

### CORRIGENDUM

Jiao D., Russell K. C. and Hruby V. J. Locally constrained tyrosine analogues with restricted side chain dynamics, *Tetrahedron*, 1993, 49, 3511-3520.

In Figure 1 the methyl resonances in the proton NMR spectra of compound 1 at 22°C were wrongly labelled, the corrected version is given below.

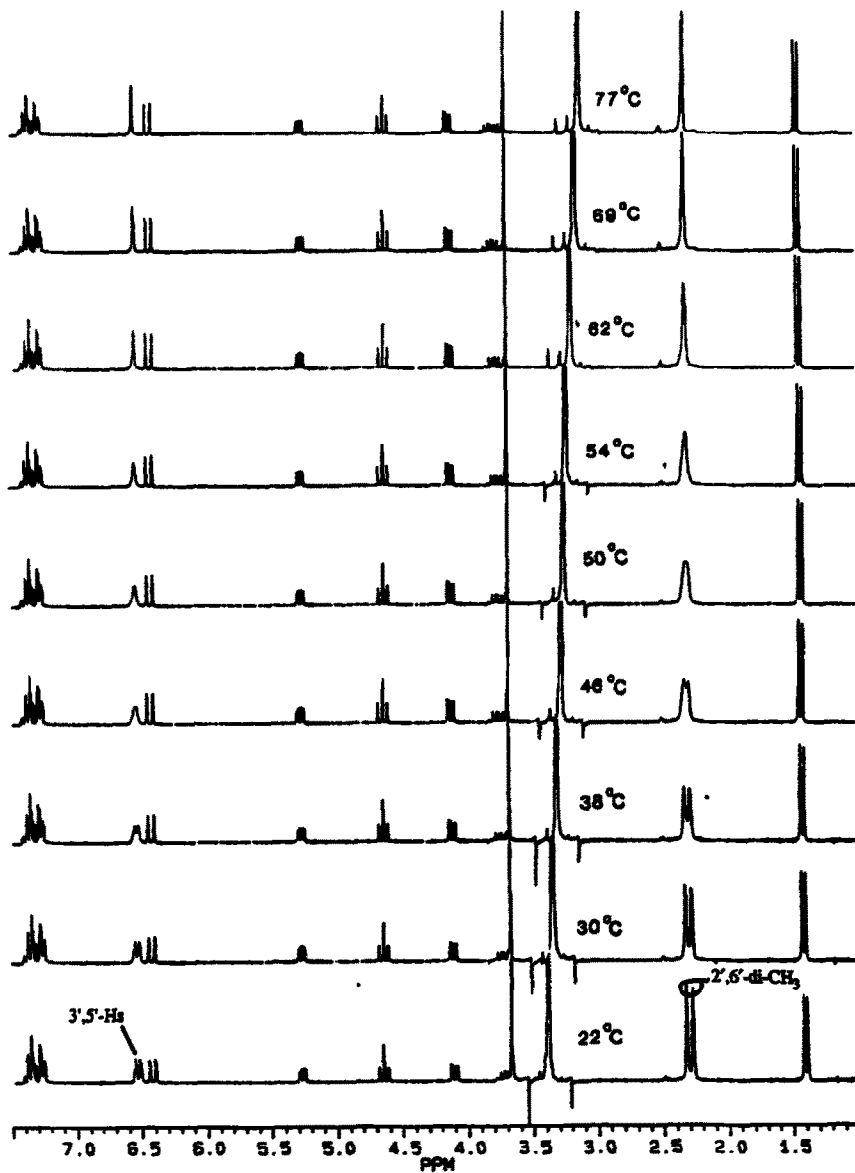

Figure 1. Proton NMR spectra of compound 1 in DMSO- $d_6$  at different temperatures, showing the coalescence (at 30°C) of the two aromatic methyl resonances at  $\sim 2.3$  ppm.
