

CORRIGENDUM

C M Gasparski, M J. Miller, Synthesis of β -Hydroxy α - Amino Acids by Aldol Condensation Using a Chiral Phase Transfer Catalyst, *Tetrahedron*, 1991, Vol 47, No 29, 5367-5378

On p 5375, the procedure for the syntheses of **76** and **86** report that the major diastereomers (**76**) and the minor diastereomers (**86**) could be crystallized from benzene and methanol, respectively. The correction is that the major diastereomers (**76**) can be crystallized from *methanol* and the minor diastereomers (**86**) from *benzene*
