The title for this article should read:

'The effect of the carbonyl group in the cyclization of 5-hexenyl radicals'

Maria de Bernardi, Luigi Garlaschelli, Lucio Toma, Giovanni Vidari and Paola Vita-Finzi, Fungal metabolites—XXVI. The structure of saponaceolides B, C and D, new C-30 terpenoids from *Tricholoma saponaceum*, *Tetrahedron* **1991**, *47*, 7109-7116.

The second to last sentence of page 7113, just above scheme 1, states that the configuration assigned to saponaceolide A is *2R,6R,10R,2'S,5'S,6'S,9'R*. This is incorrect. The correct configuration is *2R,6R,10R,2'S,5'S,6'S,9'S* which can be ascertained from the formula 1.
