and (2b) should read (4a) and (4b) respectively.

(2) p. 2993 line 2 down (in Table 2)

2a should read 4a.

(3) p. 2994 line 2 up (left side)

1a should read 1e.

F. Bernardi, I. G. Csizmadia and N. D. Epiotis, The  $\pi$ -donating ability of heteroatoms in  $\alpha$ -substituted methyl cations. *Tetrahedron* **31**, 3085 (1975).

Inadvertently the arrows in Fig. 1 have been printed incorrectly and the corrected directions of electron donation are shown in the revised Fig. 1 below.

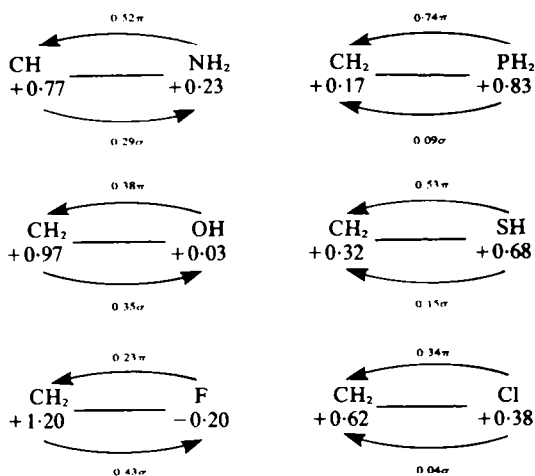

Fig. 1. Gross charges of the  $\text{CH}_2$  and X moieties in  $\text{CH}_2\text{-X}$ , together with the  $\sigma$  and  $\pi$  electron transfers (values for  $\text{CH}_2\text{-OH}$  and  $\text{CH}_2\text{-SH}$  were taken from Ref. 1).
