

## CORRIGENDUM

S0040-4020(96)00211-6

Ralph-Heiko Mattern, Sarath Gunasekera and Oliver McConnell, Synthetic studies of microcolin B, *Tetrahedron*, **1996**, 52, 425-434, 0040-4020(95)00922-1.

The structures (15) and (7) on page 427 should contain Thr not Ser. The corrected structures are shown below. The  $\gamma$ -Thr methyl group in the final version of the manuscript was unfortunately drawn in a line width too narrow to be visible after the photographic reproduction process. We regret any confusion that might have been caused by this mistake. However, we believe that it is clear from the context and from the structure (7) of the target molecule shown on page 426 that we incorporated Thr and not Ser.
